

## **PART 1 – BACKGROUND, PURPOSE, AND APPLICABILITY**

### **BACKGROUND**

The Single Audit Act of 1984 established requirements for audits of States, local governments, and Indian tribal governments that administer Federal financial assistance programs. In 1985, the Office of Management and Budget (OMB) issued OMB Circular A-128, “Audits of State and Local Governments,” to provide implementing guidance. In 1990, OMB administratively extended the single audit process to non-profit organizations by issuing OMB Circular A-133, “Audits of Institutions of Higher Education and Other Non-Profit Organizations.”

On July 5, 1996, the President signed the Single Audit Act Amendments of 1996 (31 USC Chapter 75). The 1996 Amendments extended the statutory audit requirement to non-profit organizations and substantially revised various provisions of the 1984 Act. On June 30, 1997, OMB issued revisions to Circular A-133 (62 FR 35278) to implement the 1996 Amendments, extend OMB Circular A-133’s coverage to States, local governments, and Indian tribal governments, and rescind OMB Circular A-128. The 1996 Amendments required the Director, OMB, to periodically review the audit threshold. On June 27, 2003, OMB amended Circular A-133 (68 FR 38401) to increase the audit threshold to an aggregate expenditure of \$500,000 in Federal funds and to make changes in the thresholds for cognizant and oversight agencies. Those changes took effect for fiscal years ending after December 31, 2003. OMB further amended Circular A-133 on June 26, 2007 (72 FR 35080) to (1) update internal control terminology and related definitions in Circular A-133 and (2) simplify the auditee reporting package submission requirement.

This Compliance Supplement is based on the requirements of the 1996 Amendments and 1997 revisions to OMB Circular A-133, which provide for the issuance of a compliance supplement to assist auditors in performing the required audits. The Senate and House Reports supporting the 1996 Amendments cited studies of the single audit process performed by the Government Accountability Office, the President’s Council on Integrity and Efficiency, and the National State Auditors Association (NSAA). All three studies supported the need for a current compliance supplement. The NSAA study stated, “The Compliance Supplement provides an invaluable tool to both Federal agencies and auditors in setting forth the important provisions of Federal assistance programs. This tool allows Federal agencies to effectively communicate items that they believe are important to the successful management of the program and legislative intent. Such a valuable tool requires constant review and update.”

This document serves to identify existing important compliance requirements that the Federal Government expects to be considered as part of an audit required by the 1996 Amendments. Without this Supplement, auditors would need to research many laws and regulations for each program under audit to determine which compliance requirements are important to the Federal Government and could have a direct and material effect on a program. Providing this Supplement is a more efficient and cost-effective approach to performing this research. For the programs contained herein, this Supplement provides a source of information for auditors to understand the Federal program’s objectives, procedures, and compliance requirements relevant to the audit as well as audit objectives and suggested audit procedures for determining compliance with these requirements.

This Supplement also provides guidance to assist auditors in determining compliance requirements relevant to the audit, audit objectives, and suggested audit procedures for programs not included herein. For single audits, this Supplement replaces agency audit guides and other audit requirement documents for individual Federal programs.

OMB Circular A-133 provides that Federal agencies are responsible to annually inform OMB of any updates needed to this Supplement. This responsibility includes ensuring that program objectives, procedures, and compliance requirements, noncompliance with which could have a direct and material effect on these individual Federal programs, are provided to OMB for inclusion in this Supplement, and that agencies keep current these program objectives, procedures, and compliance requirements (including statutory and regulatory citations). To facilitate agency efforts to meet this responsibility, Parts 4 and 5 of this Supplement provide a stand-alone section for each program included in this Supplement, which contains program objectives, program procedures, and compliance requirements. For some programs a separate section (IV, "Other Information") also is included to communicate additional information concerning the program. For example, when a program allows funds to be transferred to another program, section IV will provide guidance on how those funds should be treated on the Schedule of Expenditures of Federal Awards and Type A program determinations. See Appendix IV for a list of programs that contain this section. These program-specific sections can be updated or replaced as Federal programs change. Also, sections will be included as part of the annual update for additional programs once the program objectives, program procedures, and compliance requirements relevant to the program are developed.

## **PURPOSE AND APPLICABILITY (Part 1)**

### **Purpose**

This Supplement is effective for audits of fiscal years beginning after June 30, 2013, and supersedes the OMB Circular A-133 Compliance Supplement dated March 2013.

OMB Circular A-133 describes the non-Federal entity's responsibilities for managing Federal assistance programs (§\_\_\_\_.300) and the auditor's responsibility with respect to the scope of audit (§\_\_\_\_.500). Auditors are required to follow the provisions of OMB Circular A-133 and this Supplement.

### **Applicability**

#### *General*

Auditors shall consider this Supplement and the referenced laws, regulations, and OMB Circulars (whether codified by Federal agencies implementing the Circulars in agency regulations or implemented by other means) in determining the compliance requirements that could have a direct and material effect on the programs included herein. That is, use of this Supplement is mandatory. Accordingly, adherence to this Supplement satisfies the requirements of OMB Circular A-133. For program-specific audits performed in accordance with a Federal agency's program-specific audit guide, the auditor shall follow such program-specific audit guide. Finally, for major programs not included in this Supplement, the auditor shall follow the guidance in Part 7 and use the types of compliance requirements in Part 3 to identify the applicable compliance requirements which could have a direct and material effect on the program.

#### *Update of Requirements*

OMB Circular A-133 provides that Federal agencies are responsible for annually informing OMB of any updates needed to this Supplement. However, auditors should recognize that laws and regulations change periodically and that delays will occur between such changes and revisions to this Supplement. Moreover, auditors should recognize that there may be provisions of contract and grant agreements that are not specified in law or regulation and, therefore, the specifics of such are not included in this Supplement. For example, the grant agreement may specify a certain matching percentage or set a priority for how funds should be spent (e.g., a requirement to not fund certain size projects). Another example is a Federal agency imposing additional requirements on a recipient because it is designated high-risk, in accordance with the A-102 Common Rule or an agency's implementation of Circular A-110 (now included at 2 Code of Federal Regulations [CFR] part 215) or as part of resolution of prior audit findings.

Accordingly, the auditor should perform reasonable procedures to ensure that compliance requirements are current and to determine whether there are any additional provisions of contract and grant agreements that should be covered by an audit under the 1996 Amendments. Reasonable procedures would be inquiry of non-Federal entity management and review of the contract and grant agreements for programs selected for testing (i.e., major programs).

### *Safe Harbor Status*

Because the suggested audit procedures were written to be able to apply to many different programs administered by many different entities, they are necessarily general in nature. Auditor judgment will be necessary to determine whether the suggested audit procedures are sufficient to achieve the stated audit objectives or whether alternative audit procedures are needed. Therefore, the auditor should **not** consider this Supplement to be a “safe harbor” for identifying the audit procedures to apply in a particular engagement.

However, the auditor can consider this Supplement a “safe harbor” for identification of compliance requirements to be tested for the programs included herein if, as discussed above, the auditor (1) performs reasonable procedures to ensure that the requirements in this Supplement are current and to determine whether there are any additional provisions of contract and grant agreements that should be covered by an audit under the 1996 Amendments, and (2) updates or augments the requirements contained in this Supplement, as appropriate.

### *Responsibility for Other Requirements*

Although the focus of this Supplement is on compliance requirements that could have a direct and material effect on a major program, auditors also have responsibility under *Generally Accepted Government Auditing Standards* (GAGAS) for other requirements when specific information comes to the auditors’ attention that provides evidence concerning the existence of possible noncompliance that could have a material indirect effect on a major program.

## **OVERVIEW OF THIS SUPPLEMENT**

### **Matrix of Compliance Requirements (Part 2)**

The Matrix of Compliance Requirements (Matrix) identifies the Federal programs and compliance requirements addressed in this Supplement, and associates the programs with the applicable compliance requirements. The Matrix also identifies the applicable Federal agency and the *Catalog of Federal Domestic Assistance* (CFDA) number for each program included in this Supplement.

### **Compliance Requirements (Part 3)**

Part 3 lists and describes the 14 types of compliance requirements and, except for Special Tests and Provisions (other than those related to cross-cutting aspects of the American Recovery and Reinvestment Act [ARRA] [Pub. L. No. 111-5]), the related audit objectives that the auditor shall consider, as applicable, in every audit conducted under OMB Circular A-133, with the exception of program-specific audits performed in accordance with a Federal agency's program-specific audit guide. The auditor is responsible for achieving the stated audit objectives for the applicable compliance requirements.

Suggested audit procedures are provided to assist the auditor in planning and performing tests of non-Federal entity compliance with the requirements of Federal programs. The suggested audit procedures are, as the name implies, only suggested. Auditor judgment will be necessary to determine whether the suggested audit procedures are sufficient to achieve the stated audit objectives and whether alternative audit procedures are needed. Determining the nature, timing, and extent of the audit procedures necessary to meet the audit objectives is the auditor's responsibility.

The compliance requirements for Special Tests and Provisions (other than those related to the cross-cutting aspects of ARRA) are unique to each Federal program; therefore, compliance requirements, audit objectives, and suggested audit procedures for those Special Tests and Provisions other than the audit objectives and suggested audit procedures for internal control are not included in Part 3.

Consistent with the requirements of OMB Circular A-133, this Part includes audit objectives and suggested audit procedures to test internal control. However, the auditor must determine the specific procedures to test internal control on a case-by-case basis considering factors such as the non-Federal entity's internal control, the compliance requirements, the audit objectives for compliance, the auditor's assessment of control risk, and the audit requirement to test internal control as prescribed in OMB Circular A-133.

## **Agency Program Requirements (Part 4)**

For each Federal program included in this Supplement, Part 4 discusses program objectives, program procedures, and compliance requirements that are specific to the program. With the exception of section III.N, “Special Tests and Provisions,” the auditor shall refer to Part 3 for the audit objectives and suggested audit procedures that pertain to the program-specific compliance requirements associated with the programs. Since, in general, Special Tests and Provisions are unique to the program, the specific audit objectives and suggested audit procedures for the program are included in Part 4 with the exception of audit objectives and suggested audit procedures for internal control and those related to the cross-cutting aspects of ARRA, which are included in Part 3.

The description of program procedures is general in nature. Some programs may operate somewhat differently than described due to (1) the complexity of governing Federal and State laws and regulations; (2) the administrative flexibility afforded non-Federal entities; and (3) the nature, size, and volume of transactions involved. Accordingly, the auditor should obtain an understanding of the applicable compliance requirements and program procedures in operation at the non-Federal entity to properly plan and perform the audit.

## **Clusters of Programs (Part 5)**

A cluster of programs is a grouping of closely related programs that have similar compliance requirements. Although the programs within a cluster are administered as separate programs, a cluster of programs is treated as a single program for the purpose of meeting the audit requirements of OMB Circular A-133 (§\_\_.105).

The types of clusters included in Part 5 are: Research and Development (R&D), Student Financial Aid (SFA), and other clusters. “Other clusters” are as identified in this Supplement or designated in a State award document. Part 5 provides compliance requirements, audit objectives, and suggested audit procedures for R&D and SFA clusters and lists other clusters.

In planning and performing the audit, the auditor should determine whether programs administered by the non-Federal entity are part of a cluster by referring to the provisions of Part 5 of this Supplement and the State award documents.

## **Internal Control (Part 6)**

As a condition of receiving Federal awards, non-Federal entities agree to comply with laws, regulations, and the provisions of contract and grant agreements, and to maintain internal control to provide reasonable assurance of compliance with these requirements. OMB Circular A-133 requires auditors to obtain an understanding of the non-Federal entity’s internal control over Federal programs sufficient to plan the audit to support a low assessed level of control risk for major programs, plan the testing of internal control over major programs to support a low assessed level of control risk for the assertions relevant to the compliance requirements for each major program, and, unless internal control is likely to be ineffective, perform testing of internal control as planned. Part 6 is intended to assist non-Federal entities and their auditors in complying with these requirements by presenting characteristics of internal control which may

be used to reasonably ensure compliance with the types of compliance requirements in Part 3. The characteristics of internal control presented in Part 6 are neither mandatory nor all-inclusive.

### **Guidance for Auditing Programs Not Included in this Compliance Supplement (Part 7)**

Part 7 provides guidance to auditors in identifying the compliance requirements and designing tests of compliance with such requirements for programs not included in this Supplement.

### **Federal Programs Excluded from the A-102 Common Rule (Appendix I)**

This Appendix lists block grants and other programs excluded from the requirements of the “Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments” (also known as the “A-102 Common Rule”).

### **Federal Agency Codification of Certain Governmentwide Grants Requirements (Appendix II)**

This Appendix provides regulatory citations for Federal agencies’ codification of the A-102 Common Rule and OMB Circular A-110 (2 CFR part 215), “Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations,” in agency regulations. Some agencies have not codified the November 1993 revision to OMB Circular A-110, but have provided such policies to grantees through other means such as grant agreements. This Appendix also includes regulatory citations for Federal agencies’ codification of the OMB guidance on nonprocurement suspension and debarment in 2 CFR part 180, as well as the codification for those agencies still operating under the predecessor Common Rule on Debarment and Suspension (November 26, 2003).

### **Federal Agency Single Audit and Program Contacts for A-133 Audits (Appendix III)**

This Appendix identifies Federal agency-level contacts from whom auditors can request information or materials about Federal programs or the audit requirements of OMB Circular A-133. It also includes for each program listed in Parts 4 and 5 of the Supplement the name of a specific individual who can be contacted concerning that programs, along with the individual’s contact information.

### **Internal Reference Tables (Appendix IV)**

This Appendix provides a listing of programs in Parts 4 and 5 that include section IV, “Other Information.” This listing allows the auditor to quickly determine which programs have other information, such as guidance on Type A and Type B program determination or display on the Schedule of Expenditures of Federal Awards. This Appendix also indicates that the Medicaid Cluster is the only program currently identified as higher risk by OMB pursuant to Circular A-133, § \_\_.525(c)(2).

### **List of Changes for the 2014 Compliance Supplement (Appendix V)**

This Appendix provides a list of changes from the OMB Circular A-133 Compliance Supplement, dated March 2013, to the March 2014 Supplement.

## **Agency-Specific and Program-Specific Audit Guides (Appendix VI)**

This Appendix includes a list of agency-specific and program-specific guides maintained by the Federal agencies and indicates where to obtain them.

## **Other OMB Circular A-133 Advisories (Appendix VII)**

This Appendix provides information on (1) the effect of ARRA on OMB Circular A-133 audits; (2) elimination of granting extensions; (3) clarification of low-risk auditee criteria; (4) safe harbor for treatment of a large loan and loan guarantee programs in Type A program determination; and (5) common audit deficiencies cited in the report entitled *Report on the National Single Audit Sampling Project*, prepared by the President's Council on Integrity and Efficiency (PCIE) and the Executive Council on Integrity and Efficiency (ECIE), as well as some agency and program-specific advisories that affect the A-133 audit. Appendix VII also includes a list of ARRA programs not included in the Supplement and a list of ARRA programs not subject to the A-133 audit.

## **Standards for Attestation Engagements (SSAE) No. 16 Examinations of EBT Service Organizations (Appendix VIII)**

This Appendix provides guidance on audits of State electronic benefits transfer (EBT) service providers (service organizations) regarding the issuance, redemption, and settlement of benefits under the Supplemental Nutrition Assistance Program (CFDA 10.551) in accordance with the American Institute of Certified Public Accountants (AICPA) Statement on Standards for Attestation Engagements (SSAE) No. 16, Reporting on Controls at a Service Organization.

## **Compliance Supplement Core Team (Appendix IX)**

This Appendix provides a listing of the Compliance Supplement Core Team members who were responsible for the production of this Supplement.

## **TECHNICAL INFORMATION**

### **Page Numbering Scheme**

The following page numbering scheme is used in this Supplement to facilitate future revisions.

Each page included in Parts 1, 2, 3 (Introduction), 6 (Introduction), and 7 is identified by a label that represents the part number and sequential page number. A dash (-) separates the part number from the page number. For example, Part 1 is numbered as follows: 1-1, 1-2, 1-3, and so on.

Each page included in Parts 3 (excluding the Introduction), 4, 5, and 6 (excluding the Introduction) is identified by a label that represents the part number, section number identifier, and sequential page number. For example, Section A of Part 3 is numbered 3-A-1, 3-A-2, 3-A-3, and so on. The section number identifier for Part 4 represents the CFDA number of the applicable program. For example, the Department of Labor's Unemployment Insurance program, CFDA 17.225, is numbered 4-17.225-1, 4-17.225-2, 4-17.225-3, and so on.

## Code of Federal Regulations

The CFR is a codification of the rules issued by Federal agencies. The CFR is divided into 50 titles, which comprise the broad areas subject to Federal regulation. Each title is further divided into parts and sections, with most references to the CFR being made at this level.

Portions of the CFR are revised daily and these changes are published in the *Federal Register*. However, a revised version of the CFR is published only once each calendar year, on a quarterly basis as follows: titles 1–16 on January 1, titles 17–27 on April 1, titles 28–41 on July 1, and titles 42–50 on October 1.

In the event that changes to a particular section of a title have changed since the last published update of that section, a notation is made in the List of CFR Sections Affected (LSA), which is published monthly. The LSA cites the *Federal Register* page number that contains the changes to the CFR section.

In order to obtain the most current regulations, the user should consult not only the latest version of the CFR, but also the LSA issued in the current month. The Federal Digital System home page (<http://www.gpo.gov/fdsys/>) offers links to both the *Federal Register* and the CFR. An electronic CFR (e-CFR) is available at <http://www.ecfr.gov>. The e-CFR is a compilation of CFR material and *Federal Register* amendments. It is a current, daily updated version of the CFR; however, it is not an official legal edition of the CFR.

## HOW TO OBTAIN ADDITIONAL GUIDANCE

Guidance to assist auditors in performing audits in accordance with OMB Circular A-133 can be obtained from the following sources.

### Office of Management and Budget

The following information is located under the grants management heading on OMB's home page (<http://www.omb.gov>).

- OMB publications, including OMB Circulars and this Supplement for audits under OMB Circular A-133.
- SF-SAC, *Data Collection Form for Reporting on Audits of States, Local Governments, and Non-Profit Organizations*.
- Codification of Certain Governmentwide Grants Requirements by Department (including the A-102 Common Rule and OMB Circular A-110 (2 CFR part 215)).

**General Services Administration (GSA)**

- *Catalog of Federal Domestic Assistance (CFDA).*

A searchable copy of the CFDA and a pdf version are available through the Internet on the GSA Home Page (<http://www.gsa.gov/cfda>). Note that, if the CFDA indicates under a program entry (Post Assistance Considerations – Audit) that audit is “Not Applicable” or the program is not subject to A-133, the auditor should contact the Federal agency single audit office/official indicated in Appendix III of this Supplement.

**Government Accountability Office (GAO)**

- Government Auditing Standards, December 2011 Revision (GAO-12-331G) (<http://www.gao.gov/yellowbook>)

**Inspectors General**

IGnet Home Page (<http://www.ignet.gov>) contains an Inspector General Directory and the Inspector General Act.

**Federal Audit Clearinghouse**

The Federal Audit Clearinghouse acts as an agent for OMB to (1) establish and maintain a governmentwide database of single audit results and related Federal award information; (2) serve as the Federal repository of single audit reports; and (3) distribute single audit reports to Federal agencies.

The Clearinghouse maintains a site on the Internet at <http://harvester.census.gov/fac/>. For Data Collection Form (SF-SAC) and OMB Circular A-133 submission questions, contact the Federal Audit Clearinghouse by e-mail ([govs.fac@census.gov](mailto:govs.fac@census.gov)), phone (301-763-1551 (voice) and 800-253-0696 (toll free)), or fax 301-457-1592. For questions regarding previous submissions, contact the Federal Audit Clearinghouse Processing Unit at 888-222-9907. The Form SF-SAC and A-133 submission should be mailed to Federal Audit Clearinghouse, 1201 E. 10th Street, Jeffersonville, IN 47132.

## PART 2 – MATRIX OF COMPLIANCE REQUIREMENTS

### INTRODUCTION

This Part identifies the compliance requirements that are applicable to the programs included in this Supplement. Because Part 4 (Agency Program Requirements) and Part 5 (Clusters of Programs) do not include guidance for all types of compliance requirements that pertain to the program (see introduction to Part 4 for additional information), the auditor should use this Part 2 to identify the types of compliance requirements that apply. The box for each type of compliance requirement will either contain a “Y” (for “Yes” if the type of compliance requirement may apply) or be shaded (if the program normally does not have activity subject to this type of compliance requirement). **In addition, those programs with ARRA funding are shown in bold and, even if no other Special Tests and Provisions are applicable, “Special Tests and Provisions” is marked as “Y” due to the coverage of ARRA in Part 3-N.**

Even though a “Y” indicates that the compliance requirement applies to the Federal program, it may not apply at a particular non-Federal entity, either because that entity does not have activity subject to that type of compliance requirement or the activity could not have a material effect on a major program. For example, even though Real Property Acquisition and Relocation Assistance may apply to a particular program, it would not apply to a non-Federal entity that did not acquire real property covered by the Uniform Relocation Assistance and Real Property Acquisition Policies Act. Similarly, a “Y” may be included under Procurement; however, the audit would not be expected to address this type of compliance requirement if the non-Federal entity charges only small amounts of purchases to a major program. The auditor should exercise professional judgment when determining which compliance requirements marked “Y” need to be tested at a particular non-Federal entity.

When a “Y” is present on the matrix and the auditor determines that the requirement should be tested at a non-Federal entity, the auditor should use Part 3, Compliance Requirements, and Part 4 (or 5), if applicable, in planning and performing the tests of compliance. For example, if a program entry in the matrix includes a “Y” in the Program Income column, Part 3 provides a general description of the compliance requirement. Part 3 also provides the audit objective and the suggested audit procedures for testing program income. Part 4 (or 5) may also include specific information on program income requirements pertaining to the program, such as restrictions on how program income may be used. Part 6, Internal Control, may be useful in assessing control risk and designing tests of internal control with respect to each applicable compliance requirement.

When a compliance requirement is shaded in the matrix, it normally does not apply to the program. However, if specific information comes to the auditor’s attention (e.g., during the normal review of the grant agreement or discussions with management) that provides evidence that a compliance requirement shaded in the matrix could have a material effect on a major program, the auditor would be expected to test the requirement. This circumstance should arise infrequently.

*Legend:*

Y Yes, this type of compliance requirement may apply to the Federal program.

Shaded box Indicates the program normally does not have activity requiring the auditor to test this type of compliance requirement.

\* Program does not have a CFDA number, so the Part 4 page number is used.

\*\*.  
Applicability may be based on ARRA funding only and special tests and provisions specified in Part 3.

## PART 3 – COMPLIANCE REQUIREMENTS

### INTRODUCTION

The objectives of most compliance requirements for Federal programs administered by States, local governments, Indian tribal governments, and non-profit organizations are generic in nature. For example, most programs have eligibility requirements for individuals or organizations. While the criteria for determining eligibility vary by program, the objective of the compliance requirement that only eligible individuals or organizations participate is consistent across all programs.

Rather than repeat these compliance requirements, audit objectives, and suggested audit procedures for each of the programs contained in Part 4 – Agency Program Requirements and Part 5 – Clusters of Programs, they are provided once in this part. For each program in this Compliance Supplement (this Supplement), Part 4 or Part 5 contains additional information about the compliance requirements that arise from laws and regulations applicable to each program, including the requirements specific to each program that should be tested using the guidance in this part.

### Administrative Requirements

The administrative requirements that apply to most programs arise from two sources: the “Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments” (also known as the “A-102 Common Rule”) and 2 CFR part 215 (hereafter, OMB Circular A-110 and, as appropriate, specific citation to 2 CFR part 215), “Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations.” The applicable guidance depends on the type of organization undergoing audit. Other administrative compliance requirements that are not of the type covered in the A-102 Common Rule or OMB Circular A-110 and are unique to a single program or a cluster of programs are provided in the Special Tests and Provisions sections of Parts 4 and 5.

#### *State, Local, and Indian Tribal Governments*

Governmentwide guidance for administering grants and cooperative agreements to States, local governments, and Indian tribal governments is contained in the A-102 Common Rule, which was codified by each Federal funding agency in its title of the *Code of Federal Regulations*. The A-102 Common Rule section numbers are referred to without the Federal agency’s part number (e.g., §\_\_\_\_.37 would refer to sections in all agency regulations). This allows auditors to refer to the same section numbers when discussing administrative issues with different Federal funding agencies.

These requirements, which incorporate the cost principles by reference, apply to all grants and subgrants to governments, except grants and subgrants to State or local (public) institutions of higher education and hospitals, and except where they are inconsistent with Federal statutes or with regulations authorized in accordance with the exception provision of the A-102 Common Rule. Block grants authorized by the Omnibus Budget Reconciliation Act of 1981 and several

other specifically identified programs are exempted from the A-102 Common Rule. Appendix I to this Supplement specifies legislation and programs where exclusions exist.

In some cases the A-102 Common Rule permits States to follow their own laws and procedures, e.g., when addressing equipment management. These are noted in the sections that follow. The auditor will have to refer to an individual State's rules in those situations.

### *Non-Profit Organizations*

The major source of requirements applicable to institutions of higher education, hospitals and other non-profit organizations is OMB Circular A-110, which incorporates the cost principles by reference. The provisions of OMB Circular A-110 are codified in agency regulations (or other form of implementation), generally using the same section numbers as in the circular. The OMB Circular A-110 section numbers in this part of the Supplement are shown as 2 CFR part 215 references. However, unlike the A-102 Common Rule, with OMB approval, agencies could modify certain provisions of A-110 to meet their special needs. OMB Circular A-110 states "Federal agencies responsible for awarding and administering grants . . . shall adopt the language in the circular unless different provisions are required by Federal statute or are approved by OMB." OMB Circular A-110 states in 2 CFR section 215.4 that "Federal awarding agencies may apply more restrictive requirements to a class of recipients when approved by OMB." Federal awarding agencies may apply less restrictive requirements when making small awards, except for those requirements which are statutory. Exceptions on a case-by-case basis may also be made by Federal awarding agencies.

Appendix II to this supplement contains a list of agencies that have codified OMB Circular A-110 and the CFR citations for these codifications. These remain unchanged by the reissuance of A-110 in Title 2 of the CFR. Auditors should reference A-110 provisions using 2 CFR part 215 and/or agency implementing citations, as appropriate.

### *Subrecipients*

Governmental subrecipients are subject to the provisions of the A-102 Common Rule. However, the A-102 Common Rule permits States to impose their own requirements on their governmental subrecipients, e.g., equipment management or procurement. Thus, in some circumstances, the auditor may need to refer to State rules and regulations rather than Federal requirements.

All subrecipients who are institutions of higher education, hospitals, or other non-profits, regardless of the type of organization making the subaward, shall follow the provisions of OMB Circular A-110, as implemented by the agency, when awarding or administering subgrants except under block grants authorized by the Omnibus Budget Reconciliation Act of 1981 and the Job Training Partnership Act where State rules apply instead.

## **Compliance Requirements, Audit Objectives, and Suggested Audit Procedures**

Auditors shall consider the compliance requirements and related audit objectives in Part 3 and Part 4 or 5 (for programs included in this Supplement) in every audit of non-Federal entities conducted under OMB Circular A-133, with the exception of program-specific audits performed in accordance with a Federal agency's program-specific audit guide. In making a determination not to test a compliance requirement, the auditor must conclude that the requirement either does not apply to the particular non-Federal entity or that noncompliance with the requirement could not have a material effect on a major program (e.g., the auditor would not be expected to test Procurement if the non-Federal entity charges only small amounts of purchases to a major program). The descriptions of the compliance requirements in Parts 3, 4, and 5 are generally a summary of the actual compliance requirements. The auditor should refer to the referenced citations (e.g., laws and regulations) for the complete statement of the compliance requirements.

The suggested audit procedures are provided to assist auditors in planning and performing tests of non-Federal entity compliance with the requirements of Federal programs. Auditor judgment will be necessary to determine whether the suggested audit procedures are sufficient to achieve the stated audit objective and whether alternative audit procedures are needed.

The suggested procedures are in lieu of specifying audit procedures for each of the programs included in this Supplement. This approach has several advantages. First, it provides guidelines to assist auditors in designing audit procedures that are appropriate in the circumstance. Second, it helps auditors develop audit procedures for programs that are not included in this Supplement. Finally, it simplifies future updates to this Supplement.

### **Internal Control**

Consistent with the requirements of OMB Circular A-133, this Part includes generic audit objectives and suggested audit procedures to test internal control. However, the auditor must determine the specific procedures to test internal control on a case-by-case basis considering factors such as the non-Federal entity's internal control, the compliance requirements, the audit objectives for compliance, the auditor's assessment of control risk, and the audit requirement to test internal control as prescribed in OMB Circular A-133.

### **Improper Payments**

Under OMB guidance, Public Law (Pub. L.) No. 107-300, the Improper Payments Information Act of 2002, as amended by Pub. L. No. 111-204, the Improper Payments Elimination and Recovery Act, Executive Order 13520 on reducing improper payments, and the June 18, 2010 Presidential memorandum to enhance payment accuracy, Federal agencies are required to take actions to prevent improper payments, review Federal awards for such payments, and, as applicable, reclaim improper payments. Improper payment means:

1. Any payment that should not have been made or that was made in an incorrect amount under statutory, contractual, administrative, or other legally applicable requirements.

2. Incorrect amounts are overpayments or underpayments that are made to eligible recipients (including inappropriate denials of payment or service, any payment that does not account for credit for applicable discounts, payments that are for the incorrect amount, and duplicate payments).
3. Any payment that was made to an ineligible recipient or for an ineligible good or service, or payments for goods or services not received (except for such payments where authorized by law).
4. Any payment that an agency's review is unable to discern whether a payment was proper as a result of insufficient or lack of documentation.

Auditors should be alert to improper payments, particularly when testing the following parts of section III. - A, "Activities Allowed or Unallowed;" B, "Allowable Costs/Cost Principles;" E, "Eligibility;" and, in some cases, N, "Special Tests and Provisions."

### **American Recovery and Reinvestment Act**

The American Recovery and Reinvestment Act (Pub. L. No. 111-5) (ARRA) has significant implications for audits performed under OMB Circular A-133. Auditors should specifically ask auditees about, and be alert to, recipient and subrecipient expenditure of funds provided by ARRA. A more detailed discussion of the effect of ARRA on single audits is included in Appendix VII, which also contains references to where additional information can be obtained.

ARRA-related information is included in this part in several sections: D, "Davis-Bacon Act;" I, "Procurement and Suspension and Debarment;" L, "Reporting;" M, "Subrecipient Monitoring;" and N, "Special Tests and Provisions." In addition, ARRA-related information is highlighted in other parts of the Supplement as follows:

Part 2 – programs with ARRA funding are shown in **bold**.

Parts 4 and 5 – treatment of ARRA requirements for programs that are not exclusively ARRA-funded is shown in **bold**; under "Other Clusters," ARRA programs are shown in **bold**.

## A. ACTIVITIES ALLOWED OR UNALLOWED

### Compliance Requirements

The specific requirements for activities allowed or unallowed are unique to each Federal program and are found in the laws, regulations, and the provisions of contract or grant agreements pertaining to the program. For programs listed in this Supplement, the specific requirements of the governing statutes and regulations are included in Part 4 – Agency Program Requirements or Part 5 – Clusters of Programs, as applicable. This type of compliance requirement specifies the activities that can or cannot be funded under a specific program.

**In addition, ARRA has established a crosscutting unallowable activity for all ARRA-funded awards. Pursuant to Section 1604 of ARRA, none of the funds appropriated or otherwise made available in ARRA may be used by any State or local government, or any private entity, for any casino or other gambling establishment, aquarium, zoo, golf course, or swimming pool.**

### Source of Governing Requirements

The requirements for activities allowed or unallowed are contained in program legislation **or, as applicable, ARRA**, Federal awarding agency regulations, and the terms and conditions of the award.

### Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).
2. Determine whether Federal awards were expended only for allowable activities.

### Suggested Audit Procedures – Internal Control

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for activities allowed or unallowed and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

**Suggested Audit Procedures – Compliance**

1. Identify the types of activities which are either specifically allowed or prohibited by the laws, regulations, and the provisions of contract or grant agreements pertaining to the program.
2. When allowability is determined based upon summary level data, perform procedures to verify that:
  - a. Activities were allowable.
  - b. Individual transactions were properly classified and accumulated into the activity total.
3. When allowability is determined based upon individual transactions, select a sample of transactions and perform procedures to verify that the transaction was for an allowable activity.
4. The auditor should be alert for large transfers of funds from program accounts which may have been used to fund unallowable activities.

## B. ALLOWABLE COSTS/COST PRINCIPLES

### Applicability of OMB Cost Principles Circulars

The following OMB cost principles circulars prescribe the cost accounting policies associated with the administration of Federal awards by (1) States, local governments, and Indian tribal governments (State rules for expenditures of State funds apply for block grants authorized by the Omnibus Budget Reconciliation Act of 1981 and for other programs specified in Appendix I); (2) institutions of higher education; and (3) non-profit organizations. Federal awards administered by publicly owned hospitals and other providers of medical care are exempt from OMB's cost principles circulars, but are subject to requirements promulgated by the sponsoring Federal agencies (e.g., the Department of Health and Human Services' 45 CFR part 74, Appendix E). The cost principles applicable to a non-Federal entity apply to all Federal awards received by the entity, regardless of whether the awards are received directly from the Federal Government or indirectly through a pass-through entity. The circulars describe selected cost items, allowable and unallowable costs, and standard methodologies for calculating indirect costs rates (e.g., methodologies used to recover facilities and administrative costs (F&A) at institutions of higher education). Federal awards include Federal programs and cost-type contracts and may be in the form of grants, contracts, and other agreements.

### Source of Governing Requirements

The requirements for allowable costs/cost principles are contained in the A-102 Common Rule (§\_\_\_\_.22), OMB Circular A-110 (2 CFR section 215.27), program legislation, Federal awarding agency regulations, and the terms and conditions of the award.

The three cost principles circulars are as follows:

- **OMB Circular A-87, “Cost Principles for State, Local, and Indian Tribal Governments” (2 CFR part 225).**
- **OMB Circular A-21, “Cost Principles for Educational Institutions” (2 CFR part 220)** – All institutions of higher education are subject to the cost principles contained in OMB Circular A-21, which incorporates the four Cost Accounting Standards Board (CASB) Standards and the Disclosure Statement (DS-2) requirements, as described in OMB Circular A-21, sections C.10 through C.14 and Appendices A and B.
- **OMB Circular A-122, “Cost Principles for Non-Profit Organizations” (2 CFR part 230)** – Non-profit organizations are subject to OMB Circular A-122, except those non-profit organizations listed in OMB Circular A-122, Attachment C that are subject to the commercial cost principles contained in the Federal Acquisition Regulation (FAR) at 48 CFR part 31. Also, by contract terms and conditions, some non-profit organizations may be subject to the CASB's Standards and the Disclosure Statement (DS-1) requirements.

Although these cost principles circulars have been reissued in Title 2 of the CFR for ease of access, this Supplement refers to them by the circular title and numbering. Auditors should refer to them in the same manner.

The cost principles articulated in the three OMB cost principles circulars are in most cases substantially identical, but a few differences do exist. These differences are necessary because of the nature of the Federal/State/local/non-profit organizational structures, programs administered, and breadth of services offered by some grantees and not others. Exhibit 1 of this part of the Supplement, Selected Items of Cost, lists the treatment of the selected cost items in the different circulars.

## LIST OF SELECTED ITEMS OF COST CONTAINED IN OMB COST PRINCIPLES CIRCULARS (Amended effective June 9, 2004)

The following exhibit provides an updated listing of selected items of cost contained in each of the OMB cost principles circulars based on the changes contained in the *Federal Register* notice dated May 10, 2004 ([http://www.whitehouse.gov/omb/grants\\_docs/](http://www.whitehouse.gov/omb/grants_docs/)). The primary changes are deletion of items, changes in language for consistency, and extension of certain items previously only in one or more—but not all—sets of OMB cost principles to another set(s) of OMB cost principles. Although these changes minimized the number of non-substantive differences among the OMB cost principles, there remain several cost items that are unique to one type of entity (e.g., commencement and convocation costs are applicable only to universities).

The exhibit lists the selected items of cost along with a cursory description of their allowability. The numbers in parentheses refer to the cost item in the applicable circular, as revised. The reader is strongly cautioned not to rely exclusively on the summary but to place primary reliance on the referenced circular text.

## **OMB CIRCULAR A-87**

### **COST PRINCIPLES FOR STATE, LOCAL, AND INDIAN TRIBAL GOVERNMENTS**

#### **Introduction**

OMB Circular A-87 (A-87) establishes principles and standards for determining allowable direct and indirect costs for Federal awards. This section is organized into the following areas of allowable costs: State/Local-Wide Central Service Costs; State/Local Department or Agency Costs (Direct and Indirect); and State Public Assistance Agency Costs.

#### ***Cognizant Agency***

A-87, Attachment A, paragraph B.6. defines “cognizant agency” as the Federal agency responsible for reviewing, negotiating, and approving cost allocation plans or indirect cost proposals developed under A-87 on behalf of all Federal agencies. OMB publishes a listing of cognizant agencies (*Federal Register*, 51 FR 552, January 6, 1986). This listing is available at [http://www.whitehouse.gov/sites/default/files/omb/assets/financial\\_pdf/fr-notice\\_cost\\_negotiation\\_010686.pdf](http://www.whitehouse.gov/sites/default/files/omb/assets/financial_pdf/fr-notice_cost_negotiation_010686.pdf). References to cognizant agency in this section should not be confused with the cognizant Federal agency for audit responsibilities, which is defined in OMB Circular A-133, Subpart D. §\_\_\_\_.400(a).

#### ***Availability of Other Information***

Additional information on cost allocation plans and indirect cost rates is found in the Department of Health and Human Services (HHS) publications: *A Guide for State, Local and Indian Tribal Governments* (ASMB C-10); *Review Guide for State and Local Governments State/Local-Wide Central Service Cost Allocation Plans and Indirect Cost Rates*; and the *DCA Best Practices Manual for Reviewing Public Assistance Cost Allocation Plans* which are available at <http://rates.psc.gov/fms/dca/asmb%20c-10.pdf> and <http://rates.psc.gov/fms/dca/PA%20BPM.pdf>, respectively.

#### **Allowable Costs – State/Local-Wide Central Service Costs**

Most governmental entities provide services, such as accounting, purchasing, computer services, and fringe benefits, to operating agencies on a centralized basis. Since the Federal awards are performed within the individual operating agencies, there must be a process whereby these central service costs are identified and assigned to benefiting operating agency activities on a reasonable and consistent basis. The State/local-wide central service cost allocation plan (CAP) provides that process. (Refer to A-87, Attachment C, State/Local-Wide Central Service Cost Allocation Plans, for additional information and specific requirements.)

The allowable costs of central services that a governmental unit provides to its agencies may be allocated or billed to the user agencies. The State/local-wide central service CAP is the required documentation of the methods used by the governmental unit to identify and accumulate these costs, and to allocate them or develop billing rates based on them.

Allocated central service costs (referred to as Section I costs) are allocated to benefiting operating agencies on some reasonable basis. These costs are usually negotiated and approved for a future year on a “fixed-with-carry-forward” basis. Examples of such services might include general accounting, personnel administration, and purchasing. Section I costs assigned to an operating agency through the State/local-wide central service CAP are typically included in the agency’s indirect cost pool.

Billed central service costs (referred to as Section II costs) are billed to benefiting agencies and/or programs on an individual fee-for-service or similar basis. The billed rates are usually based on the estimated costs for providing the services. An adjustment will be made at least annually for the difference between the revenue generated by each billed service and the actual allowable costs. Examples of such billed services include computer services, transportation services, self- insurance, and fringe benefits. Section II costs billed to an operating agency may be charged as direct costs to the agency’s Federal awards or included in its indirect cost pool.

***1. Compliance Requirements – State/Local-Wide Central Service Costs***

***a. Basic Guidelines***

- (1) The basic guidelines affecting allowability of costs (direct and indirect) are identified in A-87, Attachment A, paragraph C.
- (2) To be allowable under Federal awards, costs must meet the following general criteria (A-87, Attachment A, paragraph C.1):
  - (a) Be necessary and reasonable for the performance and administration of Federal awards. (Refer to A-87, Attachment A, paragraph C.2 for additional information on reasonableness of costs.)
  - (b) Be allocable to Federal awards under the provisions of A-87. (Refer to A-87, Attachment A, paragraph C.3 for additional information on allocable costs.)
  - (c) Be authorized or not prohibited under State or local laws or regulations.
  - (d) Conform to any limitations or exclusions set forth in A-87, Federal laws, terms and conditions of the Federal award, or other governing regulations as to types or amounts of cost items.
  - (e) Be consistent with policies, regulations, and procedures that apply uniformly to both Federal awards and other activities of the governmental unit.

- (f) Be accorded consistent treatment. A cost may not be assigned to a Federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the Federal award as an indirect cost.
- (g) Be determined in accordance with generally accepted accounting principles, except as otherwise provided in A-87.
- (h) Not be included as a cost or used to meet cost sharing or matching requirements of any other Federal award, except as specifically provided by Federal law or regulation.
- (i) Be net of all applicable credits. (Refer to A-87, Attachment A, paragraph C.4 for additional information on applicable credits.)
- (j) Be adequately documented.

b. *Selected Items of Cost*

- (1) Sections 1 through 43 of A-87, Attachment B, provide the principles to be applied in establishing the allowability or unallowability of certain items of cost. (For a listing of costs, refer to Exhibit 1 of this part of the Supplement.) These principles apply whether a cost is treated as direct or indirect. Failure to mention a particular item of cost in this section of A-87 is not intended to imply that it is either allowable or unallowable; rather, determination of allowability in each case should be based on the treatment or standards provided for similar or related items of cost.
- (2) A cost is allowable for Federal reimbursement only to the extent of benefits received by Federal awards and its conformance with the general policies and principles stated in A-87, Attachment A.

c. *Submission Requirements*

- (1) Submission requirements are identified in A-87, Attachment C, paragraph D.
- (2) A State is required to submit a State-wide central service CAP to HHS for each year in which it claims central service costs under Federal awards.
- (3) A local government that has been designated as a “major local government” by OMB is required to submit a central service CAP to its cognizant agency annually. This listing is posted on the OMB website (<http://www.whitehouse.gov/omb/management>). All other local governments claiming central service costs must develop a CAP in accordance with the requirements described in A-87 and maintain the plan and related supporting documentation for audit. Local governments are not required to submit the plan for Federal approval unless they are

specifically requested to do so by the cognizant agency. If a local government receives funds as a subrecipient only, the primary recipient will be responsible for negotiating and/or monitoring the local government's plan.

- (4) All central service CAPs will be prepared and, when required, submitted within the 6 months prior to the beginning of the governmental unit's fiscal years in which it proposes to claim central service costs. Extensions may be granted by the cognizant agency.

d. *Documentation Requirements*

- (1) The central service CAP must include all central service costs that will be claimed (either as an allocated or a billed cost) under Federal awards. Costs of central services omitted from the CAP will not be reimbursed.
- (2) The documentation requirements for all central service CAPs are contained in A-87, Attachment C, paragraph E. All plans and related documentation used as a basis for claiming costs under Federal awards must be retained for audit in accordance with the record retention requirements contained in the A-102 Common Rule.

e. *Required Certification* – No proposal to establish a central service CAP, whether submitted to a Federal cognizant agency or maintained on file by the governmental unit, shall be accepted and approved unless such costs have been certified by the governmental unit using the Certificate of Cost Allocation Plan as set forth in A-87, Attachment C.

f. *Allocated Central Service Costs (Section I Costs)* – A carry-forward adjustment is not permitted for a central service activity that was not included in the previously approved plan or for unallowable costs that must be reimbursed immediately (A-87, Attachment C, paragraph G.3).

g. *Billed Central Service Costs (Section II Costs)*

- (1) Internal service funds for central service activities are allowed a working capital reserve of up to 60 days cash expenses for normal operating purposes (A-87, Attachment C, paragraph G.2). A working capital reserve exceeding 60 days may be approved by the cognizant Federal agency in exceptional cases.
- (2) Adjustments of billed central services are required when there is a difference between the revenue generated by each billed service and the actual allowable costs (A-87, Attachment C, paragraph G.4). The adjustments will be made through one of the following methods:
  - (a) A cash refund to the Federal Government for the Federal share of the adjustment, if revenue exceeds costs,

- (b) Credits to the amounts charged to the individual programs,
- (c) Adjustments to future billing rates, or
- (d) Adjustments to allocated central service costs (Section I) if the total amount of the adjustment for a particular service does not exceed \$500,000.

- (3) Whenever funds are transferred from a self-insurance reserve to other accounts (e.g., general fund), refunds shall be made to the Federal Government for its share of funds transferred, including earned or imputed interest from the date of transfer (A-87, Attachment B, paragraph 22).

## **2. *Audit Objectives – State/Local-Wide Central Service Costs***

- a. Obtain an understanding of internal control over the compliance requirements for central service costs, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).
- b. Determine whether the governmental unit complied with the provisions of A-87 as follows:
  - (1) Direct charges to Federal awards were for allowable costs.
  - (2) Charges to cost pools allocated to Federal awards through the central service CAPs were for allowable costs.
  - (3) The methods of allocating the costs are in accordance with the applicable cost principles, and produce an equitable and consistent distribution of costs, which benefit from the central service costs being allocated (e.g., cost allocation bases include all activities, including all State departments and agencies and, if appropriate, non-State organizations which receive services).
  - (4) Cost allocations were in accordance with central service CAPs approved by the cognizant agency or, in cases where such plans are not subject to approval, in accordance with the plan on file.

## **3. *Suggested Internal Control Audit Procedures – State/Local-Wide Central Service Costs***

- a. Using the guidance provided in Part 6 – Internal Control for allowable costs/cost principles, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
- b. Plan the testing of internal control to support a low assessed level of control risk for allowable costs/cost principles and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is

likely to be ineffective, see the alternative procedures in §\_\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.

- c. Consider the results of the testing of internal control in assessing the risk of non-compliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

#### **4. *Suggested Compliance Audit Procedures – State/Local-Wide Central Service Costs***

- a. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.
  - (1) In reviewing the State/local-wide central service costs, the auditor may not need to test all central service costs (allocated or billed) every year; for example, the auditor in obtaining sufficient evidence for the opinion may consider testing each central service at least every 5 years, and perform additional testing for central services with operating budgets of \$5 million or more.
  - (2) If the local governmental entity is not required to submit the central service CAP and related supporting documentation, the auditor should consider the risk of the reduced level of oversight in designing the nature, timing and extent of compliance testing.
- b. *General Audit Procedures for State/Local-Wide Central Service CAPs* – The following procedures apply to direct charges to Federal awards as well as charges to cost pools that are allocated wholly or partially to Federal awards or used in formulating indirect cost rates used for recovering indirect costs under Federal awards.
  - (1) Test a sample of transactions for conformance with:
    - (a) The criteria contained in the “Basic Guidelines” section of A-87, Attachment A, paragraph C.
    - (b) The principles to establish allowability or unallowability of certain items of cost (A-87, Attachment B).
  - (2) If the auditor identifies unallowable costs, the auditor should be aware that directly associated costs might have been charged. Directly associated costs are costs incurred solely as a result of incurring another cost, and would have not been incurred if the other cost had not been incurred. When an unallowable cost is incurred, directly associated costs are also

unallowable. For example, occupancy costs related to unallowable general costs of government are also unallowable.

c. *Special Audit Procedures for State/Local-Wide Central Service CAPs*

- (1) Verify that the central service CAP includes the required documentation in accordance with A-87, Attachment C, paragraph E.
- (2) *Testing of the State/Local-Wide Central Service CAPs – Allocated Section I Costs*
  - (a) If new allocated central service costs were added, review the justification for including the item as Section I costs to ascertain if the costs are allowable (e.g., if costs benefit Federal awards).
  - (b) Identify the central service costs that incurred a significant increase in actual costs from the prior year's costs. Test a sample of transactions to verify the allowability of the costs.
  - (c) Determine whether the bases used to allocate costs are appropriate, i.e., costs are allocated in accordance with relative benefits received.
  - (d) Determine whether the proposed bases include all activities that benefit from the central service costs being allocated, including all users that receive the services. For example, the State-wide central service CAP should allocate costs to all benefiting State departments and agencies, and, where appropriate, non-State organizations, such as local government agencies.
  - (e) Perform an analysis of the allocation bases by selecting agencies with significant Federal awards to determine if the percentage of costs allocated to these agencies has increased from the prior year. For those selected agencies with significant allocation percentage increases, determine that the data included in the bases are current and accurate.
  - (f) Verify that carry-forward adjustments are properly computed in accordance with A-87, Attachment C, paragraph G.3.
- (3) *Testing of the State/Local-Wide Central Service CAPs – Billed Section II Costs*
  - (a) For billed central service activities accounted for in separate funds (e.g., internal service funds), ascertain if:
    - (i) Retained earnings/fund balances (including reserves) are computed in accordance with the applicable cost principles;

- (ii) Working capital reserves are not excessive in amount (generally not greater than 60 days for cash expenses for normal operations incurred for the period exclusive of depreciation, capital costs, and debt principal costs); and
- (iii) Adjustments were made when there is a difference between the revenue generated by each billed service and the actual allowable costs.

Note: A 60-day working capital reserve is not automatic. Refer to the HHS publication, *A Guide for State, Local, and Indian Tribal Governments* (ASMB C-10) for guidelines.

- (b) Test to ensure that all users of services are billed in a consistent manner. For example, examine selected billings to determine if all users (including users outside the governmental unit) are charged the same rate for the same service.
- (c) Test that billing rates exclude unallowable costs, in accordance with applicable cost principles and Federal statutes.
- (d) Test, where billed central service activities are funded through general revenue appropriations, that the billing rates (or charges) are developed based on actual costs and were adjusted to eliminate profits.
- (e) For self-insurance and pension funds, ascertain if independent actuarial studies appropriate for such activities are performed at least biennially and that current period costs were allocated based on an appropriate study that is not over 2 years old.
- (f) Determine if refunds were made to the Federal Government for its share of funds transferred from the self-insurance reserve to other accounts, including imputed or earned interest from the date of the transfer.

## **Allowable Costs – State/Local Department or Agency Costs – Direct and Indirect**

The individual State/local departments or agencies (also known as operating agencies) are responsible for the performance or administration of Federal awards. In order to receive cost reimbursement under Federal awards, the department or agency usually submits claims asserting that allowable and eligible costs (direct and indirect) have been incurred in accordance with A-87.

While direct costs are those that can be identified specifically with a particular final cost objective, the indirect costs are those that have been incurred for common or joint purposes, and not readily assignable to the cost objectives specifically benefited without effort disproportionate to the results achieved. Indirect costs are normally charged to Federal awards by the use of an indirect cost rate.

The indirect cost rate proposal (ICRP) provides the documentation prepared by a State/local department or agency, to substantiate its request for the establishment of an indirect cost rate. The indirect costs include (1) costs originating in the department or agency carrying out Federal awards, and (2) costs of central governmental services distributed through the State/local-wide central service CAP that are not otherwise treated as direct costs. The ICRPs are based on the most current financial data and are used to either establish predetermined, fixed, or provisional indirect cost rates or to finalize provisional rates (for rate definitions refer to A-87, Attachment E, paragraph B).

### **1. *Compliance Requirements – State/Local Department or Agency Costs – Direct and Indirect***

- a. *Basic Guidelines* – Refer to the previous section, “Allowable Costs – State/Local-Wide Central Service Costs, 1.a – Compliance Requirements-Basic Guidelines,” for the guidelines affecting the allowability of costs (direct and indirect) under Federal awards.
- b. *Selected Items of Cost* – Refer to the previous section, “Allowable Costs - State/Local-Wide Central Service Costs, 1.b - Compliance Requirements-Selected Items of Cost,” for the principles to establish allowability or unallowability of certain items of cost. These principles apply whether a cost is treated as direct or indirect.
- c. *Allocation of Indirect Costs and Determination of Indirect Cost Rates*
  - (1) The specific methods for allocating indirect costs and computing indirect cost rates are as follows:
    - (a) *Simplified Method* – This method is applicable where a governmental unit’s department or agency has only one major function, or where all its major functions benefit from the indirect cost to approximately the same degree. The allocation of indirect costs and the computation of an indirect cost rate may be

accomplished through simplified allocation procedures described in the circular (A-87, Attachment E, paragraph C.2).

- (b) *Multiple Allocation Base Method* – This method is applicable where a governmental unit’s department or agency has several major functions that benefit from its indirect costs in varying degrees. The allocation of indirect costs may require the accumulation of such costs into separate groupings which are then allocated individually to benefiting functions by means of a base which best measures the relative degree of benefit. (For detailed information, refer to A-87, Attachment E, paragraph C.3.)
- (c) *Special Indirect Cost Rates* – In some instances, a single indirect cost rate for all activities of a department or agency may not be appropriate. Different factors may substantially affect the indirect costs applicable to a particular program or group of programs, e.g., the physical location of the work, the nature of the facilities, or level of administrative support required. (For the requirements for a separate indirect cost rate, refer to A-87, Attachment E, paragraph C.4.)
- (d) *Cost Allocation Plans* – In certain cases, the cognizant agency may require a State or local governmental unit’s department or agency to prepare a CAP instead of an ICRP. These are infrequently occurring cases in which the nature of the department or agency’s Federal awards makes impracticable the use of a rate to recover indirect costs. A CAP required in such cases consists of narrative descriptions of the methods the department or agency uses to allocate indirect costs to programs, awards, or other cost objectives. Like an ICRP, the CAP must be either submitted to the cognizant agency for review, negotiation and approval, or retained on file for inspection during audits.

d. *Submission Requirements*

- (1) Submission requirements are identified in A-87, Attachment E, paragraph D.1. All departments or agencies of a governmental unit claiming indirect costs under Federal awards must prepare an ICRP and related documentation to support those costs.
- (2) A State/local department or agency for which a cognizant Federal agency has been assigned by OMB must submit its ICRP to its cognizant agency. Smaller local government departments or agencies which are not required to submit a proposal to the cognizant Federal agency must develop an ICRP in accordance with the requirements of A-87, and maintain the proposal and related supporting documentation for audit. Where a local government receives funds as a subrecipient only, the primary recipient

will be responsible for negotiating and/or monitoring the subrecipient's plan.

- (3) Each Indian tribal government desiring reimbursement of indirect costs must submit its ICRP to its cognizant agency, which generally is the Department of the Interior.
- (4) ICRPs must be developed (and, when required, submitted) within 6 months after the close of the governmental unit's fiscal year.

e. *Documentation and Certification Requirements*

The documentation and certification requirements for ICRPs are included in A-87, Attachment E, paragraphs D.2 and 3, respectively. The proposal and related documentation must be retained for audit in accordance with the record retention requirements contained in the A-102 Common Rule.

**2. *Audit Objectives – State/Local Department or Agency Costs – Direct and Indirect***

- a. Obtain an understanding of internal control over the compliance requirements for State/local department or agency costs, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).
- b. Determine whether the governmental unit complied with the provisions of A-87 as follows:
  - (1) Direct charges to Federal awards were for allowable costs.
  - (2) Charges to cost pools used in calculating indirect cost rates were for allowable costs.
  - (3) The methods for allocating the costs are in accordance with the applicable cost principles, and produce an equitable and consistent distribution of costs (e.g., all activities that benefit from the indirect cost, including unallowable activities, must receive an appropriate allocation of indirect costs).
  - (4) Indirect cost rates were applied in accordance with approved indirect cost rate agreements (ICRA), or special award provisions or limitations, if different from those stated in negotiated rate agreements.
  - (5) For local departments or agencies that do not have to submit an ICRP to the cognizant Federal agency, indirect cost rates were applied in accordance with the ICRP maintained on file.

**3. *Suggested Internal Control Audit Procedures – State/Local Department or Agency Costs- Direct and Indirect***

Refer to the previous section, “Allowable Costs - State/Local-Wide Central Service Costs,” items 3.a through 3.c, for suggested internal control audit procedures.

**4. *Suggested Compliance Audit Procedures – State/Local Department or Agency Costs – Direct and Indirect***

- a. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance. If the local department or agency is not required to submit an ICRP and related supporting documentation, the auditor should consider the risk of the reduced level of oversight in designing the nature, timing, and extent of compliance testing.
- b. *General Audit Procedures (Direct and Indirect Costs)* – The following procedures apply to direct charges to Federal awards as well as charges to cost pools that are allocated wholly or partially to Federal awards or used in formulating indirect cost rates used for recovering indirect costs from Federal awards.
  - (1) Test a sample of transactions for conformance with:
    - (a) The criteria contained in the “Basic Guidelines” section of A-87, Attachment A, paragraph C.
    - (b) The principles to establish allowability or unallowability of certain items of cost (A-87, Attachment B).
  - (2) If the auditor identifies unallowable costs, the auditor should be aware that directly associated costs might have been charged. Directly associated costs are costs incurred solely as a result of incurring another cost, and would have not been incurred if the other cost had not been incurred. When an unallowable cost is incurred, directly associated costs are also unallowable. For example, occupancy costs related to unallowable general costs of government are also unallowable.
- c. *Special Audit Procedures for State/Local Department or Agency ICRPs*
  - (1) Verify that the ICRP includes the required documentation in accordance with A-87, Attachment E, paragraph D.
  - (2) *Testing of the ICRP* – There may be a timing consideration when the audit is completed before the ICRP is completed. In this instance, the auditor should consider performing interim testing of the costs charged to the cost pools and the allocation bases (e.g., determine from management the cost pools that management expects to include in the ICRP and test the costs

for compliance with A-87). Should there be audit exceptions, corrective action may be taken earlier to minimize questioned costs. In the next year's audit, the auditor should complete testing and verify management's representations against the completed ICRP.

- (a) When the ICRA is the basis for indirect cost charged to a major program, the auditor is required to obtain appropriate assurance that the costs collected in the cost pools and allocation methods are in compliance with the applicable cost principles. The following procedures are some acceptable options the auditor may use to obtain this assurance:
  - (i) *Indirect Cost Pool* – Test the indirect cost pool to ascertain if it includes only allowable costs in accordance with A-87.
    - (A) Test to ensure that unallowable costs are identified and eliminated from the indirect cost pool (e.g., capital expenditures, general costs of government).
    - (B) Identify significant changes in expense categories between the prior ICRP and the current ICRP. Test a sample of transactions to verify the allowability of the costs.
    - (C) Trace the central service costs that are included in the indirect cost pool to the approved State/local-wide central service CAP or to plans on file when submission is not required.
  - (ii) *Direct Cost Base* – Test the methods of allocating the costs to ascertain if they are in accordance with the applicable provisions of A-87 and produce an equitable distribution of costs.
    - (A) Determine that the proposed base(s) includes all activities that benefit from the indirect costs being allocated.
    - (B) If the direct cost base is not limited to direct salaries and wages, determine that distorting items are excluded from the base. Examples of distorting items include capital expenditures, flow-through funds (such as benefit payments), and subaward costs in excess of \$25,000 per subaward.
    - (C) Determine the appropriateness of the allocation base (e.g., salaries and wages, modified total direct costs).

- (iii) *Other Procedures*
  - (A) Examine the employee time report system results (where and if used) to ascertain if they are accurate, and are based on the actual effort devoted to the various functional and programmatic activities to which the salary and wage costs are charged. (Refer to A-87, Attachment B, paragraph 8.h for additional information on support of salaries and wages.)
  - (B) For an ICRP using the multiple allocation base method, test statistical data (e.g., square footage, audit hours, salaries and wages) to ascertain if the proposed allocation or rate bases are reasonable, updated as necessary, and do not contain any material omissions.
- (3) *Testing of Charges Based Upon the ICRA* – Perform the following procedures to test the application of charges to Federal awards based upon an ICRA:
  - (a) Obtain and read the current ICRA and determine the terms in effect.
  - (b) Select a sample of claims for reimbursement and verify that the rates used are in accordance with the rate agreement, that rates were applied to the appropriate bases, and that the amounts claimed were the product of applying the rate to the applicable base. Verify that the costs included in the base(s) are consistent with the costs that were included in the base year (e.g., if the allocation base is total direct costs, verify that current-year direct costs do not include costs items that were treated as indirect costs in the base year).
- (4) *Other Procedures* – No Negotiated ICRA
  - (a) If an indirect cost rate has not been negotiated by a cognizant Federal agency, as required, the auditor should determine whether documentation exists to support the costs. Where the auditee has documentation, the suggested general audit procedures (direct and indirect costs under paragraph 4.b of this section) should be performed to determine the appropriateness of the indirect cost charges to awards.

- (b) If an indirect cost rate has not been negotiated by a cognizant agency, as required, and documentation to support the indirect costs does not exist, the auditor should question the costs based on a lack of supporting documentation.

### **Allowable Costs – State Public Assistance Agency Costs**

State public assistance agency costs are (1) defined as all costs allocated or incurred by the State agency except expenditures for financial assistance, medical vendor payments, and payments for services and goods provided directly to program recipients (e.g., day care services); and (2) normally charged to Federal awards by implementing the public assistance cost allocation plan (CAP). The public assistance CAP provides a narrative description of the procedures that are used in identifying, measuring and allocating all costs (direct and indirect) to each of the programs administered or supervised by State public assistance agencies.

Attachment D of A-87 states that since the federally financed programs administered by State public assistance agencies are funded predominantly by HHS, HHS is responsible for the requirements for the development, documentation, submission, negotiation and approval of public assistance CAPs. These requirements are published in Subpart E of 45 CFR part 95.

Major Federal programs typically administered by State public assistance agencies include: Temporary Assistance for Needy Families (CFDA 93.558), Medicaid (CFDA 93.778), Supplemental Nutrition Assistance Program (CFDA 10.561), Child Support Enforcement (CFDA 93.563), Foster Care (CFDA 93.658), Adoption Assistance (CFDA 93.659), and Social Services Block Grant (CFDA 93.667).

#### ***1. Compliance Requirements – State Public Assistance Agency Costs***

- a. *Basic Guidelines* – Refer to the previous section, “Allowable Costs – State/Local-Wide Central Service Costs, 1.a, Compliance Requirements-Basic Guidelines,” for the guidelines affecting the allowability of costs (direct and indirect) under Federal awards.
- b. *Selected Items of Cost* – Refer to the previous section, “Allowable Costs – State/Local-Wide Central Service Costs 1.b, Compliance Requirements-Selected Items of Cost,” for the principles to establish allowability or unallowability of certain items of cost. These principles apply whether a cost is treated as direct or indirect.

c. *Submission Requirements*

Unlike most State/local-wide central service CAPs and ICRPs, an annual submission of the public assistance CAP is not required. Once a public assistance CAP is approved, State public assistance agencies are required to promptly submit amendments to the plan if any of the following events occur (45 CFR section 95.509):

- (1) The procedures shown in the existing cost allocation plan become outdated because of organizational changes, changes to the Federal law or regulations, or significant changes in the program levels, affecting the validity of the approved cost allocation procedures.
- (2) A material defect is discovered in the cost allocation plan.
- (3) The State plan for public assistance programs is amended so as to affect the allocation of costs.
- (4) Other changes occur which make the allocation basis or procedures in the approved cost allocation plan invalid.

The amendments must be submitted to HHS for review and approval.

d. *Documentation Requirements* – A State must claim Federal financial participation for costs associated with a program only in accordance with its approved cost allocation plan. The public assistance CAP requirements are contained in 45 CFR section 95.507.

e. *Implementation of Approved Public Assistance CAPs* – Since public assistance CAPs are of a narrative nature, the Federal Government needs assurance that the cost allocation plan has been implemented as approved. This is accomplished by funding agencies' reviews, single audits, or audits conducted by the cognizant audit agency (A-87, Attachment D, paragraph E.1).

2. *Audit Objectives – State Public Assistance Agency Costs*

- a. Obtain an understanding of internal control over the compliance requirements for State public assistance agency costs, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_\_.500(c).
- b. Determine whether the governmental unit complied with the provisions of A-87 as follows:
  - (1) Direct charges to Federal awards were for allowable costs.
  - (2) Charges to cost pools allocated to Federal awards through the public assistance CAP were for allowable costs.

- (3) The approved public assistance CAP correctly describes the actual procedures used to identify, measure, and allocate costs to each of the programs operated by the State public assistance agency. However, the actual procedures or methods of allocating costs must be in accordance with the applicable cost principles, and produce an equitable and consistent distribution of costs.
- (4) Charges to Federal awards are in accordance with the approved public assistance CAP. This does not apply if the auditor first determines that the approved CAP is not in compliance with the applicable cost principles and/or produces an inequitable distribution of costs.
- (5) The employee time reporting systems are implemented and operated in accordance with the methodologies described in the approved public assistance CAP.

**3. *Suggested Internal Control Audit Procedures – State Public Assistance Agency Costs***

Refer to the previous section, “Allowable Costs – State/Local-Wide Central Service Costs” items 3.a through 3.c, for suggested internal control audit procedures.

**4. *Suggested Compliance Audit Procedures – State Public Assistance Agency Costs***

- a. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.
- b. Since a significant amount of the costs in the public assistance CAP are allocated based on employee time reporting systems (e.g., effort certification, personnel activity report and/or random moment sampling), it is suggested that the auditor consider the risk when designing the nature, timing, and extent of compliance testing.
- c. *General Audit Procedures* – The following procedures apply to direct charges to Federal awards as well as charges to cost pools that are allocated wholly or partially to Federal awards.
  - (1) Test a sample of transactions for conformance with:
    - (a) The criteria contained in the “Basic Guidelines” section of A-87, Attachment A, paragraph C.
    - (b) The principles to establish allowability or unallowability of certain items of cost (A-87, Attachment B).

- (2) If the auditor identifies unallowable costs, the auditor should be aware that directly associated costs might have been charged. Directly associated costs are costs incurred solely as a result of incurring another cost, and would have not been incurred if the other cost had not been incurred. When an unallowable cost is incurred, directly associated costs are also unallowable. For example, occupancy costs related to unallowable general costs of government are also unallowable.
- d. *Special Audit Procedures for Public Assistance CAPs*
- (1) Verify that the State public assistance agency is complying with the submission requirements, i.e., an amendment is promptly submitted when any of the events identified in 45 CFR section 95.509 occur.
  - (2) Verify that public assistance CAP includes the required documentation in accordance with 45 CFR section 95.507.
  - (3) *Testing of the Public Assistance CAP* – Test the methods of allocating the costs to ascertain if they are in accordance with the applicable provisions of the cost principles and produce an equitable distribution of costs. Appropriate detailed tests may include:
    - (a) Examine the results of the employee time reporting systems to ascertain if they are accurate, and are based on the actual effort devoted to the various functional and programmatic activities to which the salary and wage costs are charged.
    - (b) Since the most significant cost pools in terms of dollars are usually allocated based upon the distribution of income maintenance and social services workers efforts identified through random moment time studies, determine whether the time studies are implemented and operated in accordance with the methodologies described in the approved public assistance CAP. For example, verify the adequacy of the controls governing the conduct and evaluation of the study, determine that the sampled observations were properly selected and performed, the documentation of the observations was properly completed, and that the results of the study were correctly accumulated and applied. Testing may include observing or interviewing staff who participate in the time studies to determine if they are correctly recording their activities.
    - (c) Test statistical data (e.g., square footage, case counts, salaries and wages) to ascertain if the proposed allocation bases are reasonable, updated as necessary, and do not contain any material omissions.

- (4) *Testing of Charges Based Upon the Public Assistance CAP* – If the approved public assistance CAP is determined to be in compliance with the applicable cost principles and produces an equitable distribution of costs, verify that the methods of charging costs to Federal awards are in accordance with the approved CAP and the provisions of the approval documents issued by HHS. Detailed compliance tests may include:
- (a) Verify that the cost allocation schedules, supporting documentation and allocation data are accurate and that the costs are allocated in compliance with the approved CAP.
  - (b) Reconcile the allocation statistics of labor costs to completed employee time reporting documents (e.g., personnel activity reports or random moment sampling observation forms).
  - (c) Reconcile the allocation statistics of non-labor costs to allocation data, (e.g., square footage or case counts).
  - (d) Verify direct charges to supporting documents (e.g., purchase orders).
  - (e) Reconcile the costs to the Federal claims.

## **OMB CIRCULAR A-21 COST PRINCIPLES FOR EDUCATIONAL INSTITUTIONS**

### **Introduction**

OMB Circular A-21 (A-21) establishes principles for determining the costs applicable to research and development, training, and other sponsored work performed by educational institutions under grants, contracts, and other agreements with the Federal Government. These agreements are referred to as sponsored agreements. These principles shall be used in determining the allowable direct and indirect costs under those agreements. At educational institutions, indirect costs are accounted for through Facilities & Administrative (F&A) Cost Proposals. F&A costs, for the purpose of A-21, mean costs that are incurred for common or joint objectives and, therefore, cannot be identified readily and specifically with a particular sponsored project, an instructional activity, or any other institutional activity. F&A costs are synonymous with “indirect” costs, as previously used in A-21 and as currently used in Appendices A and B of A-21. As described in A-21, section F.1, the F&A cost categories include building and equipment depreciation or use allowance; operation and maintenance expenses; interest expenses; general administrative expenses; departmental administration expenses; sponsored project administration expenses; library expenses; and student administration expenses. F&A costs will be referred to as “indirect costs” in this section.

### ***Cognizant Agency***

A-21, section G.11.a, defines “cognizant agency” as the Federal agency responsible for negotiating and approving F&A rates for an educational institution on behalf of all Federal agencies. References to “cognizant agency” in this section should not be confused with the cognizant Federal agency for audit responsibilities, which is defined in OMB Circular A-133, Subpart D., §\_\_\_400(a). Section G.11 of A-21 assigns cost negotiation cognizance to the Department of Health and Human Services and the Department of Defense, Office of Naval Research.

### ***Availability of Other Information***

#### ***University Long-Form F&A Cost Proposals***

Additional information on indirect cost rates is found in the HHS publication: *Best Practices Manual for Reviewing College and University Long-Form Facilities & Administrative Cost Rate Proposals*, which is available at <http://rates.psc.gov/fms/dca/C&U%20Review%20Manual.pdf>.

## **Allowable Costs – General Criteria**

### ***1. Basic Considerations to Determine Costs***

In addition to the general criteria applicable to both direct and indirect costs, the basic guidelines affecting the allowability of costs (direct and indirect) are identified in section C. of A-21. To be allowable under Federal awards, costs must meet the following general criteria:

- a. Be reasonable and necessary for the performance and administration of Federal awards (A-21, section C.3).
- b. Conform with the allocability provisions of A-21 (A-21, section C.4) or Cost Accounting Standards (CAS) Board for educational institutions, as applicable (see 48 CFR part 9905). See “Allowable Costs - Special Requirements - Cost Accounting Standards and Disclosure Statements” in this section for additional guidance on CAS.)
- c. Be given consistent accounting treatment within and between accounting periods. Consistency in accounting requires that costs incurred for the same purpose, in like circumstances, be treated as either direct costs only or indirect costs only with respect to final cost objectives (A-21, sections C.10 and C.11).
- d. Conform with the allowability of costs provisions of A-21, or limitations in the program agreement, program regulations, or program statute. When the maximum amount of allowable cost under a limitation is less than the total amount determined in accordance with A-21, the amount not recoverable under a sponsored agreement may not be charged to other sponsored agreements (A-21, section C.7).
- e. Be net of all applicable credits, e.g., volume or cash discounts, insurance recoveries, refunds, rebates, trade-ins, adjustments for checks not cashed, and scrap sales (A-21, section C.5).
- f. Be supported by appropriate documentation, such as approved purchase orders, receiving reports, vendor invoices, canceled checks, and time and attendance records, and correctly charged as to account, amount, and period. Documentation requirements for salaries and wages, and time and effort distribution are described in A-21. Documentation may be in an electronic form (A-21, section C.4).
- g. Be applied uniformly to Federal and non-Federal activities.
- h. With respect to fringe benefit allocations, charges, or rates, such allocations, charges, or rates are to be based on the benefits received by different classes of employees within the educational institution.

## **2. *Selected Items of Cost***

Section J. of Circular A-21 includes general provisions for selected items of costs. For a listing of these costs, see Exhibit 1 of this part of the Supplement. These principles apply irrespective of whether a particular item of cost is properly treated as a direct cost or an indirect cost. Failure to mention a particular item of cost is not intended to imply that it is either allowable or unallowable; rather, determination as to allowability in each case should be based on the treatment provided for similar or related items of cost.

### **Allowable Costs – Direct Costs**

#### **1. *Compliance Requirements – Direct Costs***

- a. Direct costs are those costs that can be identified specifically with a particular sponsored project, instructional activity, or any other institutional activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy. Identification with the sponsored work rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect costs of a sponsored agreement.
- b. Costs incurred for the same purpose in like circumstances must be treated consistently. Where an educational institution treats a particular type of cost as a direct cost of sponsored agreements, all costs incurred for the same purpose in like circumstances shall be treated as a direct costs of all activities of the institution.

#### **2. *Audit Objectives – Direct Costs***

- a. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_\_.500(c).
- b. Determine whether the educational institution complied with the provisions of A-21 and CAS as follows:
  - (1) Direct charges to Federal awards were for allowable costs.
  - (2) Cost accounting practice disclosures, described in the Disclosure Statement (DS-2), including amendments, represented actual practice consistently applied. This objective only applies to non-Federal entities that are required to submit the DS-2.
  - (3) Costs are not included as both a direct billing and as a component of indirect costs, e.g., excluded from cost pools, if charged directly to Federal awards.

**3. *Suggested Internal Control Audit Procedures – Direct Costs***

- a. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
- b. Plan the testing of internal control to support a low assessed level of control risk for allowable costs/cost principles and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
- c. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

**4. *Suggested Compliance Audit Procedures – Direct Costs***

Test a sample of transactions for conformance with the following criteria contained in A-21 and CAS, as applicable:

- a. If the auditor identifies unallowable direct costs, the auditor should be aware that “directly associated costs” might have been charged. Directly associated costs are costs incurred solely as a result of incurring another cost, and would not have been incurred if the other cost had not been incurred. For example, fringe benefits are “directly associated” with payroll costs. When an unallowable cost is incurred, directly associated costs are also unallowable.
- b. Costs were approved by the Federal-awarding agency, if required (see Exhibit 1 in this part of the Supplement for selected items of cost that require agency approval when charged to an award as direct costs).
- c. Costs were not included as a cost or used to meet cost-sharing requirements of other federally supported activities of the current or a prior period.
- d. Costs represent charges for actual costs, not budgeted or projected amounts.
- e. Costs were estimated, accumulated, and reported consistently (A-21, section C.10).
- f. Costs incurred for the same purpose, in like circumstances, are either direct costs only or indirect costs only with respect to final cost objectives (A-21, section C.11).

- g. Costs charged directly to institutional activities (i.e., research and development, instruction, other institutional activities) are accounted for consistent with their disclosed practices, as described in their DS-2, if applicable (A-21, section C.14).
- h. Departmental costs charged direct to institutional activities (i.e., research and development, instruction, other institutional activities) are consistently charged directly, in like circumstances and are in accordance with the provisions of A-21 and CAS. Salaries of administrative and clerical staff should normally be treated as indirect. Direct charging of these costs may be appropriate where a major project or activity explicitly budgets for the administrative or clerical services and the individuals involved can be specifically identified with the project or activity. "Major project" is defined as a project that requires an extensive amount of administrative or clerical support, which is significantly greater than the routine level of such services provided by academic departments. Examples are found in A-21, Exhibit C.
- i. Costs for general-purpose equipment charged direct to institution activities (i.e., research and development, instruction, other institutional activities) are consistently charged as direct, were approved by the awarding agency, and are in accordance with the provisions of A-21 and CAS.
- j. Salaries and wages charged to Federal awards are allowable to the extent that total compensation to the individual employee conforms to established policies of the institution, are consistently applied, and provided that the charges for work performed directly on sponsored awards have been determined in accordance with and supported by the provisions of A-21, section J.10 as follows:
  - (1) Distribution of salaries and wages is based on payrolls documented in accordance with the generally accepted practices of the institution.
  - (2) Apportionment of employees' salaries and wages which are chargeable to more than one sponsored agreement or other cost objective is accomplished by methods which--
    - (a) Comply with A-21, sections A.2 and C,
    - (b) Produce an equitable distribution of charges for employees' activities, and
    - (c) Distinguish the employees' direct activities from their indirect activities.
  - (3) The payroll distribution is based on an after-the-fact confirmation or determination that costs distributed represent actual costs. Confirmation should be by a responsible person with suitable means of verification that the work was performed. Confirmation by the employee is not required if other responsible persons make appropriate confirmations.

## **Allowable Costs – Indirect Costs**

### ***1. Compliance Requirements – Indirect Costs***

- a. In order to recover indirect costs, educational institutions must prepare indirect cost rate proposals (ICRPs) in accordance with the guidelines provided in A-21. Educational institutions must submit ICRPs to the cognizant agency for approval (A-21, section G.11).
- b. ICRPs prepared by educational institutions are based on the most current financial data supported by the educational institution's accounting system and audited financial statements. These ICRPs can be used to establish either predetermined rates, fixed rates with carry-forward provisions, or provisional rates (A-21, sections G.4, G.5, and G.6). The ICRP to be used to establish indirect cost rates must be certified by the educational institution in accordance with A-21, section K.2.
- c. Indirect costs are those costs that are incurred for common or joint objectives and, therefore, cannot be identified readily and specifically with a particular sponsored project, an instructional activity, or any other institutional activity.
- d. As described in A-21, section F.1, the indirect cost categories include: building and equipment depreciation or use allowance; operation and maintenance expenses; interest expenses; general administrative expenses; departmental administration expenses; sponsored project administration expense; library expenses; and student administration expenses. In general the cost groupings established within a category should constitute a pool of items of expense that are considered to be of like nature in terms of their relative contribution to the particular cost objectives to which distribution is appropriate (A-21, section E). Cost categories should be established considering the general guidelines in A-21, section E.2.c.
- e. Indirect costs are defined into two broad categories in A-21, section F.
  - (1) "Facilities" is defined as depreciation and use allowance, interest in debt associated with certain buildings, equipment, and capital improvements, operation and maintenance expenses, and library expenses.
  - (2) "Administration" is defined as general administration and general expenses, departmental administration, sponsored project administration, student administration and services, and all other types of expenditures not listed specifically under one of the facility categories.
- f. Each educational institution's indirect cost rate process must be appropriately designed to determine that Federal sponsors do not in any way subsidize the indirect costs of other sponsors, specifically activities sponsored by industry and foreign governments (A-21, section G.).

- g. Administrative costs charged to sponsored agreements awarded or amended with effective dates beginning on or after the start of the educational institution's first fiscal year which begins on or after October 1, 1991, shall be limited to 26 percent of modified total direct costs, as defined in A-21, section G.2. Educational institutions should not change their accounting or cost allocation methods which were in effect on May 1, 1991, if the effect is to (1) change the charging of a particular type of cost from indirect to direct, or (2) reclassify or increase allocations from the administrative pools to the facilities pools or fringe benefits cost pools (but also see A-21, section G.8).
- h. *Submission Requirement for Standard Format for Long-Form Proposals* – Educational institutions shall use the standard format shown in A-21, Appendix C to submit ICRP to the cognizant agency for indirect costs. The cognizant agency for indirect costs may, on an institution-by-institution basis, grant exceptions from all or portions of Part II of the standard format. This requirement does not apply to educational institutions that use the simplified method for calculating indirect cost rates, as described in A-21, section H.

## 2. *Audit Objectives – Indirect Costs*

- a. *For educational institutions that charge indirect costs to Federal awards based on federally approved rate(s):*
  - (1) Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).
  - (2) Determine that the rate(s) used to charge indirect costs is consistent with the appropriate cognizant Federal agency rate agreement (A-21, section G.11).
  - (3) Determine that the federally approved rate in effect at the time of the initial award is applied throughout the life of the sponsored agreement. "Life" means each competitive segment of a project. A competitive segment is a period of years approved by the Federal-funding agency at the time of the award (A-21, section G.7).
  - (4) Determine that the federally approved rate(s) were applied to the appropriate distribution base (A-21, section G.2).
  - (5) Determine that indirect costs billed to sponsored agreements are the result of applying the approved rate(s) to the appropriate base amount(s).
- b. *For educational institutions that charge indirect costs to Federal awards based on rate(s) which are not approved by the cognizant Federal agency:*
  - (1) Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).

- (2) Determine the educational institution's cognizant Federal agency for approving indirect cost rates in accordance with A-21, section G.11.
  - (3) Determine whether an ICRP was prepared, certified, and submitted by the educational institution to their cognizant Federal agency. (The Federal agency is responsible for negotiating and approving indirect cost rates). Verify that billings are based on the ICRP.
  - (4) Determine that the submitted rate(s) were applied to the appropriate distribution base (a-21, section G.2).
  - (5) Determine that indirect costs billed to sponsored agreements are the result of applying the submitted rate(s) to the appropriate base amount(s).
- c. *For educational institutions that charge indirect costs to Federal awards based on award-specific rate(s) approved by an awarding agency:*
- (1) Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).
  - (2) Determine that the award-specific rate(s) are the result of special circumstances such as required by law or regulation, in accordance with A-21, section G.11.
  - (3) Determine whether indirect cost rates were applied in accordance with the approved special award provisions or limitations. Associated billings were the result of applying the approved rate to the proper base amount.
  - (4) When the maximum amount of allowable indirect costs under a limitation (i.e., an award-specific rate) is less than the total amount determined in accordance with the principles in A-21, the amount not recoverable under a sponsored agreement may not be charged to other sponsored agreements (A-21, section C.7).

### **3. *Suggested Internal Control Audit Procedures – Indirect Costs***

- a. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
- b. Plan the testing of internal control to support a low assessed level of control risk for allowable costs/cost principles and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.

- c. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

**4. *Suggested Compliance Audit Procedures – Indirect Costs***

- a. Test a sample of transactions for conformance with the following criteria contained in A-21 and CAS, as applicable.
- b. *For educational institutions that charge indirect cost to Federal awards based on federally approved rate(s):*
  - (1) Ascertain if indirect costs or centralized or administrative services costs were allocated or charged to a major program. If not, the following suggested audit procedures do not apply.
  - (2) Obtain and read the current indirect cost rate agreement and determine the terms in effect.
  - (3) Select a sample of claims for reimbursement and verify that the rates used are in accordance with the rate agreement, that rates were applied to the appropriate bases, and that the amounts claimed were the product of applying the rate to the applicable base. Verify that the costs included in the base(s) are consistent with the costs that were included in the base year (e.g., if the allocation base is total direct costs, verify that current year direct costs do not include costs items that were treated as indirect costs in the base year).
  - (4) Ascertain if the educational institution's accounting practices for determining direct and indirect costs for the fiscal year being audited are consistent with the accounting practices used to establish the federally approved rate and its DS-2. If accounting changes have occurred, determine if they were approved by the cognizant Federal agency. If accounting changes have not been approved and the accounting changes impact costs charged to federally funded awards, this should be considered a reportable finding. (A-21, section C.14 and CAS, as applicable).
- c. *For educational institutions that charge indirect cost to Federal awards based on rate(s) which are not approved by the cognizant Federal agency:*
  - (1) If the ICRP has been certified and submitted to the cognizant Federal agency and is based on costs incurred in the year being audited, then the ICRP should be audited for compliance with the provisions of A-21 and CAS, as applicable.

- (2) If the educational institution has a certified ICRP, which is based on costs incurred in the year being audited, but has not submitted it to their Federal cognizant agency, then the ICRP should be audited using the procedures listed below.
- (a) Test the indirect cost pool groupings for compliance with A-21, section F.
  - (b) Test the indirect cost pools to determine if costs are allowable.
  - (c) Test that indirect costs have been treated consistently when incurred for the same purpose, in like circumstances, as indirect costs only with respect to final cost objectives. No final cost objective shall have allocated to it as a cost any cost, if another cost incurred for the same purpose, in like circumstances, has been included as a direct cost of that or any other final cost objective (A-21, section C.11).
  - (d) Test that the indirect cost pools in the rate proposal were developed consistent with the educational institution's disclosed practices as described in its DS-2, if applicable (A-21, section C.14).
  - (e) Test the *depreciation and use allowance* cost pool to determine if:
    - (i) Computations of depreciation or use allowance are based on the acquisition cost of the assets. Acquisition costs exclude (A) the cost of land; (B) any portion of the cost of buildings and equipment borne by the Federal Government, irrespective of where title was originally vested or where it is presently located; and (C) any portion of the cost of buildings and equipment contributed by or for the educational institution where law or agreement prohibit recovery (A-21, section J.14).
    - (ii) The depreciation method used to charge the cost of an asset (or group of assets) to accounting periods reflects the pattern of consumption of the asset during its useful life (A-21, section J.14).
    - (iii) Charges for use allowances or depreciation are supported by adequate property records and physical inventories, which must be taken at least once every 2 years (A-21, section J.14).

- (iv) The depreciation methods used to calculate the depreciation amounts for the ICRP are the same methods used by the educational institution for its financial statements (A-21, section J.12).
  - (v) The allocation method for the depreciation and use allowance cost pool complies with A-21, section F.2.
  - (vi) Gains and losses on the sale, retirement, or other disposition of depreciable property have been appropriately accounted for and complies with A-21, section J.21.
  - (vii) *Large research facilities* – Determine that large research facilities that are included in ICRPs negotiated after January 1, 2000, and on which the design and construction began after July 1, 1998, are compliant with the provisions for determining allowable costs in A-21, section F.2.c.
- (f) Test the *interest* cost pool to determine if:
- (i) Computations for interest comply with the provisions of A-21, section J.26.
  - (ii) The allocation method for the interest cost pool complies with A-21, section F.3.
- (g) Test the *operations and maintenance* cost pool to determine if:
- (i) Costs are appropriately classified in this cost pool (A-21, section F.4).
  - (ii) Rental costs comply with the provisions of A-21, section J.43.
  - (iii) The educational institution's accounting practices for classifying (A) rearrangement and alteration costs and (B) reconversion costs, either as direct or indirect, result in consistent treatment in like circumstances.
  - (iv) The allocation method for the operations and maintenance cost pool complies with A-21, section F.4.
- (h) Tests the *library* cost pool to determine if:
- (i) Costs are appropriately classified in this cost pool (A-21, section F.8).

- (ii) The allocation method for the library cost pool complies with A-21, section F.8.
- (iii) If the allocation method is based on a cost analysis study in accordance with A-21, section E.2.d, determine that the study:
  - (A) Results in an equitable distribution of costs and represents the relative benefits derived,
  - (B) Is appropriately documented in sufficient detail for review by the cognizant Federal agency,
  - (C) Is statistically sound,
  - (D) Is performed specifically at the educational institution,
  - (E) Is reviewed every 2 years, and, if necessary, updated, and
  - (F) Assumptions are clearly stated and adequately explained.
- (i) Test the *administrative* cost pools to determine if:
  - (i) Costs are appropriately classified in these cost pools and the distribution bases are compliant with A-21, sections F.5, F.6, and F.7.
  - (ii) The administrative cost components comply with the limitation on reimbursement of administrative cost in A-21, section G.8. If the proposal is based on the alternative method for administrative cost in A-21, section G.9, then the limitation does not apply. If the proposal is based on the alternative method for administrative cost, determine that the educational institution meets the criteria of section G.9 and that this is adequately documented in the proposal.
  - (iii) *Departmental administration expense pool* – test to determine that this cost pool complies with A-21, section F.6.
  - (iv) *Academic Deans' Offices* – test that salaries and operating expenses are limited to those attributable to administrative functions.

- (v) *Academic Departments* – Salaries and fringe benefits attributable to the administrative work (including bid and proposal preparation) of faculty (including department heads), and other professional personnel conducting research and/or instruction, is allowed at a rate of 3.6 percent of modified total direct costs. This category should not include professional business or administrative officers. Determine that this allowance is added to the computation of the indirect cost rate for major functions. Test to determine that the expenses covered by this allowance are excluded from the departmental cost pool (A-21, section F.6).

Test for consistent treatment, in like circumstances, of other administrative and supporting expenses incurred within academic departments. For example, items such as office supplies, postage, local telephone, and memberships shall normally be treated as indirect costs.

- (3) If the ICRP has been certified and submitted to the cognizant Federal agency, but is based on costs incurred in a fiscal year prior to the fiscal year being audited, a review of the ICRP is not required.
- (4) If an ICRP has not been prepared and, therefore, the indirect costs charged to Federal awards are not based on a certified ICRP, this may be required to be reported as an audit finding, in accordance with OMB Circular A-133, §\_\_.510(a)(5).
- (5) *Application of an indirect cost rate(s) not approved by the cognizant agency* – Even though the rate(s) has not been approved by the cognizant agency, an unapproved indirect cost rate(s) should be reviewed for consistent application of the submitted rates to direct cost bases to ensure that the indirect cost rate(s) is applied consistent with the educational institution's policies and procedures that apply uniformly to both federally funded and other activities of the institution.
- d. *For educational institutions that also have awards containing award-specific rates (approved by the Federal awarding agency) that take precedence over the negotiated rate for purposes of indirect cost recovery:*
- (1) Ascertain that the award-specific rate is in accordance with special circumstances required by law or regulation.
- (2) Obtain and review the award terms used to establish an award-specific indirect cost rate(s).

- (3) Select a sample of claims for reimbursement and verify that the award-specific rate(s) used are in accordance with the terms of the award, that rate(s) were applied to the appropriate bases, and that the amounts claimed were the product of applying the rate to the applicable base. Verify that the costs included in the base(s) are consistent with the terms of the agreement.

## **Allowable Costs – Special Requirements – Cost Accounting Standards and Disclosure Statements**

### ***1. Compliance Requirement – CAS and Disclosure Statements***

- a. A-21, section C.14 requires educational institutions (institutions) that receive more than \$25 million in Federal funding in a fiscal year to prepare and submit a Disclosure Statement (DS-2) that describes the institution's cost accounting practices. These institutions are required to submit a DS-2 within 6 months after the end of the institution's fiscal year that begins after May 8, 1996, unless the institution is required to submit a DS-2 earlier due to a receipt of a CAS-covered contract in accordance with 48 CFR section 9903.202-1.
- b. These institutions are responsible for maintaining an accurate DS-2 and complying with disclosed cost accounting practices. They are also responsible for filing amendments to the DS-2 when disclosed practices are changed or modified. Amendments should be provided to the cognizant Federal agency for approval.
- c. Federal Acquisition Regulation (FAR) Appendix, 48 CFR section 9903.201-2(c), Types of CAS Coverage, requires educational institutions to comply with all of the CAS specified in 48 CFR part 9905 that are in effect on the effective date of a covered contract. Negotiated contracts in excess of \$500,000 are CAS-covered, except for CAS-covered contracts awarded to Federally Funded Research and Development Centers (FFRDCs) operated by an educational institution, which are subject to 48 CFR part 9904.

### ***2. Audit Objectives – CAS and Disclosure Statements***

- a. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).
- b. Determine whether the educational institution's DS-2 is current, accurate, and complete and that it has been approved by the cognizant Federal agency as adequate and compliant with A-21 and CAS (48 CFR part 9905).
- c. Determine whether the educational institution's actual accounting practices are consistent with its disclosed accounting practices.
- d. Determine whether amendments have been filed with and approved by the cognizant Federal agency.

- e. Determine whether the educational institution's accounting practices for direct and indirect costs comply with CAS applicable to educational institutions (48 CFR part 9905).

### **3. *Suggested Internal Control Audit Procedures – CAS and Disclosure Statements***

- a. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
- b. Plan the testing of internal control to support a low assessed level of control risk for allowable costs/cost principles and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
- c. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

### **4. *Suggested Compliance Audit Procedures – CAS and Disclosure Statements***

- a. Obtain a copy of the educational institution's DS-2, amendments, and letters of approval from the cognizant Federal agency.
- b. Read the DS-2 and its amendments and ascertain if the disclosure agrees with the policies prescribed in the educational institution's current policies and procedures documents.
- c. Test that the disclosure agrees with actual practices for the period covered by audit, including whether the practices were consistent throughout the period.
- d. Test direct and indirect charges to Federal awards to determine that the educational institution's practices used in estimating the costs in the proposal were consistent with the institution's cost accounting practices used in accumulating and reporting the costs (A-21, section C.10 and FAR Appendix, 48 CFR section 9905.501).
- e. For those costs which are sometimes charged direct and sometimes charged indirect, test for consistent classification of these costs, when incurred for the same purpose and under like circumstances (A-21, section C.11 and FAR Appendix, 48 CFR section 9905.502). For example:
  - (1) Salaries of administrative and clerical staff are normally treated as indirect costs; however, they may be charged direct to a major project or activity

under certain conditions. Sample these costs when they have been charged direct to Federal awards to determine consistent treatment for non-Federal awards, instructional activity, or other institutional activity (A-21, section F.6.).

- (2) Office supplies, postage, local telephone costs and memberships are normally treated as indirect. Sample these costs when they have been charged direct to Federal awards to determine consistent treatment for non-Federal awards, instructional activity, or other institutional activity (A-21, section F.6.).
- f. Capital expenditures for general and special-purpose equipment may be charged direct to awards with approval of the awarding agency. Sample these costs when they have been charged direct to Federal awards to determine consistent treatment for non-Federal awards, instructional activity, or other institutional activity (A-21, section J.18.).
- g. Test costs direct charged to Federal awards and indirect costs accumulated in the educational institution's accounting system for adequate accounting of unallowable costs (A-21 section C.12 and FAR Appendix, 48 CFR section 9905.505).
- h. Determine that the educational institution's cost accounting period for accumulating costs on Federal awards and indirect cost pools are consistent with the institution's fiscal year. If not, determine that the institution has met the criteria for an exception described in A-21, section C.13 and that it has been approved by the cognizant Federal agency (A-21, section C.13 and FAR Appendix, 48 CFR section 9905.506).

### **Allowable Costs – Special Requirements – Internal Service, Central Service, Pension, or Similar Activities or Funds**

#### **1. *Compliance Requirement***

Charges made from internal service, central service, pension, or similar activities or funds, must follow the applicable cost principles provided in A-21.

#### **2. *Audit Objectives***

Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c). Determine whether charges made from internal service, central service, pension, or similar activities or funds are in accordance with A-21.

### **3. *Suggested Internal Control Audit Procedures***

- a. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
- b. Plan the testing of internal control to support a low assessed level of control risk for allowable costs/cost principles and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in OMB Circular §\_\_\_\_.500(c)(3), including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
- c. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

### **4. *Suggested Compliance Audit Procedures***

The auditor should consider procedures such as the following:

- a. For activities accounted for in separate funds, ascertain if (1) retained earnings/fund balances (including reserves) were computed in accordance with A-21; (2) working capital reserves were not excessive in amount (generally not greater than 60 days for cash expenses for normal operations incurred for the period exclusive of depreciation, capital costs and debt principal costs); and (3) refunds were made to the Federal Government for its share of any amounts transferred or borrowed from internal service, central service, pension, insurance, or other similar activities or funds for purposes other than to meet the operating liabilities, including interest on debt, of the fund.
- b. Test that all users of services are billed in a consistent manner.
- c. Test that billing rates exclude unallowable costs, in accordance with A-21.
- d. Test, where activities are not accounted for in separate funds, that billing rates (or charges) are developed based on actual costs and were adjusted to eliminate profits.
- e. For educational institutions that have self-insurance and certain types of fringe benefit programs (e.g., pension funds), ascertain if independent actuarial studies appropriate for such activities are performed at least biennially and that current period costs were allocated based on an appropriate study which is not over 2 years old.

## **OMB CIRCULAR A-122 COST PRINCIPLES FOR NON-PROFIT ORGANIZATIONS**

### **Introduction**

OMB Circular A-122 (A-122) establishes cost principles for determining costs of grants, contracts, and other agreements with non-profit organizations. The principles are designed to provide that the Federal Government bear its fair share of costs except where restricted or prohibited by law. These principles are used by all Federal agencies in determining the costs of work performed by non-profit organizations under grants, cooperative agreements, and cost reimbursement contracts. All of these instruments are hereafter referred to as “awards.” The principles do not apply to awards under which an organization is not required to account to the Federal Government for actual costs incurred. In addition to the cost principles established by A-122, the Cost Accounting Standards Board (CASB) has promulgated certain cost accounting standards (CAS) that must be followed by non-profit organizations receiving procurement contracts that meet a defined dollar threshold. Generally, organizations are exempt from coverage under CAS unless a single CAS-covered contract or subcontract of at least \$7.5 million has been received. After receipt of this trigger contract, CAS coverage is applied to all negotiated awards over \$500,000 unless they meet certain exemptions. These exemptions and the requirements of CAS can be found in 48 CFR Chapter 99.

### ***Cognizant Agency***

A-122, Attachment A, paragraph E.1.a defines “cognizant agency” as the Federal agency responsible for negotiating and approving indirect cost rates for non-profit organizations on behalf of all Federal agencies. References to cognizant agency in this section should not be confused with the cognizant Federal agency for audit responsibilities, which is defined in OMB Circular A-133, Subpart D, §\_\_\_400(a).

### ***Availability of Other Information***

Additional information on indirect cost rate determination for non-profit organizations can be found at the following websites:

- Department of Labor – <http://www.dol.gov/oasam/programs/boc/costdeterminationguide/main.htm>
- Department of Health and Human Services – [http://rates.psc.gov/fms/dca/np\\_exall2.html](http://rates.psc.gov/fms/dca/np_exall2.html)
- Department of Education – <http://www.ed.gov/about/offices/list/ocfo/fipao/abouticg.html> - [how-are-indirect-cost-rates-determined](#).

## Allowable Costs – General Criteria

### 1. *Basic Considerations to Determine Cost*

The basic considerations used to determine costs (direct and indirect) are identified in A-122, Attachment A, paragraph A and include the following:

- a. *Composition of cost* – The total cost of an award is the sum of the allowable direct and allocable indirect costs less any applicable credits. The term “applicable credits” refers to those receipts, or reduction of expenditures that operate to offset or reduce expense items that are allocable to awards as direct or indirect costs.
- b. *Allowable costs* – A cost is allowable under an award if the cost meets the following general criteria:
  - (1) Be reasonable for the performance of the award and be allocable in accordance with A-122.
    - (a) A cost is reasonable if, in its nature or amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost. Consideration should be given to:
      - (i) Whether the cost is of a type generally recognized as ordinary and necessary for the operation of the organization or the performance of the award.
      - (ii) The restraints or requirements imposed by such factors as generally accepted sound business practices, arms-length bargaining, Federal and State laws and regulations, and terms and conditions of the award.
      - (iii) Whether the individuals concerned acted with prudence in the circumstances.
      - (iv) Significant deviations from the established practices of the organization that may unjustifiably increase the award costs.
    - (b) A cost is allocable to a particular cost objective, such as a grant, contract, project, service or other activity, in accordance with the relative benefits received. Any cost allocable to a particular award or other cost objective under A-122 may not be shifted to other Federal awards to overcome funding deficiencies, or to avoid restrictions imposed by law or terms of the award. A cost is allocable to a Federal award if it is treated consistently with other costs incurred for the same purpose in like circumstances and if it:

- (i) Is incurred specifically for the award.
  - (ii) Benefits both the award and other work and can be distributed in reasonable proportion to the benefits received.
  - (iii) Is necessary to the overall operation of the organization, although a direct relationship to any particular cost objective cannot be shown.
- (2) Conform to any limitations or exclusions set forth in A-122 or in the award.
  - (3) Be consistent with policies and procedures that apply uniformly to both federally financed and other activities of the organization.
  - (4) Be accorded consistent treatment.
  - (5) Be determined in accordance with generally accepted accounting principles (GAAP).
  - (6) Not be included as a cost or used to meet cost-sharing or matching requirements of any other federally financed program in either the current or a prior period.
  - (7) Be adequately documented.
  - (8) Be net of all applicable credits.

## **2. *Selected Items of Cost***

A-122, Attachment B, paragraphs 1 through 52, provide principles to be applied in establishing the allowability of certain items of cost. These principles apply whether a cost is treated as direct or indirect. Failure to mention a particular item of cost is not intended to imply that it is unallowable; rather, determination as to allowability in each case should be based on the treatment or principles provided for similar or related items of cost.

### **Allowable Costs – Direct Costs**

#### **1. *Compliance Requirements – Direct Costs***

Direct costs are those that can be identified specifically with a particular final cost objective, i.e., award, project or other activity of the organization. Any direct cost of a minor amount may be treated as an indirect cost for reasons of practicality where accounting treatment for such cost is consistently applied to all final cost objectives.

Certain direct costs are unallowable for computing charges to Federal awards, nonetheless they must be treated as direct costs for determining indirect cost rates and be allocated their share of indirect costs if they represent activities that (a) include the salaries of personnel, (b) occupy space, and (c) benefit from the organization's indirect costs. The cost of activities performed primarily as a service to members, clients, or the general public when significant and necessary to the organization's mission must be treated as direct costs—whether or not allowable—and be allocated a share of indirect costs. Examples can be found in A-122, Attachment A, subparagraph B.4.

If the auditor identifies unallowable direct costs, the auditor should be aware that directly associated costs might have been charged. Directly associated costs are costs incurred solely as a result of incurring another cost that would not have been incurred if the other cost had not been incurred. For example, fringe benefits are directly associated with payroll costs. When a payroll cost is determined to be unallowable, then the directly associated fringe benefit would be determined unallowable as well.

## **2. *Audit Objectives – Direct Costs***

- a. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).
- b. Determine whether the organization complied with the provisions of A-122 and CAS (if applicable) as follows:
  - (1) Direct charges to Federal awards were for allowable costs.
  - (2) Unallowable costs, determined to be direct costs, were included in the allocation base for the purpose of computing an indirect cost rate.

## **3. *Suggested Internal Control Audit Procedures – Direct Costs***

- a. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
- b. Plan the testing of internal control to support a low assessed level of control risk for allowable costs/cost principles and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
- c. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

#### **4. *Suggested Compliance Audit Procedures – Direct Costs***

Test direct costs charged to Federal awards with the following criteria:

- a. Costs were approved by the Federal awarding agency, if required. (See Exhibit 1, Selected Items of Cost, in this part of the Supplement.)
- b. Costs conform to the allowability of cost provisions of A-122, or limitations in the program agreement, program regulations, or program statute.
- c. Costs represent charges for actual costs, not budgeted or projected amounts.
- d. Costs are given consistent accounting treatment within and between accounting periods. Consistency in accounting requires that costs incurred for the same purpose, in like circumstances, be treated as either direct costs only or indirect costs only with respect to final cost objectives.
- e. Costs are calculated in conformity with generally accepted accounting principles, or CAS when required.
- f. Costs are not used to meet cost-sharing requirements of other federally supported activities.
- g. Costs are net of all applicable credits, e.g., volume or cash discounts, insurance recoveries, refunds, rebates, trade-ins, adjustments for checks not cashed, and scrap sales.
- h. Costs are not included as both a direct billing and as a component of indirect costs.
- i. Costs are supported by appropriate documentation, such as approved purchase orders, receiving reports, vendor invoices, canceled checks, and time and attendance records, and correctly charged as to account, amount, and period.

#### **Allowable Costs – Indirect Costs**

##### **1. *Compliance Requirements – Indirect Costs***

- a. Indirect costs are those costs that have been incurred for common or joint objectives and cannot be readily identified with a particular final cost objective. Stated differently, indirect costs are those costs remaining after direct costs have been determined and assigned directly. While it is not possible to specify the types of costs that will be indirect, there are three major categories of indirect costs for non-profit organizations (NPOs):

- (1) *Depreciation and Use Allowance* – The expenses under this category are that portion of the costs of the organization’s buildings, capital improvements to land and buildings, and equipment, which are computed in accordance with A-122, Attachment B, section 11. Interest on debt associated with certain buildings, equipment, and capital improvements are computed in accordance with A-122, Attachment B, paragraph 23.
  - (2) *Operation and Maintenance* – The expenses under this category are those that have been incurred for the administration, operation, maintenance, preservation, and protection of the organization’s physical plant.
  - (3) *General and Administrative* – The expenses under this category are those that have been incurred for the overall general executive, and administration of the organization and other expenses of a general nature that do not relate solely to any major function of the organization.
- b. Indirect cost rate proposals (ICRPs) prepared by NPOs are based on the most current financial data, supported by the organization’s accounting system and audited financial statements. These ICRPs can be used to either establish predetermined rates, fixed rates with carry-forward provision, provisional, or final rates.
- (1) *Predetermined rates* are established for the current or multiple future period(s) based on current costs (usually costs from the most recently ended fiscal year, known as the base period).
  - (2) *Fixed rates with carry-forward provisions* – rates based on current costs in the same manner as predetermined rates. However, the difference between the base period indirect costs and actual indirect cost recovery are carried forward as an adjustment to the rate computation for the subsequent period.
  - (3) *Provisional rates* – temporary rates used for funding and billing indirect costs, pending the establishment of a final rate after actual costs are determined for the period.
  - (4) *Final rates* – indirect cost rates applicable to a specified past period based on actual costs of that period. Final rates are not subject to adjustment.
- c. Some Federal awards may contain cost limitations on recovery of indirect costs that differ from the federally negotiated indirect cost rates. Normally, this may be due to statutory requirements or limitations contained in program announcements. In these cases, the indirect cost rate approved for that award will be specified in the award letter or agreement. For these awards, the award-specific rate takes precedence over the negotiated rate for purposes of indirect cost recovery.

- d. To recover indirect costs, NPOs prepare ICRPs. The ICRP is the rate calculation and supporting schedules used to arrive at the indirect cost pool amounts and the base amounts. NPOs can select one of three different methods to calculate the indirect cost rate.

(1) *Simplified Allocation Method*

- (a) Where an organization's major functions benefit from its indirect costs to approximately the same degree, the allocation of indirect costs may be accomplished by (i) separating the organization's total costs for the base period as either direct or indirect, and (ii) dividing the total allowable indirect costs (net of applicable credits) by an equitable distribution base. The result of this process is an indirect cost rate, which is used to distribute indirect costs to individual awards. The rate should be expressed as the percentage that the total amount of allowable indirect costs bears to the base selected. This method should also be used where an organization has only one major function encompassing a number of individual projects or activities, and may be used where the level of Federal awards to an organization is relatively small.
- (b) For an organization that receives more than \$10 million in Federal funding of direct costs in a fiscal year, a breakout of the indirect cost component into two broad categories, Facilities and Administration, as defined in Circular A-122, Attachment A, paragraph C.3, is required. The rate in each case shall be stated as the percentage that the amount of the particular indirect cost category (i.e., Facilities or Administration) is of the distribution base identified with that category.
- (c) A full discussion of the simplified allocation method can be found in A-122, Attachment A, subparagraphs D.2.a. through D.2.e.

(2) *Multiple Allocation Base Method*

- (a) Where an organization's indirect costs benefit its major functions in varying degrees, indirect costs shall be accumulated into separate cost groupings, as described in A-122, Attachment A, subparagraph D.3.b. Each grouping shall then be allocated individually to benefiting functions by means of a base that best measures the relative benefits. The default allocation bases by cost pool are described in A-122, Attachment A, subparagraph D.3.c.

- (b) Cost groupings shall be established so as to permit the allocation of each grouping on the basis of benefits provided to the major functions. Each grouping shall constitute a pool of expenses that are of like character in terms of functions they benefit and in terms of the allocation base which best measures the relative benefits provided to each function. The groupings are classified within the two broad categories: “Facilities” and “Administration,” as described in A-122, Attachment A, subparagraph C.3.
  - (c) Except where a special indirect cost rate(s) is required in accordance with A-122, Attachment A, subparagraph D.5, the separate groupings of indirect costs allocated to each major function shall be aggregated and treated as a common pool for that function. The costs in the common pool shall then be distributed to individual awards included in that function by use of a single indirect cost rate.
  - (d) Indirect costs shall be distributed to applicable sponsored awards and other benefiting activities within each major function on the basis of modified total direct costs (MTDC). MTDC consists of all salaries and wages, fringe benefits, materials and supplies, services, travel, and subgrants and subcontracts up to the first \$25,000 of each subgrant or subcontract (regardless of the period covered by the subgrant or subcontract). Equipment, capital expenditures, charges for patient care, rental costs and the portion in excess of \$25,000 shall be excluded from MTDC. Participant support costs shall generally be excluded from MTDC. Other items may only be excluded when the Federal cost cognizant agency determines that an exclusion is necessary to avoid a serious inequity in the distribution of indirect costs.
  - (e) A full discussion of the multiple allocation base method can be found in A-122, Attachment A, subparagraphs D.3.a. through D.3.g.
- (3) *Direct Allocation Method*
- (a) Some NPOs treat all costs as direct costs except general administration and general expenses. These organizations generally separate their costs into three basic categories: (i) General administration and general expenses, (ii) fundraising, and (iii) other direct functions (including projects performed under Federal awards). Joint costs, such as depreciation, rental costs, operation and maintenance of facilities, telephone expenses, and the like are prorated individually as direct costs to each category and to each award or other activity using a base most appropriate to the particular cost being prorated.

- (b) This method is acceptable, provided each joint cost is prorated using a base which accurately measures the benefits provided to each award or other activity. The bases must be established in accordance with reasonable criteria, and be supported by current data.
- (c) A full discussion of the direct allocation base method can be found in A-122, Attachment A, subparagraph D.4.a. through D.4.c.

## 2. ***Audit Objectives – Indirect Costs***

- a. *For NPOs that charge indirect costs to Federal awards based on federally approved rates:*
  - (1) Obtain an understanding of internal controls, assess risk, and test internal controls as required by OMB Circular A-133, §\_\_\_\_.500(c).
  - (2) Determine whether the organization complied with the provisions of A-122 and CAS (if applicable) as follows:
    - (a) Indirect cost rates were applied in accordance with approved rate agreements and any special award provisions/limitations (if different from those stated in the negotiated rate agreement).
    - (b) Associated billings were the result of applying the approved rate to the proper base amount(s).
  - (3) For fixed rate agreements, predetermined rate agreements, and provisional rate agreements determine whether the base used to distribute the approved indirect cost rate is accurate and reflects the terms of the agreement.
  - (4) For fixed rate agreements, determine whether the organization has adequately determined the actual indirect costs for the fiscal year being audited and performed the necessary computations to accurately report the carry-forward adjustment to the rate computation for the subsequent period.
- b. *For NPOs that charge indirect costs to Federal awards that are not based on federally approved rates:*
  - (1) Obtain an understanding of internal controls, assess risk, and test internal controls as required by OMB Circular A-133, §\_\_\_\_.500(c).
  - (2) Determine whether costs that are directly allocated to an award using the Direct Allocation Method are prorated using a base that accurately measures the benefits provided to each award or activity.

- (3) Determine whether an ICRP was prepared and submitted to the organization's cognizant agency (the Federal agency responsible for negotiating and approving indirect cost rates) as required by A-122. Verify that billings are based on the ICRP.
  - (4) Determine whether the NPO's calculated indirect cost rate is (a) consistent with policies and procedures that apply uniformly to both federally funded and other activities of the organization, and (b) applied consistently to the proper allocation bases.
  - (5) Determine whether the organization complied with the provisions of A-122 and CAS as follows:
    - (a) Charges to indirect cost pools were for allowable costs.
    - (b) The base used to distribute indirect costs includes both allowable and unallowable costs.
    - (c) The cost allocation methodology provides equitable and consistent allocation of indirect costs to benefiting awards or activities.
- c. *For NPOs that also have awards containing award-specific rates (approved by the Federal awarding agency) that take precedence over the negotiated rate for purposes of indirect cost recovery:*
- (1) Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_.500(c).
  - (2) Determine if the award-specific rate(s) is the result of special circumstances, e.g., required by law or regulation.
  - (3) Determine whether indirect cost rates were applied in accordance with the approved special award provisions or limitations and that associated billings were the result of applying the approved rate to the proper base amount.
  - (4) When the maximum amount of allowable indirect costs under a limitation (i.e., an award-specific rate) is less than the total amount determined in accordance with the principles in A-122, the amount not recoverable under a sponsored agreement may not be charged to other sponsored agreements.

### **3. *Suggested Internal Control Audit Procedures – Indirect Costs***

- a. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.

- b. Plan the testing of internal control to support a low assessed level of control risk for allowable costs/cost principles and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
- c. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

#### **4. *Suggested Compliance Audit Procedures – Indirect Costs***

- a. *For NPOs that charge indirect costs to Federal awards based on federally approved rates:*
  - (1) Ascertain if indirect costs are material for the major programs being tested. If not, the following suggested audit procedures, b. through e., do not apply.
  - (2) Obtain and read the current indirect cost rate agreement, including the proposal used in the negotiation of the agreement, and determine the terms in effect.
  - (3) Ascertain whether the indirect cost rate agreement uses a pre-determined rate, fixed rate, provisional rate, or final rate. For definitions of these rates, see A-122, Attachment A, subparagraphs E (b) through (e).
    - (a) If a fixed rate agreement with carry-forward provisions has been negotiated with the cognizant agency, determine that the difference between the indirect costs recovered using the fixed rate and the actual indirect costs of the period has been calculated. This adjustment is to be carried forward to the rate computation of the subsequent period.
    - (b) If a provisional rate was used to bill for indirect costs, determine whether a final rate has been established and appropriate claim adjustments have been made based on the final approved rate.
  - (4) For NPOs required to file Disclosure Statements (48 CFR section 9903.202), ascertain if the cognizant agency for indirect cost negotiation has been appropriately notified of changes in the cost accounting practices that occurred during the year to which indirect cost rate agreements are being applied.

- (5) Select a sample of claims for reimbursement:
- (a) Verify that the rates used are in accordance with the rate agreement and the amounts claimed were the product of applying the rate to the applicable base.
  - (b) Verify that the base includes both allowable and unallowable costs.
  - (c) When the base is total direct costs or modified total direct costs, verify that the distribution base has been properly calculated and excludes capital expenditures and other distorting items such as major subcontracts or subgrants in excess of \$25,000 as approved in the negotiated rate agreement or by the cognizant Federal agency.
- b. *For NPOs that charge indirect costs to Federal awards that are not based on federally approved rates:*

- (1) Determine if the indirect costs are based on a certified ICRP that has been submitted to (but not approved by) the NPO's Federal cognizant agency as required by A-122, Attachment A, subparagraph E. If the ICRP is based on costs incurred in the year being audited, then the ICRP should be audited for compliance with the provisions of A-122 (see procedures in paragraphs 4.b(1)(a) through (1)(c) below).

Note: If the NPO has a certified ICRP, which is based on costs incurred in the year being audited, but it has not been submitted to the Federal cognizant agency, the ICRP should still be audited using the procedures in paragraphs 4.b(1)(a) through (1)(c) below.

- (a) The following procedures should be applied to costs in the indirect cost pool used for recovering indirect costs from Federal awarding agencies. These costs must:
- (i) Be approved by the Federal awarding agency, if required.
  - (ii) Conform to the allowability of cost provisions of A-122, or limitations in the award agreement, program regulations, or program statute.
  - (iii) Conform to the allocability provisions of A-122 or CAS.
  - (iv) Represent charges for actual costs, not budgeted or projected amounts.
  - (v) With respect to fringe benefit allocations, charges, or rates, be based on the benefits received by different classes of employees within the organization.

- (vi) Be applied uniformly to Federal and non-Federal activities.
  - (vii) Be calculated in conformity with CAS or generally accepted accounting principles, as required.
  - (viii) Not be used to meet cost-sharing requirements of other federally supported activities.
  - (ix) Be net of all applicable credits, e.g., volume or cash discounts, insurance recoveries, refunds, rebates, trade-ins, adjustments for checks not cashed, and scrap sales.
  - (x) Not be included as both a direct billing and as a component of indirect costs.
  - (xi) Be supported by appropriate documentation, such as approved purchase orders, receiving reports, vendor invoices, canceled checks, and time and attendance records, and correctly charged as to account, amount, and period.
  - (xii) Be given consistent accounting treatment within and between accounting periods. Consistency in accounting requires that costs incurred for the same purpose, in like circumstances, be treated as either direct costs only or indirect costs only with respect to final cost objectives.
- (b) The following procedures should be applied to costs in the base(s) for recovering indirect costs from Federal awarding agencies. Determine whether:
- (i) All direct costs, including unallowable costs, are identified and included in the base for indirect cost allocations.
    - (A) For fixed price agreements, all direct costs are recorded for the purpose of allocating indirect costs.
    - (B) For cost-reimbursement awards or contracts that include line item costs that exceed budget limits, all direct costs are recorded for the purpose of allocating indirect costs.
  - (ii) Costs have been recorded in accordance with CAS, generally accepted accounting principles, or other comprehensive basis of accounting, as appropriate.
  - (iii) Costs have been assigned to the correct cost objective or activity.

- (iv) Costs have been given consistent accounting treatment within and between accounting periods.
    - (c) The following procedures should be applied to costs allocated using the Direct Allocation Method:
      - (i) Test statistical data (e.g., square footage, case counts, salaries and wages) to ascertain if the proposed allocation bases are reasonable, updated as necessary, and do not contain any material omissions.
      - (ii) Review time studies or time and effort reports (where and if used) to ascertain if they are accurate, are implemented as approved, and are based on the actual effort devoted to the various functional and programmatic activities to which the salary and wage costs are charged.
      - (iii) Review the allocation methodology for consistency and test the appropriateness of allocation methods used.
  - (2) Determine if the indirect costs are based on a certified ICRP that has been submitted to (but not approved by) the NPO's Federal cognizant agency as required by A-122, Attachment A subparagraph E. If the ICRP is not based on costs incurred in the year being audited (e.g., the year being audited is fiscal year 2012, but the ICRP is based on fiscal year 2011 costs), a review of the ICRP is not required.
  - (3) If the indirect costs are not based on a certified and submitted ICRP, in accordance with A-122, this may be required to be reported as an audit finding in accordance with OMB Circular A-133, §\_\_.510(a)(5).
  - (4) *Application of indirect cost rates which are not approved by the cognizant agency* – Even though the rate(s) have not been approved by the cognizant agency, unapproved indirect cost rate(s) should be reviewed for consistent application of the submitted rates to direct cost bases to ensure that the indirect cost rate(s) are applied consistent with the NPO's policies and procedures that apply uniformly to both federally-funded and other activities of the NPO (A-122, Attachment A, paragraph A.(2)(c)).
- c. For NPOs that also have awards containing award-specific rates (approved by the Federal awarding agency) that take precedence over the negotiated rate for purposes of indirect cost recovery:
- (1) Ascertain that the award-specific rate is only being used for the approved award.
  - (2) Obtain and read the award terms used to establish an award-specific indirect cost rate(s).

- (3) Select a sample of claims for reimbursement and verify that the award specific rate(s) is in accordance with the terms of the award, that the rate(s) was applied to the appropriate base(s), and that the amount claimed is the product of applying the rate to the applicable base. Verify that the cost included in the base(s) is consistent with the terms of the agreement.

## **Allowable Costs – Special Requirements – Unallowable Direct Costs**

### **1. *Compliance Requirements – Unallowable Direct Costs***

- a. The costs of certain activities are not allowable as charges to Federal awards (see, for example, fundraising costs in A-122, Attachment B, paragraph 17.a). However, even though these costs are unallowable for purposes of computing charges to Federal awards, they nonetheless must be treated as direct costs for purposes of determining indirect cost rates and be allocated their share of the organization's indirect costs if they represent activities which (1) include the salaries of personnel, (2) occupy space, and (3) benefit from the organization's indirect costs.
- b. Costs should be recorded in the organization's cost records as direct or indirect costs based on their relationship to the cost objectives or activities. The costs of activities performed primarily as a service to members, clients, or the general public when significant and necessary to the organization's mission must be treated as direct costs—whether or not allowable—and be allocated an equitable share of indirect costs.

### **2. *Audit Objectives – Unallowable Direct Costs***

- a. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).
- b. Determine whether all unallowable costs categorized as direct costs are included in the allocation base for the purpose of allocating indirect costs.

### **3. *Suggested Internal Control Audit Procedures – Unallowable Direct Costs***

- a. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
- b. Plan the testing of internal control to support a low assessed level of control risk for allowable costs/cost principles and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.

- c. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

#### **4. *Suggested Compliance Audit Procedures – Unallowable Direct Costs***

- a. Determine whether all unallowable costs categorized as direct costs are included in the allocation base for the purpose of allocating indirect costs.
- b. Determine whether the following costs are charged as direct costs and allocated an equitable share of indirect costs.
  - (1) Maintenance of membership rolls, subscriptions, publications, or related functions.
  - (2) Providing services and information to members, legislative or administrative bodies, or the public.
  - (3) Meetings and conferences except those held to conduct the general administration of the organization.
  - (4) Maintenance, protection, and investment of special funds not used in operation of the organization.
  - (5) Administration of group benefits on behalf of members or clients, including life and hospital insurance, annuity or retirement plans, financial aid, etc.

### **Special Requirements – Disclosure Statements (DS-1) Required by Cost Accounting Standards**

#### **1. *Compliance Requirements – CAS and Disclosure Statements***

- a. Pub. L. No. 100-679 (41 USC 422) requires certain contractors and subcontractors (which includes NPOs) to comply with CAS and to disclose in writing and follow consistently their cost accounting practices.
- b. 48 CFR section 9903.201-1 (FAR Appendix) describes the rules for determining whether a proposed contract or subcontract is exempt from CAS. Negotiated contracts not exempt in accordance with 48 CFR section 9903.201-1(b) are subject to CAS. A CAS-covered contract may be subject to either full or modified coverage. The rules for determining whether full or modified coverage applies are in 48 CFR section 9903.201-2 (FAR Appendix).
  - (1) Full coverage requires that a business unit comply with all the CAS specified in 48 CFR part 9904 that are in effect on the date of the contract award and with any CAS that become applicable because of later award of

a CAS-covered contract. Full coverage applies to contractor business units that (a) receive a single CAS-covered contract award of \$50 million or more; or (b) receive \$50 million or more in net CAS-covered awards during their preceding cost accounting period (48 CFR section 9903.201-2(a)).

(2) *Modified Coverage* (48 CFR section 9903.201-2(b))

- (a) Modified CAS coverage requires only that the contractor comply with Standard 9904.401, Consistency in Estimating, Accumulating, and Reporting Costs; Standard 9904.402, Consistency in Allocating Costs Incurred for the Same Purpose; Standard 9904.405, Accounting for Unallowable Costs; and Standard 9904.406, Cost Accounting Standard—Cost Accounting Period. Modified, rather than full, CAS coverage may be applied to a covered contract of less than \$50 million awarded to a business unit that received less than \$50 million in net CAS-covered awards in the immediately preceding cost accounting period.
- (b) If any one contract is awarded with modified CAS coverage, all CAS-covered contracts awarded to that business unit during that cost accounting period must also have modified coverage with the following exception: if the business unit receives a single CAS-covered contract award of \$50 million or more, that contract must be subject to full CAS coverage. Thereafter, any covered contract awarded in the same cost accounting period must also be subject to full CAS coverage.
- (c) A contract awarded with modified CAS coverage shall remain subject to such coverage throughout its life regardless of changes in the business unit's CAS status during subsequent cost accounting periods.

b. 48 CFR section 9903.202 (FAR Appendix) describes the general Disclosure Statement requirements. A Disclosure Statement is a written description of a contractor's cost accounting practices and procedures. The submission of a new or revised Statement is not required for any non-CAS covered contract or from any small business concern. Completed Disclosure Statements are required under the following circumstances:

- (1) Any business unit that is selected to receive a CAS-covered contract or subcontract of \$50 million or more shall submit a Disclosure Statement before award.

- (2) Any company which, together with its segments, receive net awards of negotiated prime contracts and subcontracts subject to CAS totaling \$50 million or more in its most recent cost accounting period, must submit a Disclosure Statement before award of its first CAS-covered contract in the immediately following cost accounting period. However, if the first CAS-covered contract is received within 90 days of the start of the cost accounting period, the contractor is not required to file until the end of the 90 days.
- c. 48 CFR section 9903.201-7 (FAR Appendix) describes the cognizant Federal agency responsibilities.
  - (1) The requirements of 48 CFR part 9903 shall, to the maximum extent practicable, be administered by the cognizant Federal agency responsible for a particular contractor organization or location, usually the Federal agency responsible for negotiating indirect cost rates on behalf of the Government.
  - (2) The cognizant Federal agency should take the lead role in administering the requirements of 48 CFR part 9903 and coordinating CAS administrative actions with all affected Federal agencies. When multiple CAS-covered contracts or more than one Federal agency are involved, agencies should discourage Contracting/Grants Officers from individually administering CAS on a contract-by-contract basis. Coordinated administrative actions will provide greater assurances that individual contractors follow their cost accounting practices consistently under all their CAS-covered contracts and that changes in cost accounting practices or CAS noncompliance issues are resolved, equitably, in a uniform overall manner.

## **2. *Audit Objectives – CAS and Disclosure Statements***

- a. Determine whether the NPO's accounting practices, for direct and indirect costs, are compliant with CAS, based on its required CAS coverage (full or modified).
- b. Determine whether the NPO's Disclosure Statement (including amendments) is current, accurate, complete, and properly filed with the cognizant Federal Administrative Officer in accordance with 48 CFR section 9903.202-5.
- c. Determine whether the NPO's actual accounting practices are consistent with its disclosed practices.

## **3. *Suggested Internal Control Audit Procedures – CAS and Disclosure Statements***

- a. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.

- b. Plan the testing of internal control to support a low assessed level of control risk for allowable costs/cost principles and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
- c. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

#### **4. *Suggested Compliance Audit Procedures – CAS and Disclosure Statements***

- a. Determine whether the NPO has any CAS-covered contract or subcontracts. If so, determine which type of CAS coverage is applicable (full or modified) and if a Disclosure Statement is required to be submitted to the cognizant Federal agency.
- b. Test the NPO's actual accounting practices for direct and indirect costs are compliant with applicable CAS.
- c. If a Disclosure Statement is required, obtain a copy and any amendments. Review these to ensure the disclosures are current, accurate, compliant with CAS, and approved by the cognizant Federal agency.
- d. Test whether the NPO's actual accounting practices are consistent with the disclosed practices.

### **Allowable Costs – Special Requirements – Internal Service, Central Service, Pension, or Similar Activities or Funds**

#### **1. *Compliance Requirement***

NPOs using internal service, central service, pension, or similar activities or funds must follow the applicable cost principles found in A-122.

#### **2. *Audit Objectives***

Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c). Determine whether charges are made from internal service, central service, pension, or similar activities or funds, are in accordance with A-122.

### **3. *Suggested Internal Control Audit Procedures***

- a. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
- b. Plan the testing of internal control to support a low assessed level of control risk for allowable costs/cost principles and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
- c. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

### **4. *Suggested Compliance Audit Procedures***

Perform the following procedures as applicable:

- a. For activities accounted for in separate funds, ascertain that (1) retained earnings/fund balances (including reserves) were computed in accordance with the applicable cost principles; (2) working capital reserves were not excessive in amount (generally not greater than 60 days for cash expenses for normal operations incurred for the period exclusive of depreciation, capital costs, and debt principal costs); and (3) refunds were made to the Federal Government for its share of any amounts transferred or borrowed from internal service, central service, pension, insurance, or other similar activities or funds for purposes other than to meet the operating liabilities, including interest on debt, of the fund.
- b. Test that all users of services are billed in a consistent manner.
- c. Test that billing rates exclude unallowable costs in accordance with A-122.
- d. Test, where activities are not accounted for in separate funds, that billing rates (or charges) are developed based on actual costs and were adjusted to eliminate profits.
- e. For organizations that have self-insurance and a certain type of fringe benefit programs (e.g., pension funds), ascertain if independent actuarial studies appropriate for such activities are performed at least biennially and that current period costs were allocated based on an appropriate study which is not over 2 years old.

## C. CASH MANAGEMENT

### Compliance Requirements

When entities are funded on a reimbursement basis, program costs must be paid for by entity funds before reimbursement is requested from the Federal Government. When funds are advanced, recipients must follow procedures to minimize the time elapsing between the transfer of funds from the U.S. Treasury and disbursement.

When advance payment procedures are used, recipients must establish similar procedures for subrecipients. Pass-through entities must establish reasonable procedures to ensure receipt of reports on subrecipients' cash balances and cash disbursements in sufficient time to enable the pass-through entities to submit complete and accurate cash transactions reports to the Federal awarding agency or pass-through entity. Pass-through entities must monitor cash drawdowns by their subrecipients to ensure that subrecipients conform substantially to the same standards of timing and amount as apply to the pass-through entity.

U. S. Department of the Treasury (Treasury) regulations at 31 CFR part 205, which implement the Cash Management Improvement Act of 1990 (CMIA), as amended (Pub. L. No. 101-453; 31 USC 6501 *et seq.*), require State recipients to enter into agreements that prescribe specific methods of drawing down Federal funds (funding techniques) for selected large programs. The agreements also specify the terms and conditions in which an interest liability would be incurred. Programs not covered by a Treasury-State Agreement are subject to procedures prescribed by Treasury in Subpart B of 31 CFR part 205 (Subpart B).

Except for interest earned on advances of funds exempt under the Intergovernmental Cooperation Act (31 USC 6501 *et seq.*) and the Indian Self-Determination Act (23 USC 450), interest earned by local government and Indian tribal government grantees and subgrantees on advances is required to be submitted promptly, but at least quarterly, to the Federal agency. Up to \$100 per year may be kept for administrative expenses. Interest earned by non-State non-profit entities on Federal fund balances in excess of \$250 is required to be remitted to Department of Health and Human Services, Payment Management System, P.O. Box 6021, Rockville, MD 20852.

### Source of Governing Requirements

The requirements for cash management are contained in the A-102 Common Rule (§\_\_\_\_.21), OMB Circular A-110 (2 CFR section 215.22), Treasury regulations at 31 CFR part 205, program legislation, Federal awarding agency regulations, and the terms and conditions of the award.

### Availability of Other Information

Treasury's Financial Management Service maintains a Cash Management Improvement Act web page (<http://www.fms.treas.gov/cmia/>).

**Audit Objectives**

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).
2. Determine whether for advance payments the recipient/subrecipient followed procedures to minimize the time elapsing between the transfer of funds from the U.S. Treasury, or pass-through entity, and their disbursement.
3. Determine whether States have complied with the terms and conditions of the Treasury-State Agreement or Subpart B procedures prescribed by Treasury.
4. Determine whether the pass-through entity implemented procedures to ensure that advance payments to subrecipients conformed substantially to the same timing requirements that apply to the pass-through entity.
5. Determine whether interest earned on advances was reported/remitted as required.
6. Determine whether an entity has awards funded on a reimbursement payment basis, as well as awards funded through advance payments. For such entities, determine whether program costs are paid for with entity funds before reimbursement is requested from the Federal Government.

**Suggested Audit Procedures – Internal Control**

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for cash management and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

**Suggested Audit Procedures – Compliance**

Note: The following procedures are intended to be applied to each program determined to be major. However, due to the nature of cash management and the system of cash management in place in a particular entity, it may be appropriate and more efficient to perform these procedures for all programs collectively rather than separately for each program.

*States*

1. For programs tested as major, verify which of those programs are covered by the Treasury-State Agreement in accordance with the materiality thresholds in 31 CFR section 205.5, Table A.
2. For those programs identified in procedure 1, determine the funding techniques used for those programs. For those funding techniques that require clearance patterns to schedule the transfer of funds to the State, review documentation supporting the clearance pattern and verify that the clearance pattern conforms to the requirements for developing and maintaining clearance patterns as specified in the Treasury-State Agreement (31 CFR sections 205.12, 205.20, and 205.22).
3. Select a sample of Federal cash draws and verify that:
  - a. The timing of the Federal cash draws was in compliance with the applicable funding techniques specified in the Treasury-State Agreement or Subpart B procedures, whichever is applicable (31 CFR sections 205.11 and 205.33).
  - b. To the extent available, program income, rebates, refunds, and other income and receipts were disbursed before requesting additional Federal cash draws as required by the A-102 Common Rule (§\_\_\_\_.21) and OMB Circular A-110 (2 CFR section 215.22).
4. Where applicable, select a sample of reimbursement requests and trace to supporting documentation showing that the costs for which reimbursement was requested were paid prior to the date of the reimbursement request (31 CFR section 205.12(b)(5)).
5. Review the calculation of the interest obligation owed to or by the Federal Government, reported on the annual report submitted by the State to ascertain that the calculation was in accordance with Treasury regulations and the terms of the Treasury-State Agreement. Trace amounts used in the calculation to supporting documentation.
6. For those programs where Federal cash draws are passed through to subrecipients:
  - a. Select a representative sample of subrecipients and ascertain the procedures implemented to ensure that subrecipients minimize the time elapsing between the transfer of Federal funds from the recipient and the disbursement of funds for program purposes (A-102 Common Rule §\_\_\_\_.37(a)(4)).
  - b. Select a representative sample of Federal cash draws by subrecipients and ascertain that they conformed to the procedures.

*Recipients Other than States and Subrecipients*

1. For those programs that received advances of Federal funds, ascertain the procedures established with the Federal agency or pass-through entity to minimize the time between the transfer of Federal funds and the disbursement of funds for program purposes.
2. Select a sample of Federal cash draws and verify that:
  - a. Established procedures to minimize the time elapsing between drawdown and disbursement were followed.
  - b. To the extent available, program income, rebates, refunds, and other income and receipts were disbursed before requesting additional cash payments as required by the A-102 Common Rule (§\_\_\_.21) and OMB Circular A-110 (2 CFR section 215.22).
3. When awards are funded on a reimbursement basis, select a sample of reimbursement requests and trace to supporting documentation showing that the costs for which reimbursement was requested were paid prior to the date of the reimbursement request.
4. Review records to determine if interest was earned on Federal cash draws. If so, review evidence to ascertain whether it was returned to the appropriate agency.

## D. DAVIS-BACON ACT

### Compliance Requirements

When required by the Davis-Bacon Act, the Department of Labor's (DOL) governmentwide implementation of the Davis-Bacon Act, **ARRA**, or by Federal program legislation, all laborers and mechanics employed by contractors or subcontractors to work on construction contracts in excess of \$2000 financed by Federal assistance funds must be paid wages not less than those established for the locality of the project (prevailing wage rates) by the DOL (40 USC 3141-3144, 3146, and 3147 (formerly 40 USC 276a to 276a-7)).

Non-federal entities shall include in their construction contracts subject to the Davis-Bacon Act a requirement that the contractor or subcontractor comply with the requirements of the Davis-Bacon Act and the DOL regulations (29 CFR part 5, Labor Standards Provisions Applicable to Contracts Governing Federally Financed and Assisted Construction). This includes a requirement for the contractor or subcontractor to submit to the non-Federal entity weekly, for each week in which any contract work is performed, a copy of the payroll and a statement of compliance (certified payrolls) (29 CFR sections 5.5 and 5.6). This reporting is often done using Optional Form WH-347, which includes the required statement of compliance (*OMB No. 1215-0149*).

### Source of Governing Requirements

**ARRA-funded awards that involve construction, alteration, maintenance or repair are subject to the requirements of the Davis-Bacon Act; however, the auditor should review the program supplement in Part 4 to determine if any qualifications or other conditions related to the Davis-Bacon Act have been imposed by other statutes.** The requirements for Davis-Bacon are contained in 40 USC 3141-3144, 3146, and 3147; 29 CFR part 29; the A-102 Common Rule (§\_\_\_\_.36(i)(5)); OMB Circular A-110 (2 CFR part 215, Appendix A, Contract Provisions); program legislation; **Section 1606 of ARRA and OMB guidance at 2 CFR part 176, subpart C**; Federal awarding agency regulations; and the terms and conditions of the award (**including that imposed by ARRA** or other statutes).

### Availability of Other Information

The U.S. Department of Labor, Employment Standards Administration, maintains a Davis-Bacon and Related Acts web page (<http://www.dol.gov/whd/contracts/dbra.htm>). Optional Form WH-347 and instructions are available on this web page.

### Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_\_.500(c).
2. Determine whether the non-Federal entity notified contractors and subcontractors of the requirements to comply with the Davis-Bacon Act and obtained copies of certified payrolls.

**Suggested Audit Procedures – Internal Control**

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for Davis-Bacon Act and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

**Suggested Audit Procedures – Compliance**

1. Select a sample of construction contracts and subcontracts greater than \$2000 that are covered by the Davis-Bacon Act and perform the following procedures:
  - a. Verify that the required prevailing wage rate clauses were included.
  - b. Verify that the contractor or subcontractor submitted weekly the required certified payrolls.

(Note: Auditors are not expected to determine whether prevailing wage rates were paid.)

## **E. ELIGIBILITY**

### **Compliance Requirements**

The specific requirements for eligibility are unique to each Federal program and are found in the laws, regulations, and the provisions of contract or grant agreements pertaining to the program. For programs listed in the Compliance Supplement, these specific requirements are in Part 4 – Agency Program Requirements or Part 5 – Clusters of Programs, as applicable. This compliance requirement specifies the criteria for determining the individuals, groups of individuals (including area of service delivery), or subrecipients that can participate in the program and the amounts for which they qualify.

### **Source of Governing Requirements**

The requirements for eligibility are contained in program legislation, Federal awarding agency regulations, and the terms and conditions of the award.

### **Audit Objectives**

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).
2. Determine whether required eligibility determinations were made, (including obtaining any required documentation/verifications), that individual program participants or groups of participants (including area of service delivery) were determined to be eligible, and that only eligible individuals or groups of individuals participated in the program.
3. Determine whether subawards were made only to eligible subrecipients.
4. Determine whether amounts provided to or on behalf of eligible participants or groups of participants were calculated in accordance with program requirements.

### **Suggested Audit Procedures – Internal Control**

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for eligibility and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

## Suggested Audit Procedures – Compliance

### 1. *Eligibility for Individuals*

- a. For some Federal programs with a large number of people receiving benefits, the non-Federal entity may use a computer system for processing individual eligibility determinations and delivery of benefits. Often these computer systems are complex and will be separate from the non-Federal entity's regular financial accounting system. Typical functions a computer system for eligibility may perform are:
- Perform calculations to assist in determining who is eligible and the amount of benefits
  - Pay benefits (e.g., write checks)
  - Maintain eligibility records, including information about each individual and benefits paid to or on behalf of the individual (regular payments, refunds, and adjustments)
  - Track the period of time during which an individual is eligible to receive benefits, i.e., from the beginning date of eligibility through the date when those benefits stop, generally at the end of a predetermined period, unless there is a redetermination of eligibility
  - Perform matches with other computer databases to verify eligibility (e.g., matches to verify earnings or identify individuals who are deceased)
  - Control who is authorized to approve benefits for eligibles (e.g., an employee may be approving benefits on-line and this process may be controlled by passwords or other access controls)
  - Produce exception reports indicating likely errors that need follow-up (e.g., when benefits exceed a certain amount, would not be appropriate for a particular classification of individuals, or are paid more frequently than normal)

Because of the diversity of computer systems, both hardware and software, it is not practical for this Supplement to provide suggested audit procedures to address each system. However, generally accepted auditing standards provide guidance for the auditor when computer processing relates to accounting information that can materially affect the financial statements being audited. Similarly, when eligibility is material to a major program, and a computer system is integral to eligibility compliance, the auditor should follow this guidance and consider the non-Federal entity's computer processing. The auditor should perform audit procedures relative to the computer system for eligibility as necessary to support the opinion on compliance for the major program. Due to the nature and controls

of computer systems, the auditor may choose to perform these tests of the computer systems as part of testing the internal controls for eligibility.

b. *Split Eligibility Determination Functions*

(1) *Background* – Some non-Federal entities pay the Federal benefits to the eligible participants but arrange with another entity to perform part or all of the eligibility determination. For example, a State arranges with local government social services agencies to perform the “intake function” (e.g., the meeting with the social services client to determine income and categorical eligibility) while the State maintains the computer systems supporting the eligibility determination process and actually pays the benefits to the participants. In such cases, the State is fully responsible for Federal compliance for the eligibility determination, as the benefits are paid by the State. Moreover, the State shows the benefits paid as Federal awards expended on the State’s Schedule of Expenditures of Federal Awards. Therefore, the auditor of the State is responsible for meeting the internal control and compliance audit objectives for eligibility. This may require the auditor of the State to perform, coordinate, or arrange for additional procedures to ensure compliant eligibility determinations when another entity performs part of the eligibility determination functions. The responsibility of the auditor of the State for auditing eligibility does not relieve the auditor of the other entity (e.g., local government) from responsibility for meeting those internal control and compliance audit objectives for eligibility that apply to the other entity’s responsibilities. An exception occurs when the auditor of the other entity confirms with the auditor of the State that certain procedures are not necessary.

(2) Ensure that eligibility testing includes all benefit payments regardless of whether another entity, by arrangement, performs part of the eligibility determination functions.

c. Perform procedures to ascertain if the non-Federal entity’s records/database includes all individuals receiving benefits during the audit period (e.g., that the population of individuals receiving benefits is complete).

d. Select a sample of individuals receiving benefits and perform tests to ascertain if

(1) The required eligibility determinations and redeterminations, (including obtaining any required documentation/verifications) were performed and the individual was determined to be eligible in accordance with the compliance requirements of the program. (Note that some programs have both initial and continuing eligibility requirements and the auditor should design and perform appropriate tests for both. Also, some programs require periodic redeterminations of eligibility, which should also be tested.)

- (2) Benefits paid to or on behalf of the individuals were calculated correctly and in compliance with the requirements of the program.
  - (3) Benefits were discontinued when the period of eligibility expired.
- e. In some programs, the non-Federal entity is required to use a quality control process to obtain assurances about eligibility. Review the quality control process and perform tests to ascertain if it is operating to effectively meet the objectives of the process and in compliance with applicable program requirements.

2. *Eligibility for Group of Individuals or Area of Service Delivery*

- a. In some cases, the non-Federal entity may be required to perform procedures to determine whether a population or area of service delivery is eligible. Test information used in determining eligibility and ascertain if the population or area of service delivery was eligible.
- b. Perform tests to ascertain if:
  - (1) The population or area served was eligible.
  - (2) The benefits paid to or on behalf of the individuals or area of service delivery were calculated correctly.

3. *Eligibility for Subrecipients*

- a. If the determination of eligibility is based upon an approved application or plan, obtain a copy of this document and identify the applicable eligibility requirements.
- b. Select a sample of the awards to subrecipients and perform procedures to verify that the subrecipients were eligible and amounts awarded were within funding limits.

## F. EQUIPMENT AND REAL PROPERTY MANAGEMENT

### Compliance Requirements

#### *Equipment Management*

Title to equipment acquired by a non-Federal entity with Federal awards vests with the non-Federal entity. Equipment means tangible nonexpendable property, including exempt property, charged directly to the award having a useful life of more than one year and an acquisition cost of \$5000 or more per unit. However, consistent with a non-Federal entity's policy, lower limits may be established.

A State shall use, manage, and dispose of equipment acquired under a Federal grant in accordance with State laws and procedures. Subrecipients of States who are local governments or Indian tribes shall use State laws and procedures for equipment acquired under a subgrant from a State.

Local governments and Indian tribes shall follow the A-102 Common Rule for equipment acquired under Federal awards received directly from a Federal awarding agency. Institutions of higher education, hospitals, and other non-profit organizations shall follow the provisions of OMB Circular A-110. Basically, the A-102 Common Rule and OMB Circular A-110 require that equipment be used in the program for which it was acquired or, when appropriate, other Federal programs. Equipment records shall be maintained, a physical inventory of equipment shall be taken at least once every 2 years and reconciled to the equipment records, an appropriate control system shall be used to safeguard equipment, and equipment shall be adequately maintained. When equipment with a current per unit fair market value of \$5000 or more is no longer needed for a Federal program, it may be retained or sold with the Federal agency having a right to a proportionate (percent of Federal participation in the cost of the original project) amount of the current fair market value. Proper sales procedures shall be used that provide for competition to the extent practicable and result in the highest possible return.

#### **Source of Governing Requirements – Equipment**

The requirements for equipment are contained in the A-102 Common Rule (§\_\_\_\_.32), OMB Circular A-110 (2 CFR section 215.34), program legislation, Federal awarding agency regulations, and the terms and conditions of the award.

#### *Real Property Management*

Title to real property acquired by non-Federal entities with Federal awards vests with the non-Federal entity. Real property shall be used for the originally authorized purpose as long as needed for that purpose. For non-Federal entities covered by OMB Circular A-110 and with written approval from the Federal awarding agency, the real property may be used in other federally sponsored projects or programs that have purposes consistent with those authorized for support by the Federal awarding agency. The non-Federal entity may not dispose of or encumber the title to real property without the prior consent of the awarding agency.

When real property is no longer needed for federally supported programs or projects, the non-Federal entity shall request disposition instructions. For purposes of this compliance requirement, the recipient makes the request to the Federal awarding agency. Subrecipients make requests through the recipient (pass-through entity) and do not make requests directly to the Federal awarding agency. The pass-through recipient is required to comply (ensure compliance) with the direction of the Federal awarding agency and the terms and conditions of its award. When real property is sold, sales procedures should provide for competition to the extent practicable and result in the highest possible return. If sold, non-Federal entities are normally required to remit to the awarding agency the Federal portion (based on the Federal participation in the project) of net sales proceeds. If the property is retained, the non-Federal entity shall normally compensate the awarding agency for the Federal portion of the current fair market value of the property. Disposition instructions may also provide for transfer of title in which case, the non-Federal entity is entitled to compensation for its percentage share of the current fair market value.

### **Source of Governing Requirements – Real Property**

The requirements for real property are contained in the A-102 Common Rule (§\_\_\_\_.31), OMB Circular A-110 (2 CFR section 215.32), program legislation, Federal awarding agency regulations, and the terms and conditions of the award.

### **Audit Objectives**

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_\_.500(c).
2. Determine whether the non-Federal entity maintains proper records for equipment and adequately safeguards and maintains equipment.
3. Determine whether disposition or encumbrance of any equipment or real property acquired under Federal awards is in accordance with Federal requirements and that the awarding agency was compensated for its share of any property sold or converted to non-Federal use.

### **Suggested Audit Procedures – Internal Control**

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for equipment and real property management and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.

3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

### **Suggested Audit Procedures – Compliance**

*(Procedure 1 only applies to subrecipients of States that are local governments or Indian tribal governments. Procedure 2 only applies to States and to subrecipients of States that are local governments or Indian tribal governments.)*

1. Obtain entity's policies and procedures for equipment management and ascertain if they comply with the State's policies and procedures.
2. Select a sample of equipment transactions and test for compliance with the State's policies and procedures for management and disposition of equipment.

*(Procedures 3-4 only apply to institutions of higher education, hospitals, and other non-profit organizations, and Federal awards received directly from a Federal awarding agency by a local government or an Indian tribal government.)*

#### 3. *Inventory Management of Equipment*

- a. Inquire if a required physical inventory of equipment acquired under Federal awards was taken within the last 2 years. Test whether any differences between the physical inventory and equipment records were resolved.
- b. Identify equipment acquired under Federal awards and trace selected purchases to the property records. Verify that the property records contain the following information about the equipment: description (including serial number or other identification number), source, who holds title, acquisition date and cost, percentage of Federal participation in the cost, location, condition, and any ultimate disposition data including, the date of disposal and sales price or method used to determine current fair market value.
- c. Select a sample from all equipment identified as acquired under Federal awards from the property records and physically inspect the equipment, including whether the equipment is appropriately safeguarded and maintained.

#### 4. *Disposition of Equipment*

- a. Determine the amount of equipment dispositions for the audit period and perform procedures to verify that dispositions were properly classified between equipment acquired under Federal awards and equipment otherwise acquired.
- b. For dispositions of equipment acquired under Federal awards, perform procedures to verify that the dispositions were properly reflected in the property records.

- c. For dispositions of equipment acquired under Federal awards with a current per-unit fair market value of \$5000 or more, test whether the awarding agency was reimbursed for the appropriate Federal share.

*(Procedure 5 applies to States, local governments, Indian tribal governments and non-profit organizations regardless of whether funding is received as a recipient or subrecipient.)*

5. *Disposition of Real Property*

- a. Determine real property dispositions for the audit period and ascertain such real property acquired under Federal awards.
- b. For dispositions of real property acquired under Federal awards, perform procedures to verify that the non-Federal entity followed the instructions of the awarding agency, which will normally require reimbursement to the awarding agency for the Federal portion of net sales proceeds or fair market value at the time of disposition, as applicable.

## G. MATCHING, LEVEL OF EFFORT, EARMARKING

### Compliance Requirements

The specific requirements for matching, level of effort, and earmarking are unique to each Federal program and are found in the laws, regulations, and the provisions of contract or grant agreements pertaining to the program. For programs listed in this Supplement, these specific requirements are in Part 4 – Agency Program Requirements or Part 5 – Clusters of Programs, as applicable.

However, for matching, the A-102 Common Rule (§\_\_\_\_.24) and OMB Circular A-110 (2 CFR section 215.23) provide detailed criteria for acceptable costs and contributions. The following is a list of the basic criteria for acceptable matching:

- Are verifiable from the non-Federal entity's records.
- Are not included as contributions for any other federally assisted project or program, unless specifically allowed by Federal program laws and regulations.
- Are necessary and reasonable for proper and efficient accomplishment of project or program objectives.
- Are allowed under the applicable cost principles.
- Are not paid by the Federal Government under another award, except where authorized by Federal statute to be allowable for cost sharing or matching.
- Are provided for in the approved budget when required by the Federal awarding agency.
- Conform to other applicable provisions of the A-102 Common Rule and OMB Circular A-110 and the laws, regulations, and provisions of contract or grant agreements applicable to the program.

Matching, level of effort, and earmarking are defined as follows:

1. *Matching* or cost sharing includes requirements to provide contributions (usually non-Federal) of a specified amount or percentage to match Federal awards. Matching may be in the form of allowable costs incurred or in-kind contributions (including third-party in-kind contributions).
2. *Level of effort* includes requirements for (a) a specified level of service to be provided from period to period, (b) a specified level of expenditures from non-Federal or Federal sources for specified activities to be maintained from period to period, and (c) Federal funds to supplement and not supplant non-Federal funding of services.

3. *Earmarking* includes requirements that specify the minimum and/or maximum amount or percentage of the program's funding that must/may be used for specified activities, including funds provided to subrecipients. Earmarking may also be specified in relation to the types of participants covered.

### **Source of Governing Requirements**

The requirements for matching are contained in the A-102 Common Rule (§\_\_\_\_.24), OMB Circular A-110 (2 CFR section 215.23), program legislation, Federal awarding agency regulations, and the terms and conditions of the award. The requirements for level of effort and earmarking are contained in program legislation, Federal awarding agency regulations, and the terms and conditions of the award.

### **Audit Objectives**

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_\_.500(c).
2. *Matching* – Determine whether the minimum amount or percentage of contributions or matching funds was provided.
3. *Level of Effort* – Determine whether specified service or expenditure levels were maintained.
4. *Earmarking* – Determine whether minimum or maximum limits for specified purposes or types of participants were met.

### **Suggested Audit Procedures – Internal Control**

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for matching, level of effort, earmarking and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

## Suggested Audit Procedures – Compliance

### 1. Matching

- a. Perform tests to verify that the required matching contributions were met.
- b. Ascertain the sources of matching contributions and perform tests to verify that they were from an allowable source.
- c. Test records to corroborate that the values placed on in-kind contributions (including third party in-kind contributions) are in accordance with the OMB cost principles circulars, the A-102 Common Rule, OMB Circular A-110, program regulations, and the terms of the award.
- d. Test transactions used to match for compliance with the allowable costs/cost principles requirement. This test may be performed in conjunction with the testing of the requirements related to allowable costs/cost principles.

### 2.1 Level of Effort – *Maintenance of Effort*

- a. Identify the required level of effort and perform tests to verify that the level of effort requirement was met.
- b. Perform test to verify that only allowable categories of expenditures or other effort indicators (e.g., hours, number of people served) were included in the computation and that the categories were consistent from year to year. For example, in some programs, capital expenditures may not be included in the computation.
- c. Perform procedures to verify that the amounts used in the computation were derived from the books and records from which the audited financial statements were prepared.
- d. Perform procedures to verify that non-monetary effort indicators were supported by official records.

### 2.2 Level of Effort – *Supplement Not Supplant*

- a. Ascertain if the entity used Federal funds to provide services which they were required to make available under Federal, State, or local law and were also made available by funds subject to a supplement not supplant requirement.
- b. Ascertain if the entity used Federal funds to provide services which were provided with non-Federal funds in the prior year.
  - (1) Identify the federally funded services.

- (2) Perform procedures to determine whether the Federal program funded services that were previously provided with non-Federal funds.
- (3) Perform procedures to ascertain if the total level of services applicable to the requirement increased in proportion to the level of Federal contribution.

### 3. **Earmarking**

- a. Identify the applicable percentage or dollar requirements for earmarking.
- b. Perform procedures to verify that the amounts recorded in the financial records met the requirements (e.g., when a minimum amount is required to be spent for a specified type of service, perform procedures to verify that the financial records show that at least the minimum amount for this type of service was charged to the program; or, when the amount spent on a specified type of service may not exceed a maximum amount, perform procedures to verify that the financial records show no more than this maximum amount for the specified type of service was charged to the program).
- c. When earmarking requirements specify a minimum percentage or amount, select a sample of transactions supporting the specified amount or percentage and perform tests to verify proper classification to meet the minimum percentage or amount.
- d. When the earmarking requirements specify a maximum percentage or amount, review the financial records to identify transactions for the specified activity which were improperly classified in another account (e.g., if only 10 percent may be spent for administrative costs, review accounts for other than administrative costs to identify administrative costs which were improperly classified elsewhere and cause the maximum percentage or amount to be exceeded).
- e. When earmarking requirements prescribe the minimum number or percentage of specified types of participants that can be served, select a sample of participants that are counted toward meeting the minimum requirement and perform tests to verify that they were properly classified.
- f. When earmarking requirements prescribe the maximum number or percentage of specified types of participants that can be served, select a sample of other participants and perform tests to verify that they were not of the specified type.

## H. PERIOD OF AVAILABILITY OF FEDERAL FUNDS

### Compliance Requirements

Federal awards may specify a time period during which the non-Federal entity may use the Federal funds. Where a funding period is specified, a non-Federal entity may charge to the award only costs resulting from obligations incurred during the funding period and any pre-award costs authorized by the Federal awarding agency. Also, if authorized by the Federal program, unobligated balances may be carried over and charged for obligations of a subsequent funding period. Obligations means the amounts of orders placed, contracts and subgrants awarded, goods and services received, and similar transactions during a given period that will require payment by the non-Federal entity during the same or a future period (A-102 Common Rule, §\_\_\_\_.23; OMB Circular A-110 (2 CFR section 215.28)).

Non-Federal entities shall liquidate all obligations incurred under the award not later than 90 days after the end of the funding period (or as specified in a program regulation). The Federal agency may extend this deadline upon request (A-102 Common Rule, §\_\_\_\_.23; OMB Circular A-110 (2 CFR section 215.71)).

An example used by a program to determine when an obligation occurs (is made) is found under Part 4, Department of Education, CFDA 84.000 (Cross-Cutting Section).

### Source of Governing Requirements

The requirements for period of availability of Federal funds are contained in the A-102 Common Rule (§\_\_\_\_.23), OMB Circular A-110 (2 CFR sections 215.28 and 215.71), program legislation (**including ARRA, as applicable**), Federal awarding agency regulations, and the terms and conditions of the award.

### Audit Objective

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_\_.500(c).
2. Determine whether Federal funds were obligated within the period of availability and obligations were liquidated within the required time period.

### Suggested Audit Procedures – Internal Control

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for period of availability of Federal funds and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_\_.500(c)(3) of OMB Circular A-133,

including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.

3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

### **Suggested Audit Procedures – Compliance**

1. Review the award documents and regulations pertaining to the program and determine any award-specific requirements related to the period of availability and document the availability period.
2. Test transactions charged to the Federal award after the end of the period of availability to verify that the—
  - a. underlying obligations occurred within the period of availability, and
  - b. liquidation (payment) was made within the allowed time period.
3. Test transactions that were recorded during the period of availability and verify that the underlying obligations occurred within the period of availability.
4. Test adjustments (i.e., manual journal entries) to the Federal funds and verify that these adjustments were for transactions that occurred during the period of availability.

As long as the auditor obtains sufficient, appropriate evidence to meet the period of availability audit objectives, the auditor may test period of availability using the same test items used to test other types of compliance requirements (e.g., activities allowed or unallowed or allowable costs/cost principles). However, if this approach is used, the auditor should exercise care in designing the sample to ensure that sample items are suitable for testing the stated objectives of compliance requirements covered by the sample.

## I. PROCUREMENT AND SUSPENSION AND DEBARMENT

### Compliance Requirements

#### *Procurement*

States, and governmental subrecipients of States, will use the same State policies and procedures used for procurements from non-Federal funds. They also must ensure that every purchase order or other contract includes any clauses required by Federal statutes and executive orders and their implementing regulations.

Local governments and Indian tribal governments that are direct recipients of Federal awards and their subrecipients will use procurement procedures that conform to applicable Federal law and regulations and standards identified in the A-102 Common Rule or OMB Circular A-110 (2 CFR part 215), as applicable.

Institutions of higher education, hospitals, and other non-profit organizations will use procurement procedures that conform to applicable Federal law and regulations and standards identified in OMB Circular A-110 (2 CFR part 215). Their subrecipients will use procurement procedures that conform to applicable Federal law and regulations and standards identified in OMB Circular A-110 (2 CFR part 215) or the A-102 common rule, as applicable.

All non-Federal entities shall follow Federal laws and implementing regulations applicable to procurements, as noted in Federal agency implementation of the A-102 Common Rule and OMB Circular A-110.

**In addition to those statutes applicable to procurement listed in the A-102 Common Rule and OMB Circular A-110, Section 1605 of ARRA prohibits the use of ARRA funds for a project for the construction, alteration, maintenance, or repair of a public building or work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States. This results in making the Buy-American Act apply to these ARRA awards. ARRA provides for waiver of these requirements under specified circumstances. An award term is required in all ARRA-funded awards for construction, alteration, maintenance, or repair of a public building or public work (2 CFR section 176.140). Further information about this requirement, including applicable definitions, is found in 2 CFR part 176, subpart B. 2 CFR part 176, including the award term, was amended effective March 25, 2010 [75 FR 14323] to reflect changes regarding international agreements. These changes include (1) beginning January 1, 2010, raising the threshold that applies to international agreements from \$7,430,000 to \$7,804,000 and (2) recognizing agreements or signatories to agreements subsequent to the original publication of 2 CFR part 176.**

**With respect to international agreements (see 2 CFR section 176.90), the Buy-American requirement set out in 2 CFR section 176.70 may not be applied where the iron, steel or manufactured goods used in the project are from a Party to an international agreement (see the Appendix to Subpart B of 2 CFR part 176-- U.S. States, Other Sub-Federal Entities, and Other Entities Subject to U.S. Obligations under International Agreements,**

**for covered recipients (subrecipients), Parties, and exclusions). In these cases, under an international agreement described in the Appendix to Subpart B of 2 CFR part 176, a recipient (subrecipient) is required to treat the goods and services of the applicable Party in the same manner as domestic goods and services. This obligation applies to projects with an estimated value in excess of the current threshold and projects that are not specifically excluded from the application of those agreements. If a recipient (subrecipient) is not covered by an international agreement, the only possible exceptions to the Buy-American requirements are those specified in 2 CFR section 176.80.**

### **Source of Governing Requirements - Procurement**

The requirements for procurement are contained in the A-102 Common Rule (§\_\_\_\_.36); OMB Circular A-110 (2 CFR sections 215.40 through 215.48); program legislation; **Section 1605 of ARRA; 2 CFR part 176**; Federal awarding agency regulations; and the terms and conditions of the award (**including those required by ARRA**). The specific references for the A-102 Common Rule and OMB Circular A-110, respectively, are given for each suggested audit procedure indicated below. (The first number listed refers to the A-102 Common Rule and the second refers to A-110.)

#### *Suspension and Debarment*

Non-Federal entities are prohibited from contracting with or making subawards under covered transactions to parties that are suspended or debarred or whose principals are suspended or debarred. “Covered transactions” include those procurement contracts for goods and services awarded under a nonprocurement transaction (e.g., grant or cooperative agreement) that are expected to equal or exceed \$25,000 or meet certain other criteria as specified in 2 CFR section 180.220. All nonprocurement transactions entered into by a recipient (i.e., subawards to subrecipients), irrespective of award amount, are considered covered transactions, unless they are exempt as provided in 2 CFR section 180.215.

When a non-federal entity enters into a covered transaction with an entity at a lower tier, the non-federal entity must verify that the entity and its principals, as defined in 2 CFR section 180.995 and agency adopting regulations, are not suspended or debarred or otherwise excluded from participating in the transaction. This verification may be accomplished by (1) checking the *Excluded Parties List System (EPLS)* maintained by the General Services Administration (GSA) (Note: EPLS is no longer a separate system; however, the OMB guidance and agency implementing regulations still refer to it as EPLS) and available at <https://www.sam.gov/portal/public/SAM/>), (2) collecting a certification from the entity, or (3) adding a clause or condition to the covered transaction with that entity (2 CFR section 180.300).

Non-profit entities receiving contracts from the Federal Government are required to comply with the contract clause at Federal Acquisition Regulation (FAR) 52.209-6 before entering into a subcontract that will exceed \$30,000, other than a subcontract for a commercially available off-the-shelf item.

## Source of Governing Requirements – Suspension and Debarment

The requirements for nonprocurement suspension and debarment are contained OMB guidance in 2 CFR part 180, which implements Executive Orders 12549 and 12689, Debarment and Suspension; Federal agency regulations in 2 CFR adopting the OMB guidance; the A-102 Common Rule (§\_\_\_\_.36); OMB Circular A-110 (2 CFR section 215.13); program legislation; Federal awarding agency regulations; and the terms and conditions of the award. Most of the Federal agencies have adopted 2 CFR part 180 and relocated their associated agency rules in Title 2 of the CFR. For any agency that has not completed its adoption of 2 CFR part 180, pending completion of that adoption, agency implementations of the common rule (issued November 26, 2003) remain in effect. Appendix II includes the current CFR citations for all agencies. In either case, the applicable requirements are specified in the terms and conditions of award.

Governmentwide requirements related to suspension and debarment and doing business with suspended or debarred subcontractors under direct Federal procurement awards are contained in FAR 9.405-2(b) and the clause at FAR 52.209-6, and pertain to non-profit entities receiving Federal contracts.

### Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_\_.500(c).
2. Determine whether procurements were made in compliance with the provisions of the A-102 Common Rule, OMB Circular A-110, and other procurement requirements specific to an award.
3. **Determine whether an award that provides ARRA funding for construction, alteration, maintenance, or repair of a public building or public work includes a Buy-American award term. If so, determine whether (a) the recipient or subrecipient is covered by an international agreement and the scope of that agreement or (b) the recipient has requested and been granted an exception.**
4. For covered transactions determine whether the non-Federal entity verified that entities are not suspended, debarred, or otherwise excluded.

### Suggested Audit Procedures – Internal Control

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for procurement and suspension and debarment and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_\_.500(c)(3) of OMB Circular A-133,

including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.

3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

### **Suggested Audit Procedures – Compliance**

*(Procedures 1 - 4 apply only to institutions of higher education, hospitals, and other non-profit organizations; and Federal awards received directly from a Federal awarding agency by a local government or an Indian tribal government.)*

1. Obtain the entity's procurement policies. Verify that the policies comply with applicable Federal requirements (§\_\_\_\_.36(b)(1) and 2 CFR section 215.43, **and Section 1605 of ARRA**).
2. Ascertain if the entity has a policy to use statutorily or administratively imposed in-State or local geographical preferences in the evaluation of bids or proposals. If yes, verify that these limitations were not applied to federally funded procurements except where applicable Federal statutes expressly mandate or encourage geographic preference (§\_\_\_\_.36(c)(2) and 2 CFR section 215.43).
3. Examine procurement policies and procedures and verify the following:
  - a. Written selection procedures require that solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured, identify all requirements that the offerors must fulfill, and include all other factors to be used in evaluating bids or proposals (§\_\_\_\_.36(c)(3) and 2 CFR section 215.44(a)(3)).
  - b. There is a written policy pertaining to ethical conduct (§\_\_\_\_.36(b)(3) and 2 CFR section 215.42).
4. Select a sample of procurements and perform the following:
  - a. Examine contract files and verify that they document the significant history of the procurement, including the rationale for the method of procurement, selection of contract type, basis for contractor selection, and the basis of contract price (§\_\_\_\_.36(b)(9) and 2 CFR section 215.46).
  - b. Verify that procurements provide full and open competition (§\_\_\_\_.36(c)(1) and 2 CFR section 215.43).
  - c. Examine documentation in support of the rationale to limit competition in those cases where competition was limited and ascertain if the limitation was justified (§\_\_\_\_.36(b)(1) and (d)(4); and 2 CFR sections 215.43 and 215.44(e)).

- d. Verify that contract files exist and ascertain if appropriate cost or price analysis was performed in connection with procurement actions, including contract modifications and that this analysis supported the procurement action (§\_\_\_\_.36(f) and 2 CFR section 215.45).
- e. Verify that the Federal awarding agency approved procurements exceeding \$100,000 (see note below) when such approval was required. Procurements (1) awarded by noncompetitive negotiation, (2) awarded when only a single bid or offer was received, (3) awarded to other than the apparent low bidder, or (4) specifying a “brand name” product (§\_\_\_\_.36(g)(2) and 2 CFR section 215.44(e)) may require prior Federal awarding agency approval.

(Note: The above-specified \$100,000 threshold for procurement under grants will be changed to \$150,000 when the Council on Financial Assistance Reform’s efforts to consolidate OMB guidance are completed. In the interim, the \$100,000 threshold continues to apply *unless* an agency/program has issued guidance raising the threshold or the increased threshold is specified in the terms and conditions of award.)

- f. Verify compliance with other procurement requirements specific to an award.

*(Procedure 5 only applies to States and Federal awards subgranted by the State to a local government or Indian tribal government.)*

- 5. Test a sample of procurements to ascertain if the State’s laws and procedures were followed and that the policies and procedures used were the same as for non-Federal funds.

*(Procedures 6 and 7 apply to all non-Federal entities)*

- 6. Review the non-federal entity’s procedures for verifying that an entity with which it plans to enter into a covered transaction and any of its principals is not debarred, suspended, or otherwise excluded.

- 7. Select a sample of procurements and subawards and—

Test whether the non-Federal entity followed its procedures before entering into a covered transaction.

- 8. **Select a sample of ARRA-funded procurements, if any, for activities subject to Section 1605 of ARRA and test whether the non-Federal entity has —**

- a. **documented that the iron, steel, and manufactured goods used in the project are produced in the United States, or**
- b. **requested and received any waivers of the Buy-American requirements.**

## **J. PROGRAM INCOME**

### **Compliance Requirements**

Program income is gross income received that is directly generated by the federally funded project during the grant period. If authorized by Federal regulations or the grant agreement, costs incident to the generation of program income may be deducted from gross income to determine program income. Program income includes, but is not limited to, income from fees for services performed, the use or rental of real or personal property acquired with grant funds, the sale of commodities or items fabricated under a grant agreement, and payments of principal and interest on loans made with grant funds. Except as otherwise provided in the Federal awarding agency regulations or terms and conditions of the award, program income does not include interest on grant funds (covered under “Cash Management”), rebates, credits, discounts, refunds, etc. (covered under “Allowable Costs/Cost Principles”), or interest earned on any of them (covered under “Cash Management”). Program income does not include the proceeds from the sale of equipment or real property (covered under “Equipment and Real Property Management”).

Program income may be used in one of three methods: deducted from outlays, added to the project budget, or used to meet matching requirements. Unless specified in the Federal awarding agency regulations or the terms and conditions of the award, program income shall be deducted from program outlays. However, for research and development activities by institutions of higher education, hospitals, and other non-profit organizations, the default method is to add program income to the project budget. Unless Federal awarding agency regulations or the terms and conditions of the award specify otherwise, non-Federal entities have no obligation to the Federal Government regarding program income earned after the end of the grant period.

### **Source of Governing Requirements**

The requirements for program income are found in the A-102 Common Rule (§\_\_\_\_.21 (payment) and §\_\_\_\_.25 (program income)); OMB Circular A-110 (2 CFR section 215.2 (program income definition), 2 CFR section 215.22 (payment), and 2 CFR section 215.24 (program income)), program legislation, Federal awarding agency regulations, and the terms and conditions of the award.

### **Audit Objectives**

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_\_.500(c).
2. Determine whether program income is correctly determined, recorded, and used in accordance with the program requirements, A-102 Common Rule, and OMB Circular A-110, as applicable.

**Suggested Audit Procedures – Internal Control**

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for program income and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

**Suggested Audit Procedures – Compliance**

1. *Identify Program Income*
  - a. Review the laws, regulations, and the provisions of contract or grant agreements applicable to the program and ascertain if program income was anticipated. If so, ascertain the requirements for determining or assessing the amount of program income (e.g., a scale for determining user fees, prohibition of assessing fees against certain groups of individuals, etc.), and the requirements for recording and using program income.
  - b. Inquire of management and review accounting records to ascertain if program income was received.
2. *Determining or Assessing Program Income* – Perform tests to verify that program income was properly determined or calculated in accordance with stated criteria, and that program income was only collected from allowable sources.
3. *Recording of Program Income* – Perform tests to verify that all program income was properly recorded in the accounting records.
4. *Use of Program Income* – Perform tests to ascertain if program income was used in accordance with the program requirements, the A-102 Common Rule, and OMB Circular A-110.

## **K. REAL PROPERTY ACQUISITION AND RELOCATION ASSISTANCE**

### **Compliance Requirements**

The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, (URA) provides for uniform and equitable treatment of persons displaced by federally assisted programs from their homes, businesses, or farms. Property acquired must be appraised by qualified independent appraisers. All appraisals must be examined by a review appraiser to ensure acceptability. After acceptance, the review appraiser certifies the recommended or approved value of the property for establishment of the offer of just compensation to the owner. Federal requirements govern the determination of payments for replacement housing assistance, rental assistance, and down payment assistance for individuals displaced by federally funded projects. The regulations also cover the payment of moving-related expenses and reestablishment expenses incurred by displaced businesses and farm operations.

### **Source of Governing Requirements**

Governmentwide requirements for real property acquisition and relocation assistance are contained in Department of Transportation's single governmentwide rule at 49 CFR part 24, Uniform Relocation Assistance and Real Property Acquisition Regulations for Federal and Federally-Assisted Programs.

### **Audit Objectives**

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_\_.500(c).
2. Determine whether the non-Federal entity complied with the real property acquisition, appraisal, negotiation, and relocation requirements.

### **Suggested Audit Procedures – Internal Control**

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for real property acquisition and relocation assistance and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

**Suggested Audit Procedures – Compliance**

1. Inquire of management and review the records of Federal programs to ascertain if the non-Federal entity administers federally assisted programs that involve the acquisition of real property or the displacement of households or businesses.

2. *Property Acquisitions*

For a sample of acquisitions:

- a. *Appraisal* – Test records to ascertain if (1) the just compensation amount offered the property owner was determined by an appraisal process; (2) the appraisal(s) was examined by a review appraiser; and, (3) the review appraiser prepared a signed statement which explains the basis for adjusting comparable sales to reach the review appraiser’s determination of the fair market value.
  - b. *Negotiations* – Test supporting documentation to ascertain if (1) a written offer of the appraised value was made to the property owner; and (2) a written justification was prepared if the purchase price for the property exceeded the amount offered and that the documentation (e.g., recent court awards, estimated trial costs, valuation problems) supports such administrative settlement as being reasonable, prudent, and in the public interest.
  - c. *Residential Relocations* – Test supporting documentation to ascertain if the non-Federal entity made available to the displaced persons one or more comparable replacement dwellings.
3. *Replacement Housing Payments* – For a sample, test the non-Federal entity’s records to ascertain if there is documentation that supports the following:
    - a. The owner occupied the displacement dwelling for at least 180 days immediately prior to initiation of negotiations.
    - b. The non-Federal entity examined at least three comparable replacement dwellings available for sale and computed the payment on the basis of the price of the dwelling most representative of the displacement dwelling.
    - c. The asking price for the comparable dwelling was adjusted, to the extent justified by local market data, to recognize local area selling price reductions.
    - d. The allowance for increased mortgage cost “buy down” amount was computed based on the remaining principal balance, the interest rate, and the remaining term of the old mortgage on the displacement dwelling.
    - e. The non-Federal entity prepared written justification on the need to employ last resort housing provisions, if the total replacement housing payment exceeded \$22,500.

4. *Rental or Downpayment Assistance* – For a sample, test the non-Federal entity’s records to ascertain if there is documentation that supports the following:
  - a. The displacee occupied the displacement dwelling for at least 90 days immediately prior to initiation of negotiations.
  - b. The displacee rented, or purchased, and occupied a decent, safe, and sanitary replacement dwelling within one year.
  - c. The non-Federal entity prepared written justification if the payment exceeded \$5,250.
  
5. *Business Relocations* – For a sample of business relocations:
  - a. *Moving Expenses* – Test that payments for moving and related expenses were for actual costs incurred or that fixed payments, in lieu of actual costs, were limited to a maximum of \$20,000 and computed based on the average annual net earnings of the business, as evidenced by income tax returns, certified financial statements, or other reliable evidence.
  - b. *Business Reestablishment Expense* – Verify that (1) the displacee was eligible as a farm operation, a non-profit organization, or a small business to receive reestablishment assistance, and (2) the payment was for actual costs incurred and did not exceed \$10,000.

## L. REPORTING

### Compliance Requirements

For purposes of the Supplement, the designation “Not Applicable” in relation to “Financial Reporting,” “Performance Reporting,” and “Special Reporting” means that the auditor is not expected to audit anything in these categories, whether or not award terms and conditions may require such reporting. **However, for Section 1512 ARRA reporting, “Not Applicable” means the program is not subject to Section 1512 reporting; while “Applicable” means the program, in whole or in part, involves ARRA funding for which recipients awarded such funds must provide the required reports.** The same approach is used for subaward reporting under the Federal Funding Accountability and Transparency Act (Transparency Act).

#### *Financial Reporting*

Recipients should use the standard financial reporting forms or such other forms as may be authorized by OMB (approval is indicated by an OMB paperwork control number on the form). Each recipient must report program outlays and program income on a cash or accrual basis, as prescribed by the Federal awarding agency. If the Federal awarding agency requires reporting of accrual information and the recipient’s accounting records are not normally maintained on the accrual basis, the recipient is not required to convert its accounting system to an accrual basis but may develop such accrual information through analysis of available documentation. The Federal awarding agency may accept identical information from the recipient in machine-readable format, computer printouts, or electronic outputs in lieu of the prescribed formats.

The financial reporting requirements for subrecipients are as specified by the pass-through entity. In many cases, these will be the same as or similar to the following requirements for recipients.

The standard financial reporting forms are as follows:

1. *Request for Advance or Reimbursement (SF-270 (OMB No. 0348-0004))*. Recipients are required to use the SF-270 to request reimbursement payments under non-construction programs, and may be required to use it to request advance payments.
2. *Outlay Report and Request for Reimbursement for Construction Programs (SF-271 (OMB No. 0348-0002))*. Recipients use the SF-271 to request funds for construction projects unless advances or the SF-270 are used.
3. *Federal Financial Report (FFR) (SF-425/SF-425A (OMB No. 0348-0061))*. Recipients use the FFR as a standardized format to report expenditures under Federal awards, as well as, when applicable, cash status (Lines 10.a, 10.b, and 10.c). References to this report include its applicability as both an expenditure and a cash status report unless otherwise indicated.

Electronic versions of the standard forms are located on OMB’s home page ([http://www.whitehouse.gov/omb/grants\\_forms](http://www.whitehouse.gov/omb/grants_forms)).

### *Performance Reporting*

Recipients may be required to submit performance reports at least annually but not more frequently than quarterly. Performance reports generally contain, for each award, brief information of the following types:

1. A comparison of actual accomplishments with the goals and objectives established for the period.
2. Reasons why established goals were not met, if appropriate.
3. Other pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

Note: The Federal agencies are moving toward the use of standard performance/progress reporting formats; however, there currently is no specified date for completion of the transition. Currently some agencies/programs are using the Performance Progress Report or the Research Performance Progress Report.

### *Special Reporting*

Non-Federal entities may be required to submit other reporting which may be used by the Federal agency for such purposes as allocating program funding.

Compliance testing of performance and special reporting are only required for data that are quantifiable and meet the following criteria:

1. Have a direct and material effect on the program.
2. Are capable of evaluation against objective criteria stated in the laws, regulations, contract or grant agreements pertaining to the program.

Performance and special reporting data specified in Part 4, Agency Program Requirements, meet the above criteria.

### *American Recovery and Reinvestment Act Reporting*

**Section 1512 of ARRA includes reporting requirements applicable to recipients of awards under ARRA Division A. This section (III.L, Reporting) is relevant only for awards received as a prime recipient (as defined below). This section is not applicable to awards received by a 1<sup>st</sup> tier-subrecipient (as defined in Appendix VII) or by a lower-level subrecipient. An entity could have received awards as both a recipient and a subrecipient within a major program.**

**OMB has issued many documents that provide guidance on the reporting requirements under ARRA (located at ([http://www.whitehouse.gov/omb/recovery\\_default/](http://www.whitehouse.gov/omb/recovery_default/))). Among them, M-09-21, *Implementing Guidance for the Reports on Use of Funds Pursuant to the American Recovery and Reinvestment Act of 2009* (June 22, 2009), provides relevant**

**information for the audit procedures. The M-09-21 guidance covers the reporting requirements of Section 1512 of ARRA and includes two supplements: (1) a list of programs subject to the ARRA reporting requirements, and (2) a Recipient Reporting Data Model. M-09-21 provides extensive guidance for recipients and Federal agencies. While not a replacement for reading the entire document, the following excerpts highlight essential information.**

*Section 2.1 What recipient reporting is required in Section 1512 of the Recovery Act?*

**Section 1512 of the Recovery Act requires reporting on the use of Recovery Act funding by recipients no later than the 10<sup>th</sup> day after the end of each calendar quarter (beginning the quarter ending September 30, 2009). Aimed at providing transparency into the use of these funds, the recipient reports are required to include the following detailed information:**

- **Total amount of funds received; and of that the amount spent on projects and activities;**
  - **A list of those projects and activities funded by name to include:**
    - **Description**
    - **Completion status**
    - **Estimates on jobs created or retained;**
- **Details on sub-awards and other payments.**

*Section 2.2 Who is required to report under Recovery Act?*

**The prime recipients of all programs identified in the list of Federal programs subject to Section 1512 of the Recovery Act in the supplemental materials to this Guidance are responsible for reporting the information required by Section 1512 of the Act and as provided in this Guidance. Prime recipients may choose to delegate certain reporting requirements to sub-recipients, as described in Section 2.3.**

**The prime recipients are non-Federal entities that receive Recovery Act funding as Federal awards in the form of grants, loans or cooperative agreements directly from the Federal Government.**

*Section 2.3 What are the respective responsibilities of prime recipients and sub-recipients in meeting Section 1512 reporting responsibilities?*

**The prime recipient is ultimately responsible for the reporting of all data required by Section 1512 of the Recovery Act and this Guidance, including the Federal Funding Accountability and Transparency Act (FFATA) data elements for the sub-recipients of the prime recipient required under 1512(c)(4). Prime recipients may delegate certain reporting requirements to sub-recipients, as described below. If the**

**reporting is delegated to a sub-recipient, the delegation must be made in time for the sub-recipient to prepare for the reporting, including registering in the system.**

**The specific data elements to be reported by prime recipients and sub-recipients are included in the data dictionary contained in the *Recipient Reporting Data Model*.**

***Section 2.5 How will recipient reporting be submitted?***

**The information reported by all prime recipients (and those sub-recipients to which the prime recipient has delegated reporting responsibility) will be submitted through [www.FederalReporting.gov](http://www.FederalReporting.gov), the online web portal that will collect all Recovery Act recipient reports.**

***Section 2.11 How will these reports be made available to the public?***

**All reports submitted pursuant to Section 1512 of the Recovery Act will be made available on [www.Recovery.gov](http://www.Recovery.gov) and on individual Federal agency recovery websites.**

**OMB also issued**

**M-10-14, *Updated Guidance on the American Recovery and Reinvestment Act* (March 22, 2010), which provides information on the continuous corrections period instituted by the Recovery Accountability and Transparency Board (RATB) in January 2010 under which recipients can correct reported data for the immediately preceding reporting quarter after that reporting quarter has ended and after the data is published on [FederalReporting.gov](http://FederalReporting.gov). The ending date for the continuous corrections period may vary, and auditors should inquire of the entity to determine the ending date for the quarter subject to auditing procedures.**

**M-10-34, *Updated Guidance on the American Recovery and Reinvestment Act* (September 24, 2010), which provides (1) guidance on applicability of ARRA reporting requirements to the Education Jobs Fund in Pub. L. No. 111-226, (2) updated guidance on reporting procedures, (3) changes for Federal contractors, and (4) guidance on improving transparency of narrative descriptions in recipient reporting.**

**Compliance testing of the ARRA reporting requirements shall include only the following key data elements of the 1512 reporting:**

<i>Recipient Data Elements</i>	<i>Definition from M-09-21 Recipient Data Reporting Model v3.0 (June 22, 2009 as updated for the quarter ending December 31, 2009)</i>
<b>Award Number</b>	<b>The identifying number assigned by the awarding Federal Agency, such as the federal grant number, federal contract number or the federal loan number.</b>
<b>Award Amount</b>	<b>For Grants:</b> <b>The total amount of Federal dollars on the award.</b> <b>For Loans:</b> <b>The total amount the loan obligated by the Federal Agency. This is the face value of the loan.</b> <b>For Federally Awarded Contracts:</b> <b>The total amount obligated by the Federal Agency.</b>
<b>Total Federal Amount ARRA Funds Received/Invoiced<sup>1</sup></b>	<b>For Grants and Loans:</b> <b>The amount of Recovery Acts funds received through drawdown, reimbursement or invoice.</b> <b>For Federally Awarded Contracts:</b> <b>The amount of Recovery Act funds invoiced by the federal contractor (cumulative).</b>
<b>Total Federal Amount of ARRA Expenditures<sup>2</sup></b>	<b>This is for grants and loans only. Amount of Recovery Act funds received that were expended for projects or activities (“Federal Share of Expenditures”). The cumulative total for the amount of federally funded expenditures. For reports prepared on a cash basis, expenditures are the sum of cash disbursements for direct charges for property and services; the amount of indirect expense charged; the value of third-party in-kind contributions applied; and the amount of cash advance payments and payments made to subcontractors and subawardees. For reports prepared on an accrual basis, expenditures are the sum of cash disbursements for direct charges for property and services; the amount of indirect</b>

1 The Federal awarding agency is permitted to post and distribute its own guidance for recipient reporting of this data element provided that the program-specific guidance does not conflict (in whole or in part) with OMB guidance. The agency’s guidance should be available on Recovery.gov at <http://www.recovery.gov/FAQ/QuickLinks/Pages/AgencyRecoverySites.aspx>

2 See footnote 1.

<i>Recipient Data Elements</i>	<i>Definition from M-09-21 Recipient Data Reporting Model v3.0 (June 22, 2009 as updated for the quarter ending December 31, 2009)</i>
	<p>expense incurred; the value of in-kind contributions applied; and the net increase or decrease in the amounts owed by the recipient for (1) goods and other property received; (2) services performed by employees, contractors, subcontractors, subawardees, and other payees; and (3) programs for which no current services or performance are required. Do not include program income expended. See also Note 2 below.</p>

**Note 1:** While the “number of jobs” is a required data element on the Section 1512 reports, the auditor is not required to test the “number of jobs” as part of the compliance work performed on Section 1512 ARRA reporting.

**Note 2:** With regard to 1512 reporting, recipients are required to report expenditures as of the last day of the quarter for the full quarter. However, due to the accounting closing process, some recipients do not have the actual expenditures amount within the 10 days allowed for the 1512 reporting period. “Best available data” can be used in these instances. Best available data” should represent the full quarter and can include estimates. For example, if the recipient has two months of finalized data and the third month can only be estimated due to the timing of closing the monthly financial data, this approach is acceptable. However, if estimates are used for quarterly reporting, the recipient should have a process in place to review the submitted reports, (after the reports have been submitted) and determine if there are any material differences that would require the report to be corrected during the FederalReporting.gov continuous correction period (described above). If there are no material differences, there is no need for the recipient to correct a submitted report. Note that it is not appropriate for recipients to utilize a “best available data” approach that uses a “lag” methodology (e.g., using finalized data for two months of a quarter and then not including the final month of the quarter).

*Federal Funding Accountability and Transparency Act*

Aspects of the Federal Funding Accountability and Transparency Act (Pub. L. No. 109-282) (Transparency Act), as amended by Section 6202(a) of the Government Funding Transparency Act of 2008 (Pub. L. No. 111-252), that relate to subaward reporting (1) under grants and cooperative agreements were implemented as interim final guidance by OMB in 2 CFR part 170, effective October 1, 2010 (75 FR 55663 *et seq.*, September 14, 2010) and (2) under contracts, by the regulatory agencies responsible for the Federal Acquisition Regulation (FAR) in an interim rule, effective July 8, 2010 (75 FR 39414 *et seq.*, July 8, 2010). The interim final guidance and the interim rule have the same effect as final guidance or a final rule and will remain in effect until superseded by final issuances. If the final issuances include any changes to the interim requirements, they will have new effective dates. The requirements pertain to recipients (i.e., direct recipients) of grants or cooperative agreements who make first-tier subawards and

contractors (i.e., prime contractors) that award first-tier subcontracts. There are limited exceptions as specified in 2 CFR part 170 and the FAR. The guidance at 2 CFR part 170 currently applies only to Federal financial assistance awards in the form of grants and cooperative agreements, e.g., it does not apply to loans made by a Federal agency to a recipient; however, the subaward reporting requirement applies to all types of first-tier subawards under a grant or cooperative agreement.

As provided in 2 CFR part 170 and FAR Subpart 4.14, respectively, Federal agencies are required to include the award term specified in Appendix A to 2 CFR part 170 or the contract clause in FAR 52.204-10, Reporting Executive Compensation and First-Tier Subcontract Awards, as applicable, in awards subject to the Transparency Act.

In general, the Transparency Act reporting requirements do not apply to ARRA-funded awards, i.e., separate subaward reporting under the Transparency Act as described in this section is not required. Subawards under awards funded by ARRA will continue to be reported through [FederalReporting.gov](http://FederalReporting.gov). However, consistent with the effective date for Transparency Act reporting, if a subaward is made using both ARRA and non-ARRA funding sources, the Section 1512 ARRA requirement applies to the ARRA-funded part of the subaward, while the Transparency Act reporting requirement applies to the non-ARRA funds. For example, if a subaward is made with \$40,000 in ARRA funding and \$30,000 in non-ARRA funding, activities related to the \$40,000 must be reported in [FederalReporting.gov](http://FederalReporting.gov); while the \$30,000 non-ARRA subaward amount must be reported in the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS) (see below).

OMB has issued several documents that provide guidance on the reporting requirements under the Transparency Act (located at (<http://www.whitehouse.gov/omb/open>)). Among them are *Open Government Directive – Federal Spending Transparency* (April 6, 2010) and *Open Government Directive – Federal Spending Transparency and Subaward and Compensation Data Reporting* (August 27, 2010).

Consistent with the OMB guidance,

- [2 CFR part 170](#) defines “subaward” as a legal instrument to provide support for the performance of any portion of the substantive project or program for which a recipient received a grant or cooperative agreement award and that is awarded to an eligible subrecipient. The term does not include procurement of property and services needed to carry out the project or program. A subaward may be provided through any legal agreement, including an agreement that the recipient considers a contract.
- [FAR 52.204-10\(a\)](#) defines “first-tier subcontract” to mean a subcontract awarded directly by a contractor to furnish supplies or services (including construction) for performance of a prime contract, but excludes supplier agreements with vendors, such as long-term arrangements for materials or supplies that would normally be applied to a contractor's general and administrative expenses or indirect cost.

While 2 CFR part 170 and the FAR implement several distinct Transparency Act reporting requirements, including reporting of executive compensation, the Supplement addresses only the following requirements: (1) recipient reporting of each first-tier subaward or subaward amendment that results in an obligation of \$25,000 or more in Federal funds; and (2) contractor reporting of each first-tier subcontract award of \$25,000 or more in Federal funds (this requirement was phased in based on the value of the new prime contract as specified below under “Effective Date of Reporting Requirements”). The two requirements vary somewhat as shown in the example in the following table, i.e., the triggering event for reporting under a grant or cooperative agreement is the obligation of funds under a subaward or subaward amendment rather than a payment made pursuant to the subaward; the triggering event for reporting under a contract is awarding or modifying a first-tier subcontract. Under either set of requirements, the reporting must be accomplished by the end of the month following the month in which the reportable action occurred (as shown in the table).

<b>If the value of a first-tier</b>	<b>and</b>	<b>then</b>	<b>by</b>
<b><u>subaward under a grant or cooperative agreement is</u></b>			
\$65,000 in Federal funds	the entire \$65,000 is obligated on June 1, 2012,	the \$65,000 subaward obligation must be reported	July 31, 2012.
\$65,000 in Federal funds	\$23,000 is obligated at the time of the subaward, and two separate amendments subsequently obligate \$30,000 on October 1, 2012 and \$12,000 on December 30, 2012, respectively,	only the \$30,000 amendment obligation is required to be reported  (Note: This example may occur infrequently but should not be used by a recipient to avoid reporting.)	November 30, 2012.
\$24,000 in Federal funds	after the initial obligation of \$24,000, the subaward is subsequently amended to obligate an additional \$25,000 on September 15, 2012,	the initial \$24,000 subaward obligation is not required to be reported; however, the \$25,000 amendment obligation must be reported	October 31, 2012.
\$24,000 in Federal funds	the entire \$24,000 is obligated at the time of the subaward,	no subaward reporting is required.	----
<b><u>subcontract under a contract is</u></b>			
\$65,000 in Federal funds	the entire subcontract amount is obligated in full on July 31, 2012 or only a part of the \$65,000 is obligated on July 31, 2012,	the total \$65,000 value of the subcontract must be reported	August 31, 2012.
increased from \$65,000 in Federal funds to \$75,000 in Federal funds	the subcontract is modified on November 24, 2012,	the changed value, i.e., \$75,000, must be reported	December 31, 2012.

### Effective Date of Reporting Requirements

#### Grants and Cooperative Agreements

For grants and cooperative agreements, the effective date is October 1, 2010 for all discretionary and mandatory awards equal to or exceeding \$25,000 made with a new Federal Assistance Identification Number (FAIN) on or after that date. The FAIN is the unique award number assigned to a particular grant or cooperative agreement by the Federal awarding agency (as opposed to the CFDA number, which pertains to a program generally). As it appears on the prime award document (e.g., pre-printed form, letter, or electronically generated format), this number also may be termed “award number,” grant number,” or be indicated by some other terminology, but its purpose is to identify that particular award. The FAIN may include both letters and numbers. The Federal Government does not specify any requirements for numbering of subawards.

In some programs, Federal agencies assign a new award number each year and that new award number is considered a new FAIN. Therefore, if the FAIN for an award made in November 2009 was AB-12345 and for an award under the same program made in November 2010 was AB-56789, the latter would be considered a new FAIN. In some programs, where awards are made for a multi-year project, but may be funded in increments, even though a suffix may be added, e.g., -02 or -03 designating the subsequent years of an approved project, this is not considered a new FAIN. For example, if the FAIN for an award made in November 2009 was AB-12345-01 and the award made in November 2010 was AB-12345-02, the latter would **not** be considered a new FAIN.

Because of the multiple business processes of different Federal programs, while Part 4 of this Supplement indicates whether Transparency Act reporting applies to a program (see III.L.5 in each program supplement), that information must be used in conjunction with an understanding of the effective date for a particular award.

Recipients are not required to report on subawards made on or after October 1, 2010 that use funds awarded prior to that date.

#### Contracts

For contracts, implementation was phased in for contracts based on their total dollar value. Based on the FAR interim final rule, Transparency Act reporting is required for:

- From July 8, 2010 until September 30, 2010, any newly awarded subcontract of \$25,000 or more must be reported if the value of the Federal prime contract award under which that subcontract was awarded was \$20,000,000 or more.
- From October 1, 2010 until February 28, 2011, any newly awarded subcontract of \$25,000 or more must be reported if the value of the Federal prime contract award under which that subcontract was awarded was \$550,000 or more.

- Starting March 1, 2011, any newly awarded subcontract of \$25,000 or more must be reported if the value of the Federal prime contract award under which that subcontract was awarded was \$25,000 or more.

### *Reporting Site*

Grant and cooperative agreement recipients and contractors are required to register in the Federal Funding Accountability and Transparency Act Subaward Reporting System (FSRS) and report subaward data through FSRS. To do so, they will first be required to register in Central Contractor Registration (CCR) (if they have not done so previously for another purpose, e.g., submission of applications through Grants.gov) and actively maintain that registration. Prime contractors have previously been required to register in CCR. Information input to FSRS is available at USASpending.gov as the publicly available website for viewing this information (<http://www.usaspending.gov/subaward-advanced-search>).

### *Key data elements*

Compliance testing of the Transparency Act reporting requirements shall include the following key data elements about the first-tier subrecipients and subawards under grants and cooperative agreements.

<b>Subaward data element</b>	<b>Definition from <i>Open Government Directive – Federal Spending Transparency and Subaward and Compensation Data Reporting (August 27, 2010) Appendix C</i></b>
Subaward Date	Represents the time period (by month and year) for subawards made against that Federal Award Identification Number (FAIN)
Subawardee DUNS #	The subawardee organization's 9 digit Data Universal Numbering System (DUNS) number
Amount of Subaward	The net dollar amount of Federal funds awarded to the subawardee including modifications.
Subaward Obligation/Action Date	Date the subaward agreement was signed
Date of Report Submission	Date the recipient or contractor entered the action/obligation into FSRS
Subaward Number	Subaward number or other identifying number assigned by the prime awardee organization to facilitate the tracking of its subawards

## Source of Governing Requirements

Reporting requirements are contained in the following documents:

- a. A-102 Common Rule - Financial reporting, §\_\_\_\_.41; Performance reporting, §\_\_\_\_.40(b).
- b. OMB Circular A-110 - Financial reporting, 2 CFR section 215.52 (this section has not been updated to reference the new form); Performance reporting, 2 CFR section 215.51.
- c. Program legislation.
- d. **ARRA and the previously listed OMB guidance documents.**
- e. Transparency Act, implementing requirements in 2 CFR part 170 and the FAR, and the previously listed OMB guidance documents.
- f. Federal awarding agency regulations.
- g. The terms and conditions of the award.

## Audit Objectives

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_\_.500(c).
2. Determine whether required reports for Federal awards include all activity of the reporting period, are supported by applicable accounting or performance records, and are fairly presented in accordance with governing requirements.

## Suggested Audit Procedures – Internal Control

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for reporting and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

## Suggested Audit Procedures – Compliance

### *Financial, performance, and special reports*

Note: For recipients using HHS' Payment Management System (PMS) to draw Federal funds, the auditor should consider the following steps numbered 1 through 5 as they pertain to the cash reporting portion of the SF-425A, regardless of the source of the data included in the PMS reports. Although certain data is supplied by the Federal awarding agency (i.e., award authorization amounts) and certain amounts are provided by the Division of Payment Management, HHS, the auditor should ensure that such amounts are in agreement with the recipient's records and are otherwise accurate.

1. Review applicable laws, regulations, and the provisions of contract or grant agreements pertaining to the program for reporting requirements. Determine the types and frequency of required reports. Obtain and review Federal awarding agency or pass-through entity, in the case of a subrecipient, instructions for completing the reports.
  - a. For financial reports, ascertain the accounting basis used in reporting the data (e.g., cash or accrual).
  - b. For performance and special reports, determine the criteria and methodology used in compiling and reporting the data.
2. Perform appropriate analytical procedures and ascertain the reason for any unexpected differences. Examples of analytical procedures include:
  - a. Comparing current period reports to prior period reports.
  - b. Comparing anticipated results to the data included in the reports.
  - c. Comparing information obtained during the audit of the financial statements to the reports.

Note: The results of the analytical procedures should be considered in determining the nature, timing, and extent of the other audit procedures for reporting.

3. Select a sample of each of the following report types:
  - a. Financial reports
    - (1) Ascertain if the financial reports were complete, accurate, and prepared in accordance with the required accounting basis.
    - (2) Trace the amounts reported to accounting records that support the audited financial statements and the Schedule of Expenditures of Federal Awards and verify agreement or perform alternative procedures to verify the accuracy and completeness of the reports and that they agree with the accounting records. If reports require information on an accrual basis and

the entity does not prepare its accounting records on an accrual basis, determine whether the reported information is supported by available documentation.

- (3) For any discrepancies noted in SF-425 reports concerning cash status when the advance payment method is used, review subsequent SF-425 reports to ascertain if the discrepancies were appropriately resolved with the applicable payment system.
- b. Performance and special reports
  - (1) Trace the reported data to records that accumulate and summarize data.
  - (2) Perform tests of the underlying data to verify that the data were accumulated and summarized in accordance with the required or stated criteria and methodology, including the accuracy and completeness of the reports.
4. Test the selected reports for accuracy and completeness.
  - a. For financial reports, review accounting records and ascertain if all applicable accounts were included in the sampled reports (e.g., program income, expenditure credits, loans, interest earned on Federal funds, and reserve funds).
  - b. For performance and special reports, review the supporting records and ascertain if all applicable data elements were included in the sampled reports.
  - c. For each type of report—
    - (1) When intervening computations or calculations are required between the records and the reports, trace reported data elements to supporting worksheets or other documentation that link reports to the data.
    - (2) Test mathematical accuracy of reports and supporting worksheets.
5. Obtain written representation from management that the reports provided to the auditor are true copies of the reports submitted or electronically transmitted to the Federal awarding agency, the applicable payment system, or pass-through entity in the case of a subrecipient.

#### ***ARRA Section 1512 Reports***

6. **Review M-09-021 and other relevant guidance issued by OMB since May 2010 for reporting requirements. Determine the methodology used in compiling and reporting the key data elements and ascertain whether the entity passed-through funding to any subrecipients.**

- 7. For awards received as a recipient, select the ARRA Section 1512 report for the calendar quarter preceding the entity’s year-end, or for a major program with multiple awards (i.e., R&D), select a sample of ARRA Section 1512 reports for the calendar quarter preceding the entity’s year-end. For example, the calendar quarter preceding an April 30, May 30, or June 30 entity fiscal year-end would be the quarter ending March 31.**
  
- 8. For each selected report, inquire of the entity as to whether it considers the report available on Recovery.gov to be its final submission. (The auditor should only test final submissions.) Find the award on Recovery.gov using the following link<sup>3</sup>: <http://www.recovery.gov/Pages/TextViewProjSummary.aspx?data=recipientAward&List&RenderData=ALL&State=ALL&Agency=ALL&Amount=ALL&AwardType=CGL> and search by award number.**
  
- 9. For awards received as a recipient:**
  - a. Trace the key data elements to records that accumulate and summarize data to verify that the data elements were presented in accordance with ARRA Section 1512 reporting requirements<sup>4</sup>.**
  
  - b. Perform tests of the underlying data to verify that the data were presented in accordance with the required or stated criteria and methodology, including the accuracy and completeness of the reports.**
    - (1) When intervening computations or calculations are required between the records and the data elements, trace reported data elements to supporting worksheets or other documentation that link reports to the data.**
  
    - (2) Test mathematical accuracy of supporting worksheets.**

---

<sup>3</sup> The following steps provide guidance to assist the auditor in locating the award. (Note that the website may have been modified since May 2010).

- Select “Where Is Money Going” tab
- Select “Recipient Reported Data” from the drop-down menu
- Scroll down to the center of the page; find the Recipient Reported Data Search section
- Click on “Go” (do not enter the name of the Agency, State/Territory or the amount) to be taken to the “Advanced Recipient Reported Data Search”

<sup>4</sup> The reporting of expenditures into FederalReporting.gov of anything less than a full quarter (e.g., use of the “lag” methodology described in section above titled, “American Recovery and Reinvestment Act Reporting”) would be considered as non-compliant with 1512 reporting requirements and would be an audit finding that should be reported in the auditor’s Single Audit reporting. However, this type of finding should not be reported with any associated questioned cost as there is no potential monetary recovery. Additionally, this type of audit finding would not generally result in the reporting of a “material weakness in internal control over compliance” or a qualified opinion on compliance for the program.

- c. If entity passed-through funding under the award to any subrecipients, ascertain if the pass-through entity had a process to monitor the accuracy of subrecipient reporting, whether or not the reporting has been delegated to the subrecipient.**

*First-tier subaward reporting (referred to as “subcontracts” if subject to the FAR) under the Transparency Act (Not ARRA funded)*

10. Gain an understanding of the recipient’s methodology used to identify which, if any, awards were subject to the Transparency Act based on inclusion of the award term, the assignment by the Federal awarding agency of a new FAIN, the effective date of the reporting requirement, and whether the entity passed funds through to first-tier subrecipients.
11. Select a sample of first-tier subawards/subcontracts from non-ARRA funded awards or awards funded with both ARRA and non-ARRA funding and any amendments/modifications to them. Obtain related subaward agreements/amendments/modifications and determine if the subaward/subcontract was subject to reporting under the Transparency Act based on (a) the date of the award and (b) the amount of the obligating action for subawards or face value of the first-tier subcontracts (inclusive of modifications).

If the subaward/subcontract was subject to reporting under the Transparency Act:

- a. Using the FAIN, find the award in FSRS.

FSRS is the portal where the recipient enters the award information; it is only accessible by the recipient. Therefore, in order for recipients to demonstrate that information has been properly input, they should coordinate with the auditor regarding the auditor’s review of the information (e.g. by logging into its FSRS account in the auditor’s presence so that the auditor is able to find the awards in the system as required in this procedure).

- b. Compare the award information accessed in step 11.a to the subaward/subcontract documents maintained by the recipient or contractor to assess if—
- (1) Applicable subaward obligations/subcontract awards/modifications have been reported,
  - (2) The key data elements (see above) were accurately reported and are supported by the source documentation, and
  - (3) The action was reported in FSRS no later than the last day of the month *following* the month in which the subaward/subaward amendment obligation was made or the subcontract award/subcontract modification was made.

### *Good Faith Effort for Submission Process*

In the event that applicable subawards/subcontracts were not properly reported by a recipient pursuant to the Transparency Act, auditors should evaluate compliance with these requirements based on whether a recipient demonstrated a “good faith” effort to comply with the submission process. Demonstration of a “good faith” effort by a recipient should be evidenced by proper documentation such as e-mails or phone logs of communication between a recipient and the awarding agency or GSA; or computer screen shots that illustrate recipient attempts to upload information into FSRS. Auditors are not required to report audit findings when there is evidence that a recipient demonstrated a “good faith” effort to submit the information. However, auditors still are required to report audit findings for non-compliance with the Transparency Act reporting requirements that are not supported by a recipient’s demonstrated “good faith” effort or are related to the accuracy of the information being submitted.

The auditor is not required to consider audit findings or modifications of audit opinions based solely on Part 3L, steps 10 and 11 when performing the risk-based approach under OMB Circular A-133. For example, a material non-compliance, material weakness in internal control over compliance, or a modified opinion based solely on Part 3L, steps 10 and 11 in a previously issued audit report would not preclude a program from being low risk or an entity from qualifying as a low-risk auditee in the two subsequent year audits.

This modified audit guidance does not relieve recipients of their responsibility for the Transparency Act reporting process. It is important for recipients to note that they still are required to comply with Transparency Act requirements and the requirements will continue to be subject to audit. Auditors are strongly encouraged to remind those charged with governance of the recipient of the entity’s responsibilities under the Transparency Act.

### *Comparison of ARRA and Transparency Act Reporting Requirements*

The following table is intended to assist the auditor in distinguishing, for purposes of the A-133 audit, the requirements that apply to reporting by recipients under ARRA and those that apply to reporting under the Transparency Act. Because some of the requirements related to this reporting apply directly to subrecipients, this table also may be used for purposes of determining applicable requirements under M, “Subrecipient Monitoring,” as explained in the next section of this Part 3.

<b>Comparison of ARRA and Transparency Act Reporting for Federal Awards</b>			
	<b>ARRA Funded (Reported under Section 1512 of ARRA)</b>	<b>Not ARRA Funded (Reported Under the Transparency Act)</b>	
		<i>Federal awards <u>not</u> subject to the FAR</i>	<i>Federal awards (contracts) subject to the FAR</i>
<b>DUNS Number</b>	Required of recipients (referred to as contractors under the FAR) and first-tier subrecipients (referred to as subcontractors under the FAR)	Required for recipients and first-tier subrecipients	Required for recipients (referred to as contractors under the FAR) and first-tier subcontractors (may also be subrecipients for purposes of OMB Circular A-133 audits)
<b>CCR Registration</b>	Required of recipients and first-tier subrecipients however not required for first-tier subcontractors under the FAR	Required of recipients; not required for first-tier subrecipients	Required of recipients; not required for first-tier subcontractors
<b>What is reported</b>	As required by Section 1512 of ARRA	Each first-tier subaward obligation of \$25,000 or more in Federal funds <b>IF</b> the Federal award that is the source of the funding was made on or after 10/1/2010 with a new FAIN; does not include vendor payments by recipients or subawards to individuals	Each first-tier subcontract with a value of \$25,000 or more under an applicable prime contract (based on the dollar value and date of the prime contract award) and any modification that changes the value
<b>Who reports it</b>	Recipient <b>or</b> may delegate reporting responsibility to first-tier subrecipients	Recipient	
<b>Where is it reported</b>	FederalSpending.gov	Recipient information at CCR; first-tier subaward information at FSRS	Recipient information at CCR; first-tier subcontract information at FSRS
<b>When must it be reported</b>	By the 10 <sup>th</sup> day after the end of the calendar quarter in which the Federal award was made and on a similar timeframe thereafter	By the end of the month following the month in which the obligation occurred	By the end of the month following the month in which the subcontract award or modification occurred
<b>Quick reference to requirement</b>	OMB M-09-21 Questions 2.1 – 2.11	2 CFR part 170 75 FR 55663 <i>et seq.</i>	75 FR 39414 <i>et seq.</i>

## M. SUBRECIPIENT MONITORING

**Note:** Transfers of Federal awards to another component of the same auditee under OMB Circular A-133 do not constitute a subrecipient or vendor relationship.

### Compliance Requirements

A pass-through entity is responsible for:

- *Determining Subrecipient Eligibility* – In addition to any programmatic eligibility criteria under E, “Eligibility for Subrecipients,” for subawards made on or after October 1, 2010, determining whether an applicant for a non-ARRA subaward has provided a Dun and Bradstreet Data Universal Numbering System (DUNS) number as part of its subaward application or, if not, before award (2 CFR section 25.110 and Appendix A to 2 CFR part 25).
- *Central Contractor Registration (CCR)* – **For ARRA subawards, identifying to first-tier subrecipients the requirement to register in the Central Contractor Registration, including obtaining a DUNS number, and maintaining the currency of that information (Section 1512(h) of ARRA, and 2 CFR section 176.50(c)). This requirement pertains to the ability to report pursuant to Section 1512 of ARRA and is not a pre-award eligibility requirement.** Note that subrecipients of non-ARRA funds are not required to register in CCR.
- *Award Identification* – At the time of the subaward, identifying to the subrecipient the Federal award information (i.e., CFDA title and number; award name and number; if the award is research and development; and name of Federal awarding agency) and applicable compliance requirements. **For ARRA subawards, identifying to the subrecipient the amount of ARRA funds provided by the subaward and advising the subrecipient of the requirement to identify ARRA funds in the Schedule of Expenditures of Federal Awards (SEFA) and the SF-SAC (see also N, Special Tests and Provisions in this Part).**
- *During-the-Award Monitoring* – Monitoring the subrecipient’s use of Federal awards through reporting, site visits, regular contact, or other means to provide reasonable assurance that the subrecipient administers Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved.
- *Subrecipient Audits* – (1) Ensuring that subrecipients expending \$500,000 or more in Federal awards during the subrecipient’s fiscal year for fiscal years ending after December 31, 2003 as provided in OMB Circular A-133 have met the audit requirements of OMB Circular A-133 (the circular is available at <http://www.whitehouse.gov/omb/circulars/a133/a133.html>) and that the required audits are completed within 9 months of the end of the subrecipient’s audit period; (2) issuing a management decision on audit findings within 6 months after receipt of the subrecipient’s audit report; and (3) ensuring that the subrecipient takes timely and appropriate corrective

action on all audit findings. In cases of continued inability or unwillingness of a subrecipient to have the required audits, the pass-through entity shall take appropriate action using sanctions.

*Ensuring Accountability of For-Profit Subrecipients* – Awards also may be passed through to for-profit entities. For-profit subrecipients are accountable to the pass-through entity for the use of Federal funds provided. Because for-profit subrecipients are not subject to the audit requirements of OMB Circular A-133, pass-through entities are responsible for establishing requirements, as needed, to ensure for-profit subrecipient accountability for the use of funds.

- *Pass-Through Entity Impact* – Evaluating the impact of subrecipient activities on the pass-through entity’s ability to comply with applicable Federal regulations. -

#### *During-the-Award Monitoring*

Following are examples of factors that may affect the nature, timing, and extent of during-the-award monitoring:

- *Program complexity* – Programs with complex compliance requirements have a higher risk of non-compliance.
- *Percentage passed through* – The larger the percentage of program awards passed through the greater the need for subrecipient monitoring.
- *Amount of awards* – Larger dollar awards are of greater risk.
- *Subrecipient risk* – Subrecipients may be evaluated as higher risk or lower risk to determine the need for closer monitoring. Generally, new subrecipients would require closer monitoring. For existing subrecipients, based on results of during-the-award monitoring and subrecipient audits, a subrecipient may warrant closer monitoring (e.g., if the subrecipient has (1) a history of non-compliance as either a recipient or subrecipient, (2) new personnel, or (3) new or substantially changed systems). Evaluation of subrecipient risk also may take into consideration the extent of Federal monitoring of subrecipient entities that also are recipients of prime Federal awards.

Monitoring activities normally occur throughout the year and may take various forms, such as:

- *Reporting* – Reviewing financial and performance reports submitted by the subrecipient.
- *Site Visits* – Performing site visits at the subrecipient to review financial and programmatic records and observe operations.
- *Regular Contact* – Regular contacts with subrecipients and appropriate inquiries concerning program activities.

### *Agreed-upon procedures engagements*

A pass-through entity may arrange for agreed-upon procedures engagements for certain aspects of subrecipient activities, such as eligibility determinations. Since the pass-through entity determines the procedures to be used and compliance areas to be tested, these agreed-upon procedures engagements enable the pass-through entity to target the coverage to areas of greatest risk. The costs of agreed-upon procedures engagements is an allowable cost to the pass-through entity if the agreed-upon procedures are performed for subrecipients below the A-133 threshold for audit (currently at \$500,000 for fiscal years ending after December 31, 2003) for the following types of compliance requirements: activities allowed or unallowed; allowable costs/cost principles; eligibility; matching, level of effort, earmarking; and reporting (OMB Circular A-133 (§\_\_\_.230(b)(2))).

### **Source of Governing Requirements**

The requirements for subrecipient monitoring are contained in 31 USC 7502(f)(2)(B) (Single Audit Act Amendments of 1996 (Pub. L. No. 104-156)); OMB Circular A-133 (§\_\_\_.225, §\_\_\_.310(d)(5), and §\_\_\_.400(d)); A-102 Common Rule (§\_\_\_.37 and §\_\_\_.40(a)); OMB Circular A-110 (2 CFR section 215.51(a)); program legislation; **Section 1512(h) of ARRA; 2 CFR section 176.50(c);** 2 CFR parts 25 and 170; 48 CFR parts 4, 42, and 52; Federal awarding agency regulations, and the terms and conditions of the award

### **Audit Objectives**

1. Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c).
2. For non-ARRA first-tier subawards made on or after October 1, 2010, determine whether the pass-through entity had the subrecipient provide a valid DUNS number before issuing the subaward.
3. Determine whether the pass-through entity properly identified Federal award information and compliance requirements to the subrecipient, **including requirements related to ARRA first-tier subawards, e.g., CCR registration (see N, Special Tests and Provisions in this Part)**, and approved only allowable activities in the subaward documents.
4. **For ARRA first-tier subawards, determine whether the pass-through entity assessed subrecipient compliance with the CCR registration requirement. [Note: Although subrecipients are not required to register at FederalReporting.gov unless the pass-through entity has delegated to them the responsibility for Section 1512 ARRA reporting, all subrecipients receiving ARRA funds are required to register in CCR as specified in 2 CFR section 176.50(c)].**
5. Determine whether the pass-through entity monitored subrecipient activities to provide reasonable assurance that the subrecipient administers Federal awards in compliance with Federal requirements and achieves performance goals.

6. Determine whether the pass-through entity ensured required audits are performed, issued a management decision on audit findings within 6 months after receipt of the subrecipient's audit report, and ensured that the subrecipient took timely and appropriate corrective action on all audit findings.
7. Determine whether in cases of continued inability or unwillingness of a subrecipient to have the required audits, the pass-through entity took appropriate action using sanctions.
8. Determine whether the pass-through entity evaluated the impact of subrecipient activities on the pass-through entity.
9. Determine whether the pass-through entity identified in the SEFA the total amount provided to subrecipients from each Federal program, **including separate identification of ARRA funds.**
10. If for-profit subawards are material, determine the adequacy of the pass-through entity's monitoring procedures for those subawards.

#### **Suggested Audit Procedures – Internal Control**

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for subrecipient monitoring and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in §\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether additional compliance tests and reporting are required because of ineffective internal control.
3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

#### **Suggested Audit Procedures – Compliance**

(Note: The auditor may consider coordinating the tests related to subrecipients performed as part of Cash Management (tests of cash reporting submitted by subrecipients), Eligibility (tests that subawards were made only to eligible subrecipients), and Procurement (tests of ensuring that a subrecipient is not suspended or debarred) with the testing of Subrecipient Monitoring.)

1. Gain an understanding of the pass-through entity's subrecipient procedures through a review of the pass-through entity's subrecipient monitoring policies and procedures (e.g., annual monitoring plan) and discussions with staff. This should include an understanding of the scope, frequency, and timeliness of monitoring activities and the number, size, and complexity of awards to subrecipients, including, as applicable, subawards to for-profit entities.

2. Test the pass-through entity's subaward review and approval documents for first-tier subawards to ascertain if the pass-through entity obtained DUNS numbers from non-ARRA subrecipients prior to issuance of the subaward.
3. Test subaward documents and agreements to ascertain if (a) at the time of subaward the pass-through entity made subrecipients aware of the award information (i.e., CFDA title and number; award name and number; if the award is research and development; and name of Federal awarding agency) and requirements imposed by laws, regulations, and the provisions of contract or grant agreements; (b) **included for first-tier subrecipients the requirements for CCR registration and SEFA and SF-SAC presentation for ARRA-funded awards**; and (c) the activities approved in the subaward documents were allowable. (See R3 under N, Special Tests and Provisions, for additional discussion of requirements for subawards with expenditures of ARRA awards.)
4. Review the pass-through entity's documentation of during-the-subaward monitoring to ascertain if the pass-through entity's monitoring provided reasonable assurance that subrecipients used Federal awards for authorized purposes, complied with laws, regulations, and the provisions of contracts and grant agreements, and achieved performance goals.
5. Review the pass-through entity's follow-up procedures to determine whether corrective action was implemented on deficiencies noted in during-the-subaward monitoring.
6. Verify that the pass-through entity:
  - a. Ensured that the required subrecipient audits were completed. For subrecipients that are not required to submit a copy of the reporting package to a pass-through entity because there were "no audit findings," the pass-through entity may use the information in the Federal Audit Clearinghouse (FAC) database (available at <http://harvester.census.gov/sac>) as evidence to verify that the subrecipient had "no audit findings" and that the required audit was performed. This FAC verification would be in lieu of reviewing submissions by the subrecipient to the pass-through entity (pursuant to A-133 §\_\_\_320(e)(2)) when there are no audit findings.
  - b. Issued management decisions on audit findings within 6 months after receipt of the subrecipient's audit report.
  - c. Ensured that subrecipients took appropriate and timely corrective action on all audit findings.
7. Verify that in cases of continued inability or unwillingness of a subrecipient to have the required audits, the pass-through entity took appropriate action using sanctions.
8. Verify that the effects of subrecipient noncompliance are properly reflected in the pass-through entity's records.

9. Verify that the pass-through entity monitored the activities of subrecipients not subject to OMB Circular A-133, including for-profit entities, using techniques such as those discussed in the “Compliance Requirements” provisions of this section with the exception that these subrecipients are not required to have audits under OMB Circular A-133. Review the pass-through entity’s follow-up procedures to determine whether corrective action was implemented on deficiencies noted during-the-subaward monitoring.
  
10. Determine if the pass-through entity has procedures that allow it to identify the total amount provided to subrecipients from each Federal program.

## N. SPECIAL TESTS AND PROVISIONS

### Compliance Requirements

The specific requirements for Special Tests and Provisions are unique to each Federal program and are found in the laws, regulations, and the provisions of contract or grant agreements pertaining to the program. For programs listed in this Supplement, the compliance requirements, audit objectives, and suggested audit procedures for Special Tests and Provisions are in Part 4 – Agency Program Requirements or Part 5 – Clusters of Programs. For programs not listed in this Supplement, the auditor shall review the program’s contract and grant agreements and referenced laws and regulations to identify the compliance requirements and develop the audit objectives and audit procedures for Special Tests and Provisions which could have a direct and material effect on a major program. The auditor should also inquire of the non-Federal entity to help identify and understand any Special Tests and Provisions.

Additionally, for both programs included and not included in this Supplement, the auditor shall identify any additional compliance requirements which are not based in law or regulation (e.g., were agreed to as part of audit resolution of prior audit findings) which could be material to a major program. Reasonable procedures to identify such compliance requirements would be inquiry of non-Federal entity management and review of the contract and grant agreements pertaining to the program. Any such requirements which may have a direct and material effect on compliance with the requirements of that major program shall be included in the audit.

### Internal Control

The following audit objective and suggested audit procedures should be considered in tests of special tests and provisions in addition to those provided in Part 4 – Agency Program Requirements; Part 5 – Clusters of Programs; and in accordance with Part 7 – Guidance for Auditing Programs Not Included in This Compliance Supplement:

### Audit Objective

Obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 § \_\_\_\_.500(c).

### Suggested Audit Procedures

1. Using the guidance provided in Part 6 – Internal Control, perform procedures to obtain an understanding of internal control sufficient to plan the audit to support a low assessed level of control risk for the program.
2. Plan the testing of internal control to support a low assessed level of control risk for special tests and provisions and perform the testing of internal control as planned. If internal control over some or all of the compliance requirements is likely to be ineffective, see the alternative procedures in § \_\_\_\_.500(c)(3) of OMB Circular A-133, including assessing the control risk at the maximum and considering whether

additional compliance tests and reporting are required because of ineffective internal control.

3. Consider the results of the testing of internal control in assessing the risk of noncompliance. Use this as the basis for determining the nature, timing, and extent (e.g., number of transactions to be selected) of substantive tests of compliance.

### **Special Tests and Provisions for Awards with ARRA Funding**

**The following three special tests and provisions, which ordinarily would be added in Part 4 guidance (or Part 7 for any programs not included in this Supplement), apply to all programs with expenditures of ARRA funds in addition to any special tests and provisions listed in Part 4. In addition to addressing the following audit objectives, the auditor should obtain an understanding of internal control, assess risk, and test internal control as required by OMB Circular A-133 §\_\_\_.500(c) and should consider the suggested audit procedures in this Section N.**

#### **R1 - Separate Accountability for ARRA Funding**

**Compliance Requirements - Depending on the type of organization undergoing audit, the administrative requirements that apply to most programs arise from two sources:**

- **A-102 Common Rule; and**
- **OMB Circular A-110.**

**There are also some other administrative compliance requirements contained in regulations that are not of the type covered in the A-102 Common Rule or OMB Circular A-110, that are unique to specific programs (Federal programs excluded from the A-102 Common Rule are listed in Appendix I of the Supplement). Those requirements may be found in applicable legislation, Federal awarding agency regulations, and award terms and conditions.**

**The financial management system must permit the preparation of required reports and tracing of funds adequate to establish that funds were used for authorized purposes and allowable costs.**

**As provided in 2 CFR section 176.210, Federal agencies must require recipients to (1) agree to maintain records that identify adequately the source and application of ARRA awards; (2) separately identify to each subrecipient, and document at the time of the subaward and disbursement of funds, the Federal award number, CFDA number, and the amount of ARRA funds; and (3) provide identification of ARRA awards in their Schedule of Expenditures of Federal Awards (SEFA) and Data Collection Form (SF-SAC) and require their subrecipients to provide similar identification in their SEFA and SF-SAC. Additional information, including presentation requirements for the SEFA and SF-SAC, is provided in Appendix VII.**

**Audit Objective - Determine whether accounting records for ARRA funds provide for the separate identification and accounting required for ARRA awards/activity.**

**Suggested Audit Procedure - Ascertain if expenditures of ARRA funds are accounted for separately from expenditures of non-ARRA funds.**

### **R2 - Presentation on the Schedule of Expenditures of Federal Awards and Data Collection Form**

**Compliance Requirement - Federal agencies must require recipients to agree to provide identification of ARRA awards in their SEFA and SF-SAC. Additional information, including presentation requirements for the SEFA and SF-SAC, is provided in Appendix VII (2 CFR section 176.210).**

**Audit Objective - Determine whether the entity met the requirements for reporting expenditures of ARRA awards on the SEFA and that reported amounts are supported by the accounting records and fairly presented in accordance with ARRA and program requirements.**

**Suggested Audit Procedure - Perform tests to verify that the SEFA properly identifies and reports expenditures of ARRA awards and reported expenditures are supported by accounting records.**

### **R3 - Subrecipient Monitoring**

**Compliance Requirement - Federal agencies must require recipients to agree to (1) separately identify to each subrecipient, and document at the time of the subaward and disbursement of funds, the Federal award number, CFDA number, and the amount of ARRA funds; and (2) require their subrecipients to provide similar identification (as noted in R2 above) in their SEFA and SF-SAC. Additional information, including presentation requirements for the SEFA and SF-SAC, is provided in Appendix VII (2 CFR section 176.210).**

**Audit Objective - If subawards of ARRA funds were made, determine whether the entity met the requirements for separately identifying to each subrecipient, and documenting at the time of the subaward and disbursement of funds, the Federal award number, CFDA number, and the amount of ARRA funds; and required their subrecipients to provide appropriate identification in their SEFA and SF-SAC.**

**Suggested Audit Procedure - Test a sample of subawards and verify that the entity separately identified to each subrecipient, and documented at the time of the subaward and disbursement of funds, the Federal award number, CFDA number, and the amount of ARRA funds; and required their subrecipients to provide appropriate identification in their SEFA and SF-SAC.**
